34th Year...

ESTABLISHED 1865, INCORPORATED 1887.

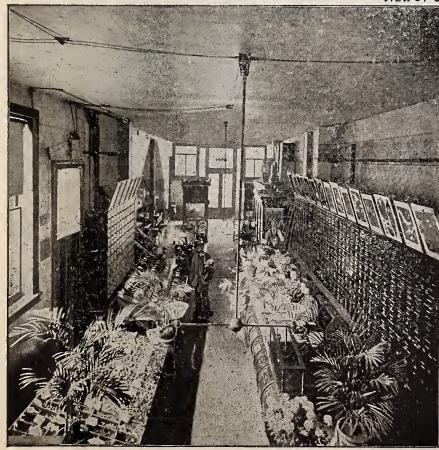

In submitting our Catalogue for the coming season we have much pleasure in thanking our customers for their very kind and liberal support during the past year; and in asking a continuance of their esteemed patronage we assure you that, as in the past, we shall continue to exercise our best care in the execution of all orders which we are entrusted with.

We also take this opportunity of tendering our most sincere thanks to our numerous customers who have been kind enough to recommend our firm, and we will ever strive to deserve their confidence.

The steady increase in the number of our customers and the great many unsolicited and flattering testimonials with which we have been honored year by year, are the hest proofs of the superiority and excellence of our seeds, plants and fruits, which we may confidentially say cannot be equalled. Those gardening friends who have not previously honored us with their orders are kindly invited to make a trial order, which will not only be found to be of a much better

VIEW OF CITY STORE.

INTERIOR OF CITY STORE.

quality than those usually sold by seedsmen and florists; but also in comparing our prices with those of other firms, customers will find it more advantageous to buy direct from us. All orders, even the smallest, will receive our prompt and most careful attention.

The illustrations on this page show our city store and seed warehouse, where all orders are received and filled the same day with high-grade seed that has been tested in our own grounds and greenhouses, which is an important advantage over seedsmen who are only dealers.

On the third page of cover is an illustration showing the extent and arrangement of our greenhouses and trial grounds, where all our seeds are subject to two test trials, and it is here that we grow all our Roses, Ornamental Plants, Shrubs and Trees. With this large establishment fitted up with all the modern improvements, we are in a position to fill orders promptly and with the best stock that can be grown. Soliciting the favor of your patronage, we remain,

Very truly yours,

C. YOUNG & SONS CO.,

1406 Olive Street,

ST. LOUIS. NO.

PLANTS AND SEEDS BY MAIL

drafts on Western towns unless 15 cents is added to cover cost of collection.

one-half the amount accompanies the order to guarantee the express charges. Please send the Remittance with the Order. - We do a strictly cash business, and have no open accounts in the mail

order department. Orders Promptly Answered.—All orders received by us are filled immediately on their arrival, except in the height of the busy season. They are then filled in rotation as quickly as possible.

Our Selections.—When purchasers prefer leaving the selections to us, they should mention in a general way what they are wanted for, and we will select the best varieties for their purpose.

Agents.—We employ no agents, and are only responsible for orders sent direct to us.

Special Notice.—While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, we do not give any warranty, express or implied. If the purchaser does not accept the goods on these conditions they must be returned at once, and the money that has been paid for same will be refunded.

DISCOUNTS, PREMIUMS AND TERMS TO CLUBS.

FOR CLUB RAISERS.

The success attending the efforts of those engaging in this work will largely depend upon the interest they display in it. Surely there are but few, indeed, who do not have some flower loving friends. Go among them, say that you are raising a club for C. Young & Sons Company, show them the complete list of Roses, Plants, Bulbs and Seeds offered herein, and it is only too likely that they will be glad to join your club. We shall perform our part with the utmost care; the strong, healthy stock we shall send will give satisfaction to each and every one. The person raising and sending us a club can make the following deductions from the total amount of the order at prices given in this catalogue:

Λ	Club	Order	amounting to	\$5	00	will	be	filled	complete	for \$4 00
		6.6		- 6	00	4 (6		6.6	4 75
	6.6	"	6.6	7	00		•	- 6	"	5 25
	6.6	6 +	6.6	8	00	6 (•		6.6	6 00

	6 6	6.6	6.6	20	00	6 (6	6 6	6.6	14 00

How to Send Club Orders.—Keep each person's order separate, giving his or her full name, with the amount of the order.

Remember, that the getter-up of the club is entitled to all discounts. We cannot allow each member of the club to select discounts and then allow the getter-up of the club to select another

discount. We will, however, add one plant for each dollar's worth that any one member of your club may send.

Discounts allowed on all orders accompanied by cash; this discount does not apply to CHARGE, C. O. D., or CLUB ORDERS.

IMPORTANT ITEMS. We guarantee every package of Plants, Seeds or Bulbs to reach the purchaser promptly, safely and in good condition. If a package is lost or its contents damaged on the way, we will send it again. When we deliver them to you in good order, our

Free by Mail.-We send all Seeds, Bnlbs and Plants free by mail, except special large size plants which are too large to be

When Peas, Beans or Corn are ordered to be sent by mail in quantities of pints or quarts, postage must added at the rate of Sc per pint and 15c per quart.
Have your Plants Forwarded by Express, as the Express Companies have made a special rate of 20 per cent less than general merchandise on Plants, Bulbs and Seeds. When plants are ordered to be sent by express they are much larger and all the soil is left undisturbed, which makes them grow much quicker than if sent by mail with all the soil taken off the roots. We always add a few plants gratis of our own selection

Plants in Pots.—Do not order plants sent in pots, as they usually get broken in transit, and express charges are double. How to Order .- Always use the order sheet and fill out the blank spaces carefully, with each article on a separate line, with the prices carried out, being careful to Write your Full Name, Post Office, County and State Plainly on each letter sent us,

Change of Address.—If you have changed or intend to change your address, please let us know, and we will change it on our books so that you will receive our Seed Annual without application at your new post

How to Send Money .- Remit by Draft, Money Order or Registered Letter. Currency in ordinary letters is at the risk of sender. Do not send private checks or

Dwarf Early Flowering Cosmos Dawn.

very attractive. Per pkt., 15c.

IMPERIAL JAPANESE MORNING GLORIES.

These are a wonderful improvement over the common Morning Glories, and wherever climbers are grown these should have a prominent place, as they are beyond question the handsomest of all the climbing annuals. They are of easy culture and can be sown in the open ground in a warm, sunny situation as soon as the weather is settled and all danger of frost is past. They may also be sown in the house and transplanted in the open ground when the weather has become warm; being a very strong and rapid grower they soon cover a large area, often attaining a height of thirty to forty feet. The varied forms of the foliage are a decided novelty, and the flowers are of gigantic size, of good substance, remaining open much longer than the ordinary Morning Giories. The colors and shadings of the flowers are beyond description. The seif and solid colors ranging from snow white to blackish purple, with all the possible intermediate shades, such as pink, rose, flery red, coppery red, carmine, crimson, pale blue, deep blue, royal purple, maroon, purple, indigo and bronze, others are edged with white, having throats of one of the above colors, while with others it is the reverse, the throats being white and edged with another color. Our colored sketch on back of cover will convey some idea of their great beauty and variety of color (see cut). All colors mixed, per pkt., 10c; 3 pkts., 25c.

NEW MAMMOTH FLOWERING HOLLYHOCK, ALLEGHENY.

The flowers of this new variety are so different from the old double ones that It would not be taken for a hollyhock.

The individual flowers are not set so closely to the stem, and when faded they drop off and do not rot, as is usual with the double variety. Every bud on the stem develops into a flower which measures from 4 to 6 inches in diameter. The colors are a shell pink, rose and ruby red, with deeper shades to the center. This variety is a vigorous grower and perfectly hardy. Mixed co ors, per pkt., 15c.

CENTUREA MARGUERITE.

This novelty is entirely distinct from all Centureas and is undoubtedly the most beautiful variety known. The blossoms are very large, averaging from 2 to 4 inches in diameter, of the purest white, deliciously scented, and produced very freely on long stems. which renders it very valuable for cut flowers (see cut). Per pkt., 15c.

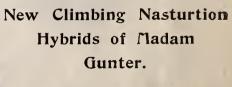

Centurea Marguerite.

NEW CLIMBING NASTURTION CHAMELEON.

This novelty is offered this season for the first time. It belongs to the tall growing class. The flowers are exceedingly large and are borne in great profusion in various colors on the same plant, which makes it very attractive. Per pkt., 15c.

These New Hybrid varieties are exceedingly strong-growing climbers, often attaining the height of 5 to 6 feet; they are also equally well adapted as trailing vines for vases or over the ground, being covered the entire summer with large substantial flowers of the most brilliant shades, embracing the following colors: Rose, pink, maroon, salmon, light yellow and deep orange, in self colors and in stripes and blotches in the most varied manner (see colored sketch on back of cover). Per pkt., 10c; oz., 2'c.

New Climbing Nasturtion, Madam Gunter.

For a Select List of Flower Seeds, see Pages 7 to 20; Novelties, 3 to 6.

GIANT MARGUERITE

GIANT FLOWERING MARGUERITE CARNATIONS.

These fragrant garden Carnations flower profusely the first year from seed. They are usually double, very fragrant and generally the petals are beautifully fringed. The great merit of this Carnation is that it commences to flower in 12 weeks after sowing the seed. If desired, the plants may be potted in the fall, and they will bloom in the house all winter if placed in a very light window with a southern exposure. (See cut.)

TOM THUMB.

A very dwarf variety, growing only about 9 inches high. Mixed colors, per pkt., 15c.

CACTUS DAHLIA.

An extra fine strain of this grand summer flower; of a very strong, sturdy growth, blooming freely the entire summer, until killed by frost; flowers are large, from 5 to 6 inches in diameter, and perfectly full to the center. Mixed colors,

NEW GAILLARDIA JAMES KELWAY

A beautiful giant flowering Gaillardia with magnificent flowers, often measuring 5 to 6 inches across, of the brightest scarlet color with a gold margin and fringed edges. It blooms freely the entire summer, and is not affected by drought. Per pkt., 10c.

POPPY, IRRESISTIBLE.

This is a very strong-growing variety, often attaining the height of 4 to 5 feet. The flowers are very large and exceedingly showy; color a bright pink with petals fringed and tinged with white (see cut). Pkt., 10c.

POPPY FAYAL.

This is a very beautiful strain of single and double Poppies, and of an exceedingly strong growth. The colors of the flowers are of every conceivable shade of red, pink, maroon, white, self and variegated. Per pkt,, 10c.

Budbeckia Bicolor Superba.

Poppy Irresistible.

RUDBECKIA BICOLOR SUPERBA, Dest. Del Calab

A new free flowering annual growing about 2 feet high, producing an abundance of flowers on long stems. Color a golden yellow, with a large velvety brown spot at the base; very effective, (See cut.) Per pkt., 25c. to the state of the state of

Zinnia, Giant, Crested.

New Eschscholtzia, Golden West.

The flowers of this new variety are exceedingly large, often measuring four to six inches in diameter. Color, a light canary yellow, with an

orange blotch at the base of each petal. It is of very easy culture, thriving well in the open ground, and flowering continually the entire summer, which is quite a novelty in a yellow Lower. Per pkt., 10c.

PETUNIAS.

GIANTS OF CALIFORNIA.

RUFFLED GIANTS.—The flowers of this [variety are of an extraordinary size and substance, with very deep throats and distinguished from the large fringed varieties by deeper fringing and fluting, giving the appearance as if it were artificially ruffled. All colors, mixed. Per pkt., 25c.

GIANT FRINGED.—The flowers average 4 to 5 inches in diameter; they are of innumerable shades of color, all beautifully fringed. All colors, mixed. Per pkt., 25c.

GIANT OF CALIFORNIA.—Flowers very large, in a great variety of colors, embracing every conceivable shade of crimson, pink, lavender and pure white (see cut). All colors, mixed. Per pkt., 20c.

ZINNIA, GIANT CRESTED.

The flowers of this variety are free from the stiffness of the older type, the petals being twisted, curled and crested into the most fantastic forms, which make them quite distinct and attractive. The color is of the most brilliant shades of red, yellow, purple, pink and orange, which make them very showy when planted outdoors in a border, flowering continually from June until killed by frost (see cut). Mixed colors, per pkt., 10c.

WINTER CHERRY, OR CHINESE LANTERN PLANT.

(Physalis Franchette.

A beautiful novelty introduced from Japan. A gigantic species of the winter cherry; the plant is of sturdy habit, and grows about 1½ feet high; the calyx of the flower is at first green, changing to pure sulphur yellow, then to bright yellow, then orange, and last of all, brilliant orange scarlet; the long peduncle changes in like manner through shades of yellow to bright scarlet; these changes of color, pale and dark green, sulphur ochre, orange and scarlet, are most striking; the scarlet balloon-like calyxes hang on the stems for months (see cut) Per pkt., 15c.

Chinese Lantern Plant.

NEW JAPANESE DIATHUS, OR ORIENTAL PINK.

A splendid new variety from South Japan; flowers very large, many of them most exquisitely fringed and crinkled; the colors range from pure white through shades of pink and red to the darkest velvety crimson and black. All the above colors mixed. Per pkt., 10c.

For a Select List of Flower Seeds, see pages 7 to 20; Novelties, 3 to 6.

ANTIRRIHNUM.

(Snapdragon.)

(Snapdragon.)

One of the most showy and useful border plants. The most recently improved varieties of this valuable genus have large finely shaped flowers of the most brilliant colors, with beautiful marked throats. They are of very easy culture, succeeding in any good garden soil. They bloom the first year from seed, and continue in flower the entire summer

NIOBE.—A new variety of the haif dwarf sort. The tips of the flowers are of a velvety crimson maroon, while the tubes are pure white; the contrast is very striking. Per pkt., 10c.

QUEEN OF THE NORTH.—Grows about 1 foot high and is densely covered with large white flowers from July until October (see cut). Per pkt., 10c.

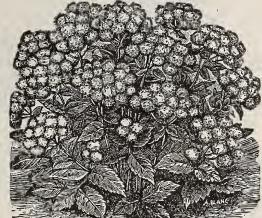

MAJUS,—The tall growing variety; helght about 2 feet. All colors. Mixed (see cut), per pkt., 5c; oz., 20c.

MAJUS TOM THUMB.—Dwarf variety, growing about 10 inches high. Mixed colors, per pkt., 5c; ½ oz., 25c; oz., 40c,

1/2 oz., 25c; oz., 40c,

Antirrihnum, Queen of the North.

Ageratum, Imperial Dwarf Blue.

ALYSSUM.

A very hardy annual, blooming the entire summer and winter. Flowers pure white and fragrant. For hanging baskets or vases it is one of the best blooming vines; grows easily from seed.

easily from seed.

CARPET OF SNOW.—Pure white, grows only 2 to 3 Inches high and flowers profusely; In fact, it is a perfect carpet of snow-white flowers throughout the entire season. Per pkt., 10c.

SWEET.—Pure white, very fragrant. Per pkt., 5c; oz., 25c; lb., \$1.25

LITTLE GEM,—Of a dwarf habit, growing 3 or 4 inches in helght (see cut). Per pkt., 10c; ½ oz., 20c; oz., 35c; lb., \$2.00. WIERSBECKI—Hardy sum-mer-blooming: vellow. Per

mer-blooming; yellow. pkt., 5c.

SAXATILE COMPACTA, Hardy spring-blooming dwarf, golden yellow. Per pkt., 5c.

A splendid everlasting for win-A spieladic everlasting for whiter bouquets. For this purpose the flowers should be cut before fully open. Half-hardy annuals. ALBA—Pure white. Per pkt., 5c. ROSEA,—Pink. Per pkt., 5c.

AGERATUM.

Valuable plants for large beds or borders; they are in bloom the whole year; of easy culture, suc-ceeding in any soil; haif-hardy annuals.
IMPERIAL DWARF BLUE,

LARGE DUE flowers, 8 inches high (see cut). Per pkt., 5c; oz., 15c; IMPERIAL DWARF WHITE, -Large white flower, rarely exceeds 6 inches in height. Per pkt., 5c; oz., 20c.

Sc; oz , 20c.

LITTLE DORRIT,—A very
dwarf varlety, about six inches
high. Per pkt., &c.

Alyssum, Little Gem.

For a General List of Flower Seeds, see Page 21; Novelties, 3 to 6.

NEW GIANT COMET.—The flowers of this variety are very large and double, often measuring five inches in diameter, and composed of long waxy twisted petals, resembling a Japanese Chrysanthemum. The flowers are borne on long stem, which adds to their value for cutting purposes (see cut),

(New, Large-Flowering.)
The "Grandiflora," or large-flowering varieties, are a great improvement over the older sorts, the flowers being twice as large and as freely produced. Color is very brilliant.
SEPARATE COLORS.—Pure white, chamois rose, crimson-white eye, brilliant scariet white eye, striped, rosy carmine-white eye. Per pkt., 10c. Mixed, ail of above colors, per pkt., 10c; 44 oz., 25c; oz., 75c. The full set of six varieties for 45c.

STAR AND FRINGED PHLOX.

(Star of Quedlinburg.)
The flowers are perfectly star shaped and exquisitely fringed often measuring one and one-half inches across. Per pkt., 10c,

PHLOX, NEW DWARF.

PHOON, NEW DWARF.

(Phlox Drummondi, Nana.)

Plants not over eight inches high, and one mass of flowers;

splendid for margins, low beds and pot cuitere.

ALBA.—Pure white. Per pkt., 10c.

CHAMOIS ROSE.—A saimon plnk. Per pkt., 10c.

COCCINEA.—A brilliant scarlet. Per pkt., 10c.

ATROCOCCINEA.—A deep purplish blood color. Pkt., 10c.

ALL COLORS MIXED.—Many sorts. Per pkt., 10c.

PHLOX, HARDY EVER-BLOOMING.

A hardy ever-blooming variety, growing into strong bushes from 1 to 2 feet high, hearing immense heads or pinnacles of flowers 8 to 10 inches long and 6 to 8 inches in diameter; varying in ail the different shades of colors of red, white and pink. Per pkt., 10c.

SMILAX.

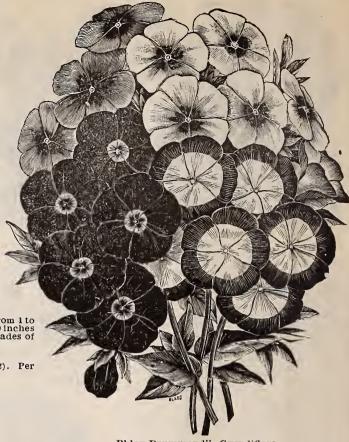

A valuable climber, either for the house or conservatory (see cut). Per pkt., 10c; oz., 30c.

Salvia, Splendens.

Ricinus Borboniensis. For a Select List of Flower Seeds, see pages 7 to 20; Novelties, 3 to 6.

Phlox Drummondii, Grandiflora.

SALVIA, OR FLOWERING SAGE.

Large, magnificent bedding plants, of the most brilliant scarlet spikes; a bed of Salvia Splendens is very attractive.

SPLENDENS (Scarlet Sage).—Spikes of intensely rich scarlet flowers that continue in profusion until frost (see att)—Per pkt.. 10c

BONFIRE.—This is the finest variety of Salvia ever introduced; grows into a very compact oval bush about 2 feet high, and produces spikes of brilliant scarlet flowers, which stand out stiff and erect, and it is not unusual for a plant to bear 200 spikes, which give it a gorgeous effect. Per pkt., 10c.

SPLENDENS DROOPING SPIKE.—This new, large flowering Salvia has 3 times the flowering capacity on each spike of the ordinary Salvens Spiendens, The flowers are produced in such quantities that the spikes droop by their own weight. Per pkt., 10c.

COCCINEA.—Fine free-flowering. Per pkt., 5c.

PORTULACCA .- (Flowering Moss.)

A beautiful and popular annual, each plant covering a space two feet in diameter, with flowers of almost every color imaginable; luxuriating in the warm sun and sandy soil. The drought is never too long or the heat too in-

watth sin and salely tense (see cut).

SPLENDID SINGLE varieties, all colors, mixed. Per pkt., 5c; oz., 40c.

DOUBLE, ALL COLORS MIXED (Grandiflora Pleno).—The flowers are perfectly double. Per pkt., 10c.

RICINUS.

Known as Castor Oil Plant and Palma Christi. A rapid growing foliage plant, with large, palm like leaves, much used for sub-tropical effects on the lawn or for center of beds of foliage plants, Half-hardy annual (see cut).

BORBONIENSIS ARBOREUS.—Very large and handsome foliage; fifteen

BORBONIENSIS ARBOREUS.—very large and handsomeronage, in confect. Per pkt., 5c.
GIBSONNI.—One of the most ornamental and showy varieties, with dark purple foliage. Per pkt., 5c.
ZANZIBARIENSIS.—A distinct variety, surpassing in sfze and beauty all varieties. Per pkt., 10c; oz., 20c.
MIXED VARIETIES.—Per pkt., 5c; oz., 15c.

Portulacca, Double, Large-Flowering.

Smilax.

100

BLANCE BURPEE, pure white, very large; GRAY FRIAR, color gray, very distinct; LOVELY, delicate pink, very large; NEW COUNTESS, a light lavender; AURORA, striped orange samon on white ground; BRILLIANT, a crimson scarlet; CATHERINE TRACY, a bright rich pink.

YOUNG'S SUPERB COLLECTION OF SWEET PEAS, contains packages of the best varieties for summer flowering. Price, 25c.

EMILY HENDERSON, pure white; BLANCHE FERRY, pink and white; MRS. JOS. CHAMBERLAIN, striped; STANLEY, a rich maroon; DUCHESS OF YORK, white striped, pinkish purple; LADY BEACONSFIELD, salmon pink; EMILY ECKFORD, pink-

YOUNG'S POPULAR COLLECTION OF SWEET PEAS contains 10 full-sized packages for 25c.

QUEEN OF ENGLAND, white; MRS. JOS. CHAMBERLAIN, striped pink and white; APPLE BLOSSOM, pink and biush; NDIGO KING, maroon; CARDINAL, bright red; PRINCESS BEATRICE, delicate pink; ALBA MAGNIFICA, white; COUNTESS OF RADNOR, delicate lavender; BLANCHE FERRY, pink; BUTTERFLY, light lavender.

10c YOUNG'S NOVELTY MIXTURE OF SWEET PEAS, containing an equal quantity of each color. Per oz., 25c; 14 ib., 50c; lb., \$1.25.

YOUNG'S SUPERB MIXTURE OF SWEET PEAS contains an equal proportion of each color. Per oz., 20c; ¼ lb., 50c; lb., \$1.00.

YOUNG'S POPULAR MIXTURE OF SWEET PEAS contains an equal proportion of each color, Per oz., 15c; 4 lb., 40c; lb., 75c.

CHOICE MIXED SWEET PEAS, per oz., 10c; 4 ib., 20c; lb., 35c.

THUNBERGIA.

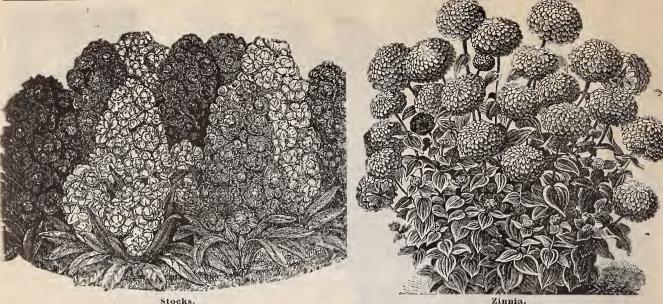

ALATA .- A rapid-growing climber; splendid for trailing on porches, fences, etc. Mixed colors. Per pkt., 5c.

TORENIA.

A beautiful plant for vases, baskets, etc. They bloom continually during the summer in the open ground.

FOURNERI .- Porceiain blue with rich violet throat. Per pkt., 5c.

For a Select List of Flower Seeds, see pages 7 to 20; Novelties, 3 to 6.

Stocks.

STOCKS, OR GILLIFLOWERS.

The Stock or Gilliflower is one of the most valuable of garden plants, and highly esteemed for the delightful fragrance of its flower. The Ten-Week Stock blooms about ten to twelve weeks after sowing. Haif-hardy annual (see cut).

CUT AND COME AGA.IN—One of the best varieties of Stocks for cut-flowers; grows about two feet high, flowering continually from early spring until late in the fall; colcr pure white and very, double. Per pkt., 10c. The Stock or Giliflower is one of

pure white and very pkt., 10c.

NEW GIANT PERFECTION. NEW GIANT PERFECTION.—A splendid variety, of pyramidal growth; finest mixed, Per pkt., 10c, NEW DWARF FORCING "SNOW-FLAKE."—Pure white. Per pkt., 10c. DWARF GERMAN.—Ten-Week, choice double-mixed colors. Per pkt., 5c.

SWEET WILLIAM.

HUNT'S PERFECTION.—A splendid strain; flowers of many bright colors, large size and various markings, including the finest ariculaeved varieties; of all colors. Per

kt., 5c. SINGLE.—All; colors mixed. Per pkt., 5c.
DOUBLE.—All colors mixed, Per

pkt., sc.

SCABIOSA,

Or Sweet Scabious.

Commonly called: Mourning Bride, a very free blooming annual: colors, white, carmine, lilac, etc. Valuable for cutting purposes. Mixed colors, per pkt., 5c.

SNOWBALL.—Pure white; very double. Per pkt., 5c.

NANA COMPACTA.—A very dwarf

growing variety. Mixed colors, per

Violet.

New Giant Verbena.

Zinnia, Mammoth Flowering.

The plants form a handsome bush with perfectly formed double flowers, often measuring 5 to 6 inches in diameter.

MAMMOTH GOLDEN YELLOW.—Pkt., 10c.

"ORANGE.—Per pkt., 10c.
"CRIMSON.—Per pkt., 10c.
"DEEP YELLOW.—Per pkt., 10c.
"WHITE.—Per pkt., 10c.
"CREAM COLOR.—Per pkt., 10c.
MAMMOTH.—All colors mixed. Per pkt., 10c.
SPECIAL OFFER.—One pkt. of each of the 7 different colors for 25c.

VARIOUS ZINNIAS.

ZEBRA STRIPED.—The flowers are a perfect form, distinctly striped and spotted with different shades of color. Per pkt., 10c. ELEGANS TOM THUMB.—Compact bushes not over 12 inches high by about 14 inches in diameter. Flowers are perfectly double. All colors mixed, per pkt., 1cc. ELEGANS, ALL COLORS MIXED.—Per pkt., 5c.

pkt., 5c.

VERBENA.

A class of universally popular bedding plants, well known and admired for their beautiful flowers, of almost every shade and tint of color. Good healthy plants can be produced from seeds as readly as almost any tender annual (see cut).

annual (see cut).

YOUNG'S GIANT-FLOWERED VERBENAS.—The New Mammoth strain is absolutely the largest-flowered Verbena known that can be grown from seed. A splendid mixture. Per pkt., 15c.

YOUNG'S AURICULA-FLOWERED VERBENA.—A mammoth variety, having a distinct white eye or spot in the center of each petal; very striking and beautiful. Per pkt., 15c.

Pure White, per pkt., 10c; Bright Scarlet, per pkt., 10c; Striped, per pkt., 5c; Fine Mixed, per pkt., 5c; oz., 60c.

VINCA, or PERRYWINKLE.

Handsome bushy plant, flowering freely during the hot summer months and blooms the first season from seed.

AIBA PURA.-White. Pkt., 5c. ROSEA .- Bright rose. Per pkt., 5c. ROSEA ALBA.—White, with rosy eye. Per pkt., 5c.

ALL COLORS MIXEO .- Pkt., ic.

VIOLET.

Favorite hardy perennial plants, admired for their beauty and fragrance. They flower the first year from seed (see cut).

ODERATA .-- Single blue. Per pkt.,

CZAR .- Largest flowering variety. Per pkt., 10c.

Wild Flower Garden Mixture.

These mixed flower seeds contain more than a hundred varieties of easy-growing and pretty flowers, suitable for forming a wild flower garden; very useful for sowing along sides of fences and on untidy bare spots of ground which are trequently unsightly. Per pkt., 10c; oz., 25c; 14 lb., 75c; lb., \$2.50.

WALL FLOWER.

Fine German mixed flowers on long spikes; delictorely fragrant; in many shades of color, chocolate and orenge purple.

MIXED SINGLE AND DOUBLE .-

Salpiglossis.

Browallia.

Cueumis Flexosis.

Sensitive Plant.

Nierembergia.

FLOWER SEEDS.

General List of Standard Varieties. Too Well Known to Need Extended Descriptions.

For Varieties Not Here Mentioned, see "Select List," Pages 7 to 20, and "Novelty List," Pages 3, 4, 5, 6.

NAMARANTHUS, SALICIFOLIUS .- Brilliant colored foliage plant. Per pkt., 5c. TRICOLOR.--A foliage plant with red, yellow and green leaves.

Per pkt., 5c.
MELANCHOLICUS RUBER.—A follage plant with red leaves.

ARISTOLOCHIA ELEGANS.—Flowers first year from seed; colors white and purple. Per pkt., 10c,

ANEMONE CORONARIA.—A hardy plant, with large flowers; various colors. Per pkt.,5c.

BEGONIA, SINGLE TUBEROUS ROOTED.—Thrives well in the garden, blooming entire summer; mixed colors. Per pkt., 15c.
VERNON.—The easiest variety to grow from seed. Per pkt., 10c.
SEMPERFLOREUS HYBAIDA,—Color, white-edged plnk. Per pkt., 25c.

BRYONOPSIS ERYTHRICARPA.-Climbing annual, small white scarlet-striped fruits. Per pkt., 5c.

BRACHYCOME .-- Dwarf-growing plant for bordering; mixed colors. Per pkt., 5c.

BROWALLIA ELATA COERULEA.—Winter-flowering house plant. Per pkt., 5c. ELATA ALBA NANA.—White variety; valuable winter house plant. Per pkt., 5c.

CALENDULA METEOR.—Double-striped flowers, deep orange. Peroz., 20c;pkt., 5c. PRINCE OF ORANGE.—This variety stripes around each petal, deep orange. Pkt., 5c. PONGI FL. PL.—Vigorous-growing, double variety, color pure white. Per pkt., 5c. PURE GOLD.—Free-flowering variety, golden yellow. Per oz., 15c; pkt., 5c. HYBRID GRANDIFLORA FL. PL.—Large flowering variety; color nearly scarlet, Per pkt., 5c.

COLEUS HYDRIDA MIXED.-Foliage plant, attaining perfection first year from seed (see cut). Per pkt., 15c.

CUCUMIS FLEXOSIS .-- Rapid climber, curious fruits, often 3 feet long. Per pkt., 5c. CYCLAMEN PERSICUM.—Buibous-rooted plants, blooming the entire winter cut). Per pkt., 25c.

CINERARIA, SINGLE MIXED .- Decorative plant for window or conservatory . Per pkt., 20c.
DOUBLE LARGE FLOWERING MIXED.—Like the single varieties, only the individual

flowers are double. Per pkt., 50c. CALCEOLARIA, MIXED COLORS.-Plants for conservatory; yellow maroon, spotted crimson. Per pkt., 25c.

CLARKIA, MIXED COLORS .- Annual; flowers are red, white, purple. Per pkt., 5c.

DIGITALIS, SPOTTED VARIETIES.-Flowers on long stems; colors white and blue (see cut). Per pkt., 10c.
MIXED COLORS.—For shrubberies or shady situation, purple, white, rose, yellow. Per pkt., 5c.

DRACAENA INDIVISA .- A foilage plant, useful for center of vases. Per pkt., 10c.

ESCHSCHOLTZIA.-Very free-flowering, blooms constantly from June till September (see cut). Per pkt., 5c.

FUCHSIA, ALL COLORS MIXED.—From choice double and single sorts. Pkt., 15c.

GOURD, CHINESE LOOFA (Dish Rag).—The fruits are very popular as a sponge for

GOURD, CHINESE LOOFA (Dish Rag).—The fruits are very popular as a sponge for bathing (see cut). Per pkt., 5c.

HERCULES CLUB.—Large fruits resembling a club in shape. Per pkt., 5c.
OSTRICH EGG.—A rapid growing variety with egg-shaped fruits. Per pkt., 5c.
POWDER HORN.—Strong-growing variety, fruits shaped like a powder horn. Pkt., 5c.
ORANGE.—Fruits resemble an orange in shape, size and color. Per pkt., 5c.
MALABAR.—Ornamental, variegated leaves and striped fruits. Per pkt., 10c.
FINE MIXED.—From the most ornamental varieties (see cut). Per oz., 15c; pkt., 5c.

GLOXINIA, LARGE FLOWERING, CHOICE MIXED.—From the best hybrid varieties (see cut). Per pkt., 25c.

GERANIUMS, SCARLET MIXED SHADE OF COLOR .- Flowers the first season

from seed. Per pkt., 10c.
GOLDEN BRONZE.—Seed is saved from choicest variegated leaf varieties. Pkt., 20c.
APPLE-SCENTED.—Grown for the fragrance of the leaves. Per pkt., 25c.

LATANA HYBRIDA.--Finest mixed. A vigorous-growing plant, with a profusion of flowers all summer. Per pkt., 5c.

LAVENDER .- An ornamental perennial, bearing long spikes of fragrant blue flowers. Oz., 10c; pkt., 5c.

MINULUS, QUINQUEVULNERUS MAXIMUS.—Wixed colors (Monkey Flowers). Fine flowering plants, with rich markings and spots. Per pkt., 5c, TRIGRINUS.—Remarkable for their rich markings and spots. Pkt., 10c, MOSCHATUS (Musk Plant).—A variety with drooping habit; flowers yellow, strongly musk-scented. Per pkt., 5c,

MATRICARIA CAPENSIS ALBA PLENISSIMA (Double White Feverfew).—A garden plant of easy culture; flowers button shape and very double. Per pkt., 10c.,

NIEREMBERGIA FRUTESCENS.—A profuse-blooming plant, illac-shaded flowers, for hanging baskets (see cut). Per pkt., 10c.

SALPIGLOSSIS.—Mixed colors A beautiful penciled colored garden plant, about 2 feet high (see cut). Per pkt., 5c.

SCHIZANTHUS.—Fine mixed. A free-growing garden plant, flowering all summer; not affected by heat ($see\ cut$). Per pkt., 5c.

SENSITIVE PLANT (MimosaPudica).—A curiosity; the leaves and stems droop when touched and fold up (see cut). Per pkt., 5c.

TRITOMA UVARIA (Red Hot Poker).—A hardy, dwarf-growing plant; orange and scarlet flowers. Per pkt., 10c.

YOUNG'S EXCELSIOR TOMATO.

This variety originated with us three years ago, and up to this time we know of no other variety that can equal it in size, solidness and flavor. Under ordinary circumstances, on our own grounds last season, we had fruit that weighed nearly two pounds. The color is bright crimson, with a slight purplish tinge. Like all large tomatoes, it is a strong vigorous grower and very early for its size. Enormous cropper, yielding the entire summer until killed by frost. Very seldom cracks and is nearly seedless. It is the best tomato for either market or private use in cultivation (see cut). Per pkt., 10c; oz., 25c.

Golden Hubbard Sqash.

GOLDEN HUBBARD SQUASH.

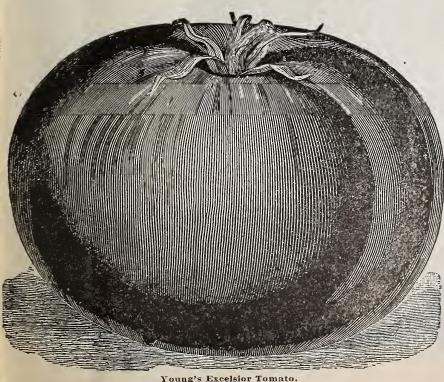

This is a very distinct sort of the shape and general character of the Hubbard, but and general character of the Hubbard, but a little smaller; earlier to mature and a rich orange red, instead of the dark olive green color of the old Hubbard, while the flesh is a little deeper colored and fully as good quality (see cut). Pkt., 10c; oz., 15c; ½ lb., 40c.

SWEET CORN.-CLARK'S NONE SUCH.

This variety well deserves its name. It is one of the best second early varieties in the market, its quality is simply delicious and customers report that a number of the stalks contained two ears 12 inches long and were filled from end to end. It is a red cob variety and preferred by many on that account (see cut). Per pkt., 10c; pint, 25c;

Sweet Corn.

Young's Excelsior Tomato.

Lettuce Wonderful.

YOUNG'S IMPROVED EARLY VALENTINE BEAN.

We have been growing this variety for the past three years and after testing it with the Early Refugee and Mohawk, we found it to be from five to ten days earlier and of considerable stronger growth, the plants being more robust and much larger, though they may be planted about the same distance apart. The pods are perfectly straight and round, of a light green color. This bean will be found very valuable for all purposes, and at any season of the year. Per 1/2 pt., 15c; pint, 20c; qt., 35c.

New Stringless Green Pod Bush Beans.

New Lettuce, "WONDERFUL."

The Largest Heading Lettuce we have ever seen, having been grown to six pounds in weight; the average size, however, with ordinary culture, is from two to three pounds.

The heart is very solid, of pale green color, very tender, very crisp, and without the slightest trace of the bitterness found in the majority of lettuces. As an example of its "standing" properties, perfect lettuces were cut from the same bed for upwards of seven weeks during the past hot and dry season (see cut). Pkt., 10c; oz., 40c; 4 lb., \$1.25.

NEW STRINGLESS GREEN POD BUSH BEANS.

The earliest of all Green Podded Bush Beans. This is the only absolutely stringless green podded bean in the market. The pods are round, full and larger and straighter than that of the Valentine. In quality it is superior to any other bush bean (see cut), Pkt., 15c; pt. 25c; qt., 40c.

YOUNG'S GOLDEN WAX BEANS.

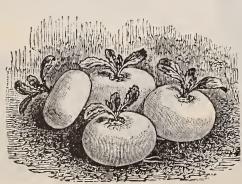

This is the earliest of all Wax Beans. A decided improvement on the old Golden Wax, being a much stronger grower; pods round, of a clear golden yellow color, straight and much longer than the old variety. It is very prollfic, and absolutely rust proof. Per pkt., 10c; pint, 15c; quart, 25c.

RADISH, NON PLUS ULTRA.

This new Radish is very desirable as an extra early sort, and particularly fine for forcing. Its short top and rapid growth especially fit it for growing under glass and in frames; it has been known to mature in twenty-five days; colora deep scarlet (see cut). Per pkt., 5c; oz., 10c. 14 lb., 25c; lb., 65c.

EARLY WHITE MILAN TURNIP.

This is undoubtedly the earliest White Turnip in cultivation, being fit for the table at least one week earlier than any other variety. The entire bulb inside and out is clear, ivory white, the outer surface is perfectly smooth (see cut). Pkt., 10c; oz., 15c; 4 lb. 40c.

Early White Milan Turnip.

Radish, Non Plus Ultra.

WATERMELON, SWEET HEART.

An entirely distinct Melon, good shipper and very attractive in appearance, of a large size, shape nearly globular, skin very bright and beautifully mottled, light and dark green. It is a strong, vigorous grower, very productive, the fruit ripening early. The flesh is a bright red, firm, solid and very tender, melting and sweet. The fruit remains in condition for use longer than any other Melon. A good variety for either private or market use. Per pkt., 5c; oz., 20c.

to

m-

ere

and

t le

егу

ts

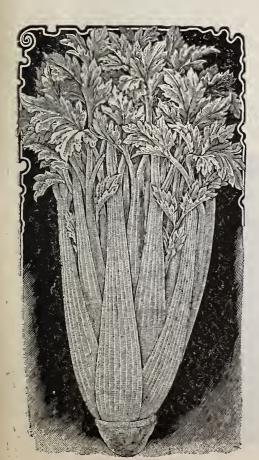

g-

CELERY, PINK PLUME.

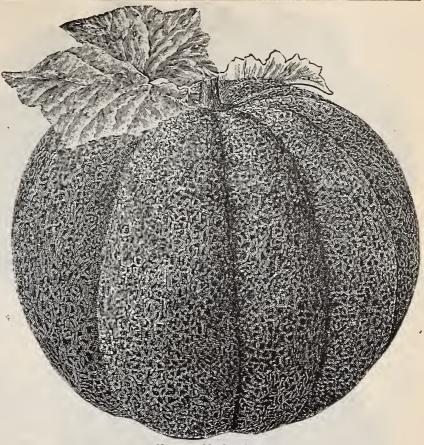

This is a strong, compact grower, with no tendency to rust; extra early, very solid, tender and crisp. It is a self-blanching variety, the same as White Plume or Golden Self-Blanching, requiring but a slight earthing up to blanch it. Per pkt., 20c; 02., 25c.

CELERY, ROSE=RIBBED SELF= BLANCHING.

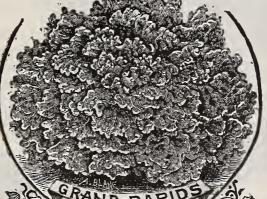

This is a sport from the Golden Self-Blanching, possessing all the good qualities of that variety, differing only in the color of the ribs, which are of a very attractive shade of rose, which deepens as the season advances, which ornamental feature gives the whole plant a most pleasing appearance, that cannot fall to make it a favorite for family use (see cut). Per pkt., 10c; oz., 30c.

Celery, Rose-Ribbed Self-Blanching.

Newport Muskmelon.

Lettuce.

LETTUCE, GRAND RAPIDS.

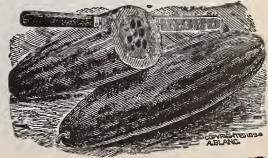

This variety originated in Grand Rapids, Mich., where it is largely grown for shipment, being one of the best varieties for forcing under glass, and also for early spring sowing in the open ground; the leaves are very crimped, of a light yellowish-green color, forming a loose head of medium size. It is a very strong grower, free from rob, and will keep a long time after being cut without wilting (see cut). Per pkt., 10c; oz., 20c; 4 lb., 50c.

NEWPORT MUSKMELON.

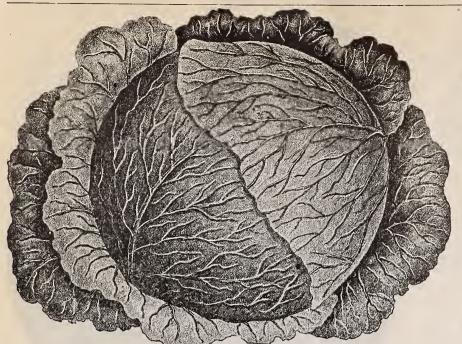

This is a very early variety, ripening with the Jenny Lind, which it somewhat resembles. It certainly is, we think, the most delicious Muskmelon in the market, and also the most bounteous yielder, though the melons are not large. For family use it has no equal, when quality is the consideration (see cut). Per pkt., 10c; oz., 20c.

CUCUMBER, COOL AND CRISP.

This variety is the earliest and most prolific of all pick-ling cucumbers; also very useful for slicing, the cucumbers, when fully matured, being of good size, very tender and crisp (see cut). Per pkt., 10c; oz., 25c; ¼ lb., 50c; lb., \$1.75.

Cucumber, Cool and Crisp.

Cabbage, Danish Ball Head.

CABBAGE, DANISH BALL HEAD.

This excellent variety originated in Denmark; It is very hardy and a vigorous grower, producing large, round, solid heads with very few outside leaves, consequently it may be planted closer together than the general varieties of Cabbage. There is no doubt that the Bald Head is one of the best for general crop, being medium early, and it also can be planted later for fail and winter use, as it is one of the best keepers (see cut). Per pkt., 10c; oz., 25c, ¼ lb.; 75c.

ELECTRIC BEET.

This is a very early variety of Beet with small and compact leaves, which are set very close to the center of the bulb; in shape it is almost round. The color is crimson, with a prevailing shade much darker, changing alternately into rings of lighter hue. The flesh is of a delicate texture, rich, sugary and entirely free from fibre (see cut). Per pkt., 10c; oz., 15c; ¼ ib., 35c; lb., \$1.00.

NEW MUSKMELON, TIP TOP.

This is the best Muskmelon in cuitivation either large or smail; for a sweet, juicy flavor it has no equal, the flesh is firm and edible to the outside coating. Its attractive appearance makes it a favorite with both private and market gardeners. Per pkt., 10c; oz., 15c; ½ lb., 35c; lb., \$1.00.

MUSKMELON, GOLDEN EAGLE.

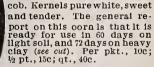

A magnificent variety; the vines are vigorous, hardy and capable of withstanding heat and drouth to a wonderful extent; it is medium early and of most attractive size, shape, color and general appearance. The flesh is of a rich salmon color, seed cavity small; meatvery thick and of an exquisite flavor, sweet, rich and meiting. Per pkt., 10c; oz., 40c.

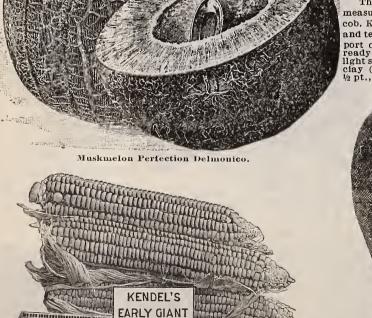

MUSKMELON, PERFECTION DELMONICO.

This improved type is almost a perfect globe in shape; the skin is a peculiar gravish green until ripe, when it changes to a bright yellow; the flesh is a deep rich orange yellow, and of a very fine grain. It is of a delightful flavor, a strong, hardy grower, very prolific. (see cut). Per pkt., 10c; oz., 20c.

KENDEL'S EARLY GIANT SWEET CORN.

The ears of this variety grow to an Immense size, often measuring 10 inches, and having 10 to 12 rows of corn on each

somethad the history of the second of the se

SWEET CORN.

WE MAIL SEEDS AND

On all seeds in packets, ounces and quarter pounds purchased from this Catalogue.

We only charge postage on bulk quantities, at the rate of 8c per pound to catalogue prices, for seeds purchased in quantities of 1/2 lb. and upward of one variety, and to Peas and Beans at the rate of 15c per quart, and to Corn at the rate of 16c per quart.

ASPARAGUS.

Sow the seeds in drills about one inch deep, and the rows about one foot apart. Keep the soil mellow and free from weeds during the summer, and in the fall or succeeding spring the plants should be set about one foot apart and the crowns four inches below the surface. The beds should be narrow, so as to permit of cutting to the center. Before the winter cover the transplanted beds with about four inches of manure sait is an excellent manure for asparagus. Sow a little on the surface in spring, and it will keep down the weeds. The young tops may be cut for the table the second summer, but not very freely until the third. Sow the seeds in drllls about one inch deep, and the

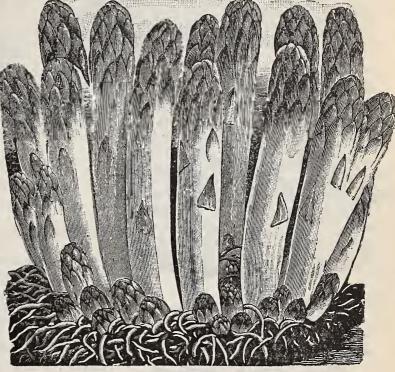

third. CONOVER'S COLOSSAL.—A large and rapid grower.

CONOVER'S COLOSSAL.—A large and rapld grower. Per pkt., 5c; oz., 10c; ¼ 1b., 20c; lb., 50c. ROOTS.—Fine two-year-old, \$1.00 per 100; \$7.00 per 1,000; 50 at 100 rate; 500 at 1,000 rate. (If by mail, add 60 cents per 100 to pay postage.)

PALMETTO.—An improvement on Conover's, it being a much heavler cropper, Per pkt., 5c; oz., 10c; ¼ 1b.. 25c; lb., 80c. ROOTS.—Fine two-year-old, \$1.50 per 160: \$12.00 per 1,000; 50 at 100 rate; 500 at 1,000 rate. (If by mail, add 60 cents per 100 to pay postage.)

BARR'S MAMM OTH — A very early variety; stalks frequently one incb in diameter. Per pkt., 5c; oz., 10c; ¼ 1b., 30c; 1b., 90c. ROOTS.—Good two-year-old, \$2.00 per 1(0: \$12.00 per 1,000; 50 at 100 rate; 500 at 1,000 rate. (If by mail, add 60 cents per 100 to pay postage.)

BEETS.

Asparagus Palmetto.

Runkel Ruebe, Ger.; Betterave, Fr.; Betteraga, Sp.

one ounce to fifty feet of drill; five to six pounds to the acre in drills.

The soil which is best suited for the culture of the Beet is that which is rather light than otherwise, always-provided that it is thoroughly enriched by manure. Sow in spring, as soon as the ground becomes fit to work, in drills about one foot apart and two inches.

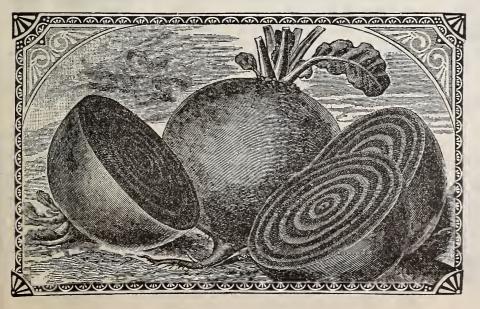

by manure. Sow in spring, as soon as the ground becomes fit to work, in drills about one foot apart and two inchesdeep. When the plants have attained three or four leaves, thin out so that they may stand five or six inches apart. ECLIPSE.—Remarkable for its rapid growth, extreme smallness of top and perfectly smooth and round; skin and fiesh intense red. Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 55c. EARLY BLOOD TURNIP.—Excellent either for forcing or early planting. Tops small, leaves green, roots round, crisp, tender and sweet (see cut). Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 55c. EGYPTIAN TURNIP.—The earliest Beet in cultivation. Color deep crimson; of excellent quality. Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 55c. MITCHELL'S IMPROVED TURNIP.—This is entirely distinct from any other

MITCHELL'S IMPROVED TURNIP.—
This is entirely distinct from any other sort. The roots are of round shape, perfectly smooth, with intense bloodred skin and flesh. Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 55c.

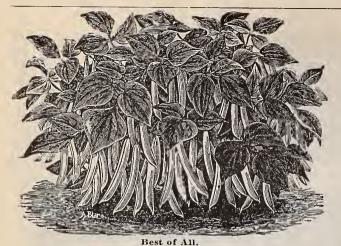

Thiproved Smooth, Long Dark Red.—The most popular variely for winter use. Roots large, tapering toward both ends, growing even with the surface, flesh dark red. Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 55c.

DETROIT DARK RED TURNIP.—
This is a medium size variety, very uniform in shape; skin very thin, of a dark red color. Per pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 55c.

Add 15c per quart extra if to be sent by mail.

All the varieties of Dwarf, Bush or Snap Beans are tender and will not bear the cold. Plant about the middle of April if the ground is warm and the season favorable, for a succession, and at intervals throughout the season, finishing about the 15th of August. The best mode of culture is in rows 2 feet apart, and the beans 3 inches apart and 2 inches deep in the rows. Keep well hoed, and draw the earth up to their stems, but only when dry; working them when wet with rain or dew will cause them to rust and injure the crop.

IMPROVED EARLY RED VALENTINE .- This is the leading variety, both for market gardeners and private use; very productive and of excellent flavor. The pods are round and tender, and remain loager in the green state than any other variety (see cut).

GOLDEN WAX .- One of the earliest varieties. Pods long, brittle, entirely stringless, of a rich golden color. As a bean for winter use it has few equals (see cut)

EARLY MOHAWK .- The hardiest of the early varieties; will stand more cold than any other. The pods are from 5 to 6 inches long. A good variety for market gardeners and private use (see cut).

EARLY ROUND-POD SIX WEEKS .- It is extra early, a vigorous grower and very productive. Compared with the Long Yellow Six Weeks Bean it is more prolific, the pods are longer and entirely stringless (see cut).

BEST OF ALL .- A new red-speckled variety, very early, good cropper and compact grower. The pods are flattish round, dark green, very solid and good quality (see cut).

BLACK-EYED WAX .- One of the earliest wax beans. Pods long, straight, proportionately narrow, and rounder than those of the Golden Wax, and of lighter color.

PRICE OF BUSH OR SNAP BEANS.

These prices, except for packets, do not include prepayment by mail. If wanted by mail add 8c to the pint and 15c to the quart price.

Large White Lima.

BEANS, POLE OR CLIMBING.

Stangen-Bohnen, Ger.; Haricot a Rames, Fr.; Judias, Sp. One Quart to 150 Hills.

Pole Beans, being tender, ought not to be planted until the ground is dry and warm. A well-manured sandy loam suits them best. Plant in hills four feet apart, six or eight Beans to the hill, eyes downward; afterward thin to three plants in a hill. Set poles eight or ten feet long before planting seed. Add 15 cents per quart extra if to be sent by mail.

LARGE WHITE LIMA OR BUTTER.—This is esteemed the best of all pole Beans, and is almost universally grown, both for market and private use (see cut.)

KING OF THE GARDEN LIMA.—This is quite similar to that of the common Lima, though the vines are far more productive and mature the fruit much earlier.

EARLY GOLDEN CLUSTER WAX.—Begins to bear early in July and continues until frost (see cut).

The flavor is most delicious. Can be used either shelled or as a string Bean.

RED SPECKLED, CUT SHORT, OR CORN HILL POLE.—This is a climbing green podded variety, used for planting in with corn. It is very productive and or excellent quality.

SCARLET RUNNER.—Grows to the height of 9 or 10 feet.

LAZY WIVES POLE BEAN.—Pods growing from 4 to 6 inches long, stringless (see cut.)

WHITE CORNFIELD.—Beans white, pods round, very productive.

WHITE DUTCH CASE KNIFE.—Early variety, good used as a shell Bean, either green or dry.

DWARF OR BUSH LIMA BEANS.

These Varieties do not Require any Poles.

NEW DWARF, OR BUSH LIMA.—This variety grows without the aid of stakes. in a compact bush form, from 15 to 18 inches high, and produces enormous crops of delicious Lima

Beans (see cut.)
BURPEE'S BUSH LIMA.—Grows from 24 to 30 linches high, and a very heavy and sure cropper. The Beans are as large as the White Lima.

CRESS (OR PEPPER GRASS).

Kresse, Ger.; Cresson, Fr.; Mastruco, Sp.

EXTRA CURLED.—Pepper Grass is extensively grown and used as a small salad. Sow early in the spring, thickly, in shallow drills, as it scons i unside seed, and at intervals throughout the season (for succession) Perikt., 5c. oz., 10c; ¼ lb., 15c; lb., 55c.

WATER CRESS.—This is quite distinct from the Pepper Grass, and only thrives when its roots and stems are submerged in water. It is one of the most delicious of small salads, and should be planted wherever a suitable place can be found (see (ut)). Per pkt., 10c; oz., 35c; ¼ lb., \$1.25.

UPLAND CRESS.—A perennial, resembling Water Cress in flavor. Good all the year round. Per pkt., 10c.

Per pkt., 10c.

CELERIAC

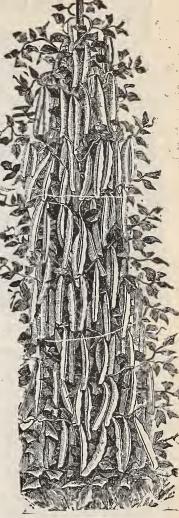

(or Turnip-Rooted Celery).

Knoll-Sellerie, Ger.; Celeri-rave, Fr.

The seed should be sown at the same time and given the same treatment as common celery. As the roots are the edible portion of this vegetable, it is not necessary to earth it up or to handle it.

If by mail in quantities of ½ 1b. or upward, postage must be added at the rate of 8c per 1b.

LARGE SMOOTH PRAGUE.—An improved form of turnip-rooted celery, producing large and smooth roots, which are almost 1 ound, with very few side roots; best variety (see cut). Per pkt., 5c; cz., 15c; 4 1b., 4cc.

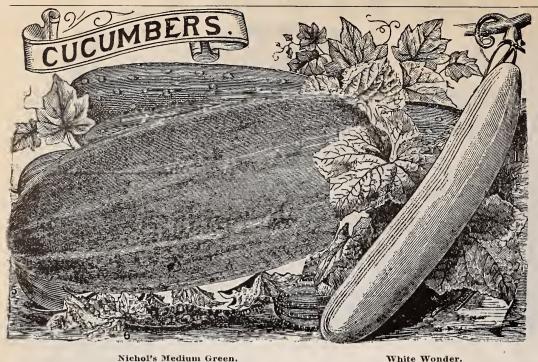

Early Golden Cluster Wax Beans.

Water Cress.

Celeriac, Large Smooth Prague.

Nichol's Medium Green.

CELERY

Sellerie, Gor.; Celerei, Fr,; Apio, Sp.

1 oz. for 2,000 Plants. Sow the seed the first of March or first of April. By rolling or pressing in the seed the result will be more satisfactory than when only covered. Out the tops off once or twice to make them dwarf and stocky. They may be planted out as lateasthe middle of August, but the best is about the middle of June to the first of July. In setting, prepare broad, shallow trenches, about six inches deep and four feet apart, in which plants should be set six inches apart. When nearly full grown, they should be "handled," which is done by one man gathering the leaves together while a second draws the earth about the plant to one-third its height, taking care that none of the earth falls between the leaves, as it would be likely to cause them to rust or rot, repeating the process every few days until only the tops of the leaves are visible.

IMPROVED DWARF GOLDEN HEART. - A variety of great ue. In size it is the same as the Half-Dwarf White. The heart 1s large and full, of a golden yellow, except when blanched (see cut)

GOLDEN SELF-BLANCHING.—This is the best Celery ever raised for general purposes. Without banking up or any covering whatever; even the outer ribs become a handsome, glossy, yeilowish-white color (see cut),

WHITE PLUME.—The peculiarity of this variety is the stalk portions of inner leaves and heart, they are white naturally, so that by simply tying the plants together or by drawing the soil against it, pressing it with the hands and then repeating the operation, to hold the soil already placed against the plant already in position, the work of blanching is completed. This celery presents a highly ornamental appearance on the dinner table, as its crisp, succulent stalks and appearance and delicious flavor are unequaled by any other celery grown.

Improved Dwarf Golden Heart

14 lb. 40c 75c IMPROVED DWARF GOLDEN Pkt. \$1.50 2.50 2.00 60c 40c 40c 20c 15c 1.50 1.5020c

CORN SALAD OR FETTICUS—Large Round-Leaved.

Lammersalat, Ger.; Mache, Fr.; Canonigos, Sp.

Sow early in spring in rows 1 foot apart; it is ready for use in six or eight weeks from time of sowing. If wanted in early spring, sow in September, covering up with straw or hay as soon as cold weather sets in, same as spinach. Per pkt., 5c; oz., 10c; ¼ lb., 20c;

If by mail in quantities of one-half pound and up. ward, postage must be added at the rate of 8 cents per pound

CUCUMBERS.

Gurke, Ger .; Concombre, Fr .; Sohombro, Sp.

One Ounce for 50 Hills.

One Ounce for 50 Hills.

The plants are tender, and planting should be delayed until settled warm weather. Form low, flat hills, six feet apart each way, of rich soil, mixing in a quantity of thoroughly decomposed manure, scatter on each hill fifteen or twenty seeds, or one every inch along the rows, and cover one inch deep, pressing the soil firmly ever them.

IMPROVED EARLY WHITE SPINE.—One of the most popular varieties for both market and table use, vines vigorous, fruitlng early and abundantly; fruit uniformiy straight and handsome, color a light green with a fine whitespine; flesh crisp and of fine flavor.

NICHOL'S MEDIUM GREEN.—We consider this a most valuable variety; as a most valuable variety; as a pickle sort it will be found unequaled, and for early forcing there is none better. It is exceedingly productive, of medium size, and always straight and smooth.

WESTERFIELD'S CHICAGO PICKLING.—This is undoubtedly the best cucumber for pickling; fruit is of medium length, pointed at both ends, with large, prominent spines; color deep green. It begins to fruit when the vines are quite young.

10c 20c 1.25

Golden Self-Blanching Celery.

CABBAGE.

Kopf-Kohl, Ger.; Chou Pomme, Fr.; Repollo, Sp.

5 1 oz. will produce 1,500 plants, 1/2 lb. of seeds in beds to transplant for an acre.

In latitudes where the thermometer never indicates In latitudes where the thermometer never Indicates 20 deg, below the freezing point, the early varieties of Cabbase may be sown in the open border, but in other coider climates they must be sown in a hot bed, about the middle of January or the first of February, and planted out in March or April, in a rich deep, loaming soil, in rows 2 feet apart and 18 inches in the row. The late varieties are usually sown in the early part of May, and plants set out in July, in rows 3 feet apart and 2 feet in the rows. In transplanting they must be set into the ground up to the first leaf, no matter how long the stems may be.

EARLY JERSEY WAKEFIELD.—Unquestionably the best early Cabbage in cultivation. It possesses the merit of large size heads, small outside foliage, and uniformity in producing a crop (see cut). Per pkt., 5c; oz., 25c; ¼ lb., 75c; ib., \$2.25.

EARLY CHARLESTON WAKEFIELD.—An improvement over the old Jersey Wakefield, being quite as early and much larger in size of head. Fer pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

EARLY WINNINGSTADT.—One of the best for general use, being a very sure header, and will grow a hard head under circumstances where most sorts would fail. Heads regular, conical shape, very hard, and keep well, both summer and winter. Per pkt., 5c; oz., 15c; ¼ lb., 50c; ib., \$1.50.

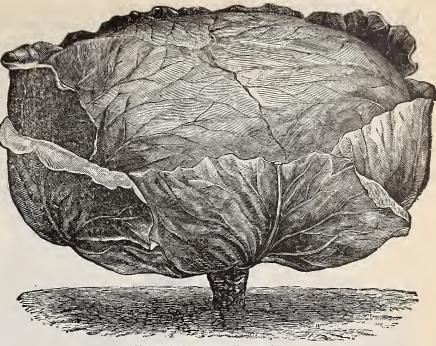

FOTTLER'S IMPROVED BRUNSWICK or EARLY DRUMHEAD.—This is certainly one of the second earliest sorts in cultivation. Head large, very flat, compact and solid and of fine quality (see cut). Per pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50.

MARBLEHEAD MAMMOTH DRUM-HEAD.—Probably the largest variety of Cabbage in cultivation, specimens often weighing sixty pounds. In good soil, and with proper culture, it will average thirty pounds. Should be planted four feet apart each way (see cut). Per pkt., 5c; oz., 15c; 41b., 50c; ib., \$1.50.

HENDERSON'S EARLY SUMMER.—The earliest large heading Cabbage; growth compact, so that it may be set as close as the smaller sorts. Heads large, flat or slightly conical, and keep longer without bursting than most of the early sorts. Per pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

PERFECTION DRUMHEAD American grown seed of superlor quality, the largest solld heading sort, of excellent flavor, with the richness of the Cauliflower (see cut). Per pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

ALL SEASONS.—A greatly improved strain of Early Fiat Dutch. Head very large, round, often nearly spherical, very solid and of the best quality, keeping as well as the winter sorts. Per pkt., 5c; oz., 20c; 4 lb., 75c; lb., \$2.50.

Fottler's Improved Brunswick.

Early Jersey Wakefield.

PREMIUM FLAT DUTCH.—(Selected Stock.) A very popular and highly esteemed variety; in its keeping qualities unsurpassed. Both for market and family use this variety is more extensively cultivated than any other. Per pkt., 5c; cz., 15c; ¼ lb., 50c; lb., \$1.50.

EARLY EXPRESS.—This early Cabbage, while not as large as Jersey Wakefield, is four or five days earlier, and for a first early variety cannot be excelled. It heads of conical form; very desirable. Per pkt., 5c; oz., 15c; ¼ lb.,50c; ib., \$1.50.

5c; oz., 15c; ¼ 1b., 50c; ib., \$1.50.

EARLY YORK.—An early varlety. Heads small, heart-shaped, firm and tender, of very dwarf growth, and may be transplanted fifteen or eighteen inches apart. Per pkt., 5c; oz., 20c; ¼ 1b., 60c; lb., \$1.50.

EARLY RED DUTCH.—Used almost exclusively for pickling; lt is one of the hardlest of all red Cabbages, and will keep later in the season than any of them. Per pkt., 5c; oz., 20c; ¼ 1b., 50c; lb., \$1.75.

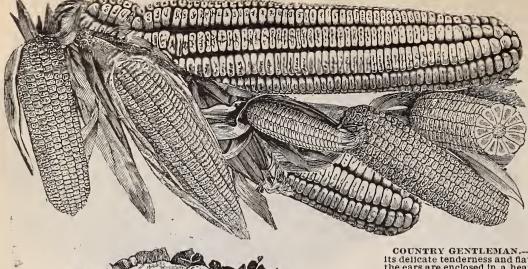

EARLY ALL HEAD.—This variety is ten days earlier, and a little larger in size than any other summer variety; the heads are deep and flat, very solid, and uniform in size and color. Per pkt., 10c; oz., 20c; ¼ 1b., 60c; lb., \$2.00 60c; lb., \$2.00

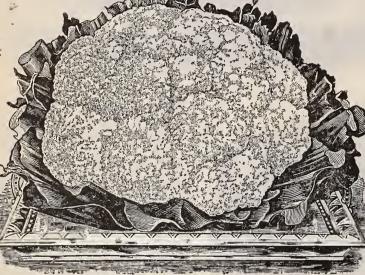

Perfection Drumhead Savov.

Marblehead Mammoth Drumhead.

Early Snowball.

CORN, SUGAR.

Welschkorn, Ger.; Mais, Fr.; Maiz, Sp

Quart for 200 hills, 8 to 10 quarts in hills for an acre.

All varieties of Sweet and sugar Corn may either be sown in rows 4½ feet apart, and the seeds placed about 8 inches apart in the rows, or planted in hills at a distance of 3 or 4 feet each way. The taller the variety, or the richer the soil, the greater should be the distance apart. We make our first plantings in this vicinity about the first of May, and continue successive plantings every two or three weeks until the last week in July.

EARLY WHITE CORY'S.—Selected for its white cob and kernel. It is earlier than any other variety; the ears are larger and better filled out than those of the red cob-Cory. All varieties of Sweet and

Cory.

COUNTRY GENTLEMAN.—This variety of corn retains its delicate tenderness and flavor even when a little old, as the ears are enclosed in a heavy husk, which tends to keep the ears in the milk for several days longer than any other corn. The plant grows 6 feet in height, medium late and produces 3 and sometimes 4 ears to a stalk.

STOWELL'S EVERGREEN SUGAR CORN.—This is the best late Sweet Corn in every way, being large, kernel hardy and productive, sweet and tender, and remaining a long time in condition suitable for cooking.

FIRST OF ALL.—The First of All is ready for the table from three days to a week earlier than the Cory, making it very desirable, not only for family gardens, but extremely valuable to grow for market, where the earliest corn always brings by far the highest prices. The ears are of medium size, well filled with grains to the very tip. In habit of growth it is rather dwarfer than the Cory, although similar in appearance. in appearance.

We do not deliver CORN IN PINTS or QUARTS FREE, but will do so when 5c per pint and 10c per quart is added to the

POP CORN, MONARCH WHITE RICE.—This is a very superior quality, very sweet, tender and white after being popped. Per lb., 15c; 10 lbs., \$1.00.

CAULIFLOWER.

Blumen · Kohl, Ger.; Choufleur, Fr.; Coliflor, Sp.

Seed may be sown in September or October and wintered the same as early cabbage plants, or they may be sown in January or February in a cool hot-bed.

One Ounce for 1,000 Plants.—Its culture is similar to that of the cabbage The soil cannot be made too rich and deep for the purpose. After they begin to head they should be watered every other day and the leaves gathered and pinned together over the heads to protect them from the sun and keep them white. The seed we offer is the finest procurable, and is obtained from the most careful growers in Europe

EARLY SNOWBALL.—The earliest and best of all for forcing or open ground culture. It is dwarf, with short outer leaves; always sure to make large, fine heads (see cut). Per pkt., 25c; ¼ oz., \$1.00; oz., \$2.50.

EXTRA EARLY DWARF ERFURT.—A favorite early market variety; large, compact heads of fine quality. Per pkt., 25c; ¼ oz., \$1.00; oz., \$2.50.

EXTRA EARLY PARIS. - A well known, excellent variety. Per pkt., 10c; oz., 25c

CARROTS.

Mohre, Ger.; Carrotte, Fr.; Zanahoria, Sp.

Deeply tilled soil, of a light sandy nature, is the most suitable for Carrots. Avoid sowing on newly manured ground, which has a tendency to produce forked roots. Sow early in spring in rows 15 inches apart, and half an inch deep. Thin out the young plants to 5 inches (see cut).

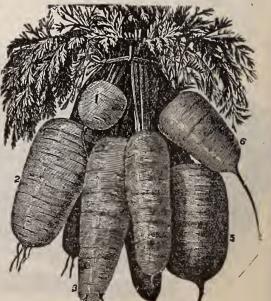

EARLY CHANTENAY OR MODEL CARROT.—For table use it is probably the best in shape and finest quality of all. They are a little longer than the Short Horn and more productive, aiways very smooth and fine in texture, per pkt. 5c; oz. 10c; ½ 1b. 30c; 1b. 65c.

1—EARLY FRENCH FORCING.—The earliest variety, and one largely grown for forcing. Per pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

2—HALF-LONG SCARLET NANTES.—A fine intermediate variety, bright scarlet color, smooth, large and excellent quality. Perpkt., 5c; oz., 10c; ¼ lb., 25c; lb. 75

3-IMPROVED LONG ORANGE.-The best late deep orange-colored variety for

general culture. Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.
6-EARLY SHORT-HORN SCARLET.-Very early, and as a table variety is much esteemed on account of its extreme tenderness. Per pkt., 5c; oz., 10c; ¼ lb, 25c; lb , 75c.

Bunch of Assorted Carrots.

CHICORY.

Cigorien, Ger.; Chicoree, Fr.

LARGE-ROOTED OR COFFEE.—The dried and prepared roots of this are used for an adulteration of coffee. Sow the seed as early in the spring as the ground can be prepared, in a rather light, moderate rich soil, in drills about 15 inches apart. When the plants are sufficiently large, thin from 4 to 6 inches apart in a row. Per pkt., 5c; oz., 10c; ¼ lb., 25c; ib., 75c.

DANDELION.

Pardeblume, Ger.; Piss-en-lit, Fr.; Amargon, Sp.

The Dandelion is cultivated for early spring greens, or blanched for salad (see cut).

THICK-LEAVED, OR CABBAGING.—An improvement on the common sort, the leaves being double the size. Per pkt., 5c, oz., 25c; ¼ lb., 75c.

ENDIVE.

Endivien, Ger.; Chicoree, Fr.; Endivia, Sp.

Endive is one of the best salads for fall and winter use. Sow for an early supply about the middle of April. The main sowings are made in June and July, from which plantations are formed at one foot apart each way in August and September. When the plant has attained its full size, then the process of blanching begins. This is effected by gathering up the leaves and tying them by their tips in a conical form.

GREEN CURLED.—Leaves cut and curled; endures extreme heat; a favorite market soit, Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

WHITE CURLED.—While the leaves are not so tender as the green curled, it is the most beautiful variety; the mid-rib is yelfow and the leaves almost white (see cut). Fer pkt., bc; cz., 15c; 4 lb., 40c; lb., \$1.50.

EGG PLANT.

Eierpflanze, Ger.; Aubergine, Fr.; Berengena, Sp.

1 OZ. FOR 1,000 PLANTS.—The seed germinates slowly and should be started in strong heat to secure a rapid and continuous growth from the first, which is very important; when the plants are formed to rough leaves, transplant to 3 or 4 inches a part; keep the bed very warm, shading from the direct rays of the sun; when the ground has become warm and all danger, not only from frost, but from cold nights, is passed, carefully transplant into very warm, rich soil, setting the plants 2½ feet apart.

NEW YORK IMPROYED —This is the lead-

NEW YORK IMPROVED.—This is the leading market variety everywhere. Plant is robust, the leaves and stems being thickly set with spines which are not found to any extent on the other varieties (see cut). Per pkt., loc; oz., 40c; ¼ lb., \$1.25.

BLACK PEKIN.—The fruit of this handsome variety is jet black, round in folm, and very solid. It is quite early, and a very superior v riety. Per pkt., 10c; oz., 40c; ¼ lb., \$1.25.

KALE (Borecole).

Gruener oder Blaetter-Kohl, Ger.; Chou Vert, Fr.; Breton, Sp.

The Kales are excellent greens for winter and spring use, and are improved by frost. Sow from May to June, covering it thin and evenly. For early spring use sow in September, and protect over winter with a covering of straw or litter

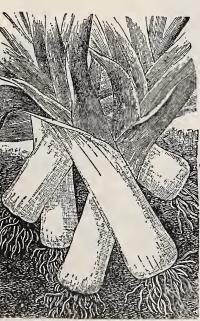

DWARF CURLED, GERMAN.—Leaves yellowish-green, finely fringed. Sow in September for winter and early spring use (see cut). Pkt., 5c; oz., 10c; ½ lb., 30c; lb., \$1.

DWARF CURLED, SCOTCH.—A favorite among our market gardeners; spreading under good cultivation to 3 feet in diameter; leaves bright green and beautifully curled. Per pkt., 5c; oz., 10c; ½ lb., 30c; lb., \$1.00.

Kale, Dwarf German.

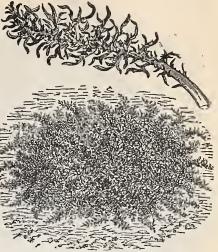

Leek, London Flag.

Martynia Proboscidea.

Dandelion, Thick Leaf.

KOHL=RABI.

Kohl. Rabi, Ger.; Chourabe, Fr.; Cal de Nabo, Sp.

This vegetable is an intermediate between This vegetable is an intermediate between the Cabbage and Turnip, and combines the flavor of both; the edible part is the turnip-shaped bulb. Sow in a light, rich soil as early as possible in drills 16 inches apart, and when well established thin to 6 inches apart in the

EARLY WHITE VIENNA.—The earliest and best variety for table use; white hulb. Price pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.

EARLY PURPLE VIENNA.—Differs from the above variety only in color which is a bluish purple. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.

LEEK

Lauch, Ger.; Poireau, Fr.; Puerro, Sp.

The Leek succeeds best in a light but well The Leek succeeds best in a light but well enriched soil. Sow as early in spring as practicable, in drills 1 inch deep and 1 foot apart. When 6 or 8 inches high they may be transplanted in rows 10 inches apart each way, as deep as possible, that the necks may be blanched.

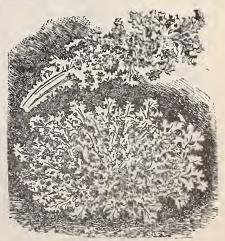

BROAD SCOTCH, OR LONDON FLAG.— The favorite market variety; very large, with broad leaves (see cut). Per pkt., 5c; oz., 15c; 4 lb., 40c; lb, \$1 25.

LARGE MUSSELBURGH.—Very large, with broad leaves, spreading like a fan; hardy and of excellent quality. Per pkt., 5c; oz., 15c; 4 lb., 40c; lb., \$1.25.

MARTYNIA.

The seed pods are used to a considerable extent for pickling when gathered green and tender. Sow in the open ground in May and transplant two feet apart, in drills three feet apart and thin

PROBOSCIDEA.—(See cut.) Per pkt., 10c; oz., 30c; ¼ 1b., \$1.00.

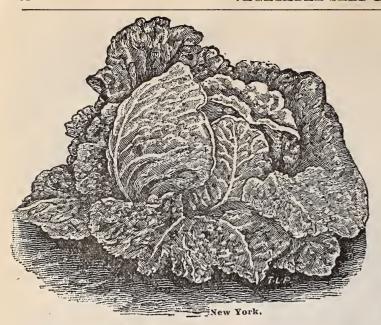

Endive. White Curled.

NEW YORK

ST. LOUIS MARKET ...

WONDERFUL

GRAND RAPIDS.

LETTUCE.

Garten Salat, Ger.; Laitue, Fr.; Lechuga, Sp.
This is easy of cultivation, but likes a good, rich soil. For early use sow under glass in February and March, and transplant as soon as the ground can be worked. Later sowing may be made in the open ground at intervals of two weeks, for succession, as long as the weather permits. Thin out well as et in rows one foot apart and a foot between the plants. Lettuce requires good ground and abundant moisture.

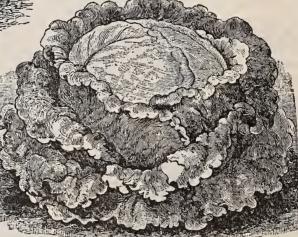

Salamander.

BOSTON MARKET OR TENNISBALL.

A favorite forcing variety, forming hard heads; it makes but few outer leaves, and for this reason can be planted very close together; a good variety for general use (see cut.)

SALAMANDER.—One of the best for summer use, forming good sized compact heads; color, light green outside and white inside. It will remain longer in head and stand a greater amount of heat without burning or running to seed than any other variety (see cut.)

NEW YORK.—This variety grows to an unusual large size and solid head, with but little tendency to run to seed. This Lettuce often attains the enormous size of 18 inches in diameter, and weighing nearly four pounds, resembling an early summer Cabbage. It is not a forcing variety, but is one of the best for summer use (see cut.)

Boston Market.

CITRON, COLORADO, GREEN SEEDED	5c	10c	15c	55c
SWEET HEART	5c	10c	20c	60c

COLE'S EARLY .- Positively the finest all round Watermelon in existence; the fruits are not large, seidom over 12 inches in length by 9 inches in diameter, but what they lack in size is more than made up in number. The heart is unusually large, there is little or no cavity and very few seeds, all solid flesh, the quaiity of which is sustained clear to the rind (see cut).

JUMBO JONES .- In shape this meion is almost round, the skin is green with faint stripes of a lighter green; they grow to an enormous size with a very tough rind, making a valuable shipping variety (see cut).

HOOSIER KING .- This melon grows long and of even diameter throughout the entire length. The flesh is brilliant red, very solid, sweet and luscious; the skin is striped light and dark green, the rind is very thin but exceedingly hard, a good shipper (see cut).

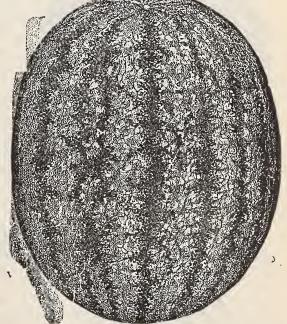

MAMMOTH IRONCLAD .- Grows to a very large, uniform size, of oblong shape, very thick, and retains its thickness at both ends; the flesh is of a dainty red color, of a rich, sugary flavor. The heart is very large; flesh is always firm, and under ordinary cuitivation they have often weighed 60 pounds (see cut).

THE DIXIE .-- This Watermeion possesses the rich, delicious flavor of the old Mountain Sweet, united with the excelient shipping qualities of the Kolb's Gem. It is a very heavy yielder, being a strong, vigorous grower (see cut).

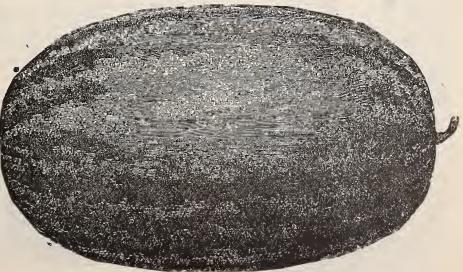

FLORIDA'S FAVORITE.—This variety is one of the earliest and also one of the finest melons in cultivation, oblong in shape, growing to a very large size; rind dark green, with light green stripes. Flesh light crimson, very crisp and delicious.

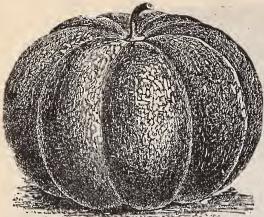

Mammoth Ironclad.

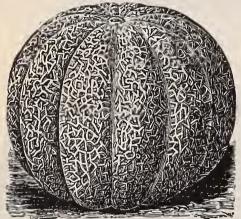

Cole's Early.

Montreal Market.

New Early Hackensack.

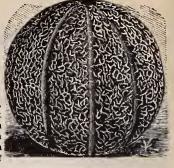

Borage.

MELON,

Musk or Cantaloupe. Melone, Ger.; Melon Muscade, Fr.; Melones Muscatel,

1 oz. for 60 hills; 2 to 3 pounds in hills for

The best soil for fine melons is a rich, warm, sandy loam. Make broad, shallow hills six feet apart each way. Plant ten or fifteen seeds in each hill, after the ground has become warm. When well started, thin to three or four stocky plants in each hill. For large meions, pinch off the ends of the long runners.

Muskmelon, Netted Gem.

EXTRA EARLY HACKENSACK .- This variety is fully ten days earlier than the oid Hackensack, which it resembles; the meions weigh from four to six pounds, and are of excellent flavor. It is one of the hardiest and most productive of all the varieties of Muskmelon (see cut).

EARLY NETTED GEM .- One of the earliest, best and most prolific small melons; grows very uniform in size and shape, weighing from 114 to 11/2 lbs. Fiesh light green and of a very fine flavor.

MONTREAL MARKET .- The fruit is nearly round, fastened at the end; deep and very regularly ribbed; skin green, meiting and of a delicious flavor; excellent variety for growing very large specimens, often weighing 10 lbs. and upward (see cut).

JERSEY BELL.-An early variety of a very large size, being about ten days earlier than the nutmeg; fine netted green flesh variety.

SWEET, POT OR MEDICINAL HERBS.

No garden is complete without a few herbs for culinary or medicinal purposes, and care should be taken to harvest them properly. This should be done on a dry day, just before they come into full bloom, then dried quickly and packed closely, entirely excluded from the air. Sow in the spring, in shailow drills one foot apart, and when well up, thin out or transplant to a proper distance apart.

ANISE .- Cuitivated principally for garnishing and seasoning. Pkt.,5c; oz., 20c. BASIL (sweet) .- The leaves and tops of the shoots are the parts gathered, and are used for highly-seasoned dishes. Per pkt., 5c; oz., 20c.

BORAGE (Borage Officinalis) - Much used in claret and other drinks. An excellent bee plant. Perpkt., 5c; oz., 20c (see cut).

CORIANDER .- Cultivated principally for its seeds, which are quite aromatic. Per pkt., 5c; oz., 20c.

DILL .- The leaves are used in soups and sauces, and to put along with pickles.

Per pkt., 5c; oz., 15c. FENNEL.-Leaves boiled enter into many fish sauces, and raw form a beautiful

ornament. Per pkt., 5c: oz., 15c.

LAVENDER.-A popular aromatic herb. Per pkt., 5c; oz., 25c (see cut).

MARJORAM (sweet) .- Seasoning. Per pkt., 5c; oz., 25c

ROSEMARY .- An aromatic herb. Per pkt., 5c; oz., 35c.

Lavender.

SAGE .- Leaves and tender tops are used in stuffing and sauces. Per pkt., 5c; oz., 25c (see cut)

SAVORY (summer) .- For seasoning. Per pkt., 5c; oz., 25c.

THYME (broad-leaved) .- For seasoning, etc. Per pkt., 5c; oz , 30c (see cut).

Thyme.

Silver King.

ONIONS.

Zwiebel, Ger.; Ognon, Fr.; Cebello,

1 oz. for 100 feet of drills; 5 or 6 pounds in drills for an acre.

The Onion must have a clean and very rich soil. Use well-rotted manure freely, and be sure and get the seed in as early sure and get the seed in as early as possible in the spring. Sow in shailow drills, not less than one foot apart, and thin out when the young onlons are about the size of quills. As onlons grow on top of the ground, they may be allowed to remain pretty thick.

YELLOW DUTCH or STRAS burgh.—An excellent variety; bulbs quite flat, of good size; skin yellow; an excellent keep-er. Per pkt., 5c.

SILVER KING .-- This variety grows to a remarkable size, averaging from 15 to 22 inches in circumference and often weighln 2½ to 4 pounds each. The skin is of a beautiful slivery-

Danver's Yellow.

White Velvet Okra.

white, the fiesh snow white (see cut). Per pkt., loc white portugal or silver skin.—A good variety for family use; skin pure white and flat shape. The best white onion. Per pkt., 5c.

WETHERSFIELD RED.—One of the best varieties for a general crop; of good size; red, flattish heads, and keeps well. Per pkt., 5c. \$0.60 YELLOW DUTCH OR STRASBURGH 20c SILVER KING WHITE PORTUGAL OR SILVER SKIN 10c 15c 40c 35c $\frac{1.35}{1.25}$ WHITE PORTUGAL OR SILVER SKIN

ONION SETS.

Onion Sets should biplanted early in spring, in rows twelve inches apart. When raised from sets, the onions can be used in the green state in June, or they will mature in July; one quart to 40 feet of dril.

YELLOW ONION SETS—Per qt., 30c; pk., 75c; bu., \$2.25.

WHITE ONION SETS—Per qt., 30c; pk., 70c; bu., \$2.40.

TOP SETS OR BUTTONS—Per pt., 20c; qt., 30c.

WHITE MULTIPLIERS.—An onlon of pure silvery white color enormously productive. Per pt., 20c; qt., 35c; pk., \$1.00; bu., \$3.50.

IF ORDERED TO BE SENT PER EXPRESS, deduct 10c from quart price.

MUSTARD.

1 oz. of seed will sow about 75 feet of drill.

A spring salad; can be sown as soon as the ground is free from frost. It grows rapidly and must be cut when young. Sow in shallow drills

must be cut when young. Sow in shallow drills one foot apart.

If by mail in quantities of half lb. and upward, postage must be added at the rate of 8c per lb.

BROWN.—Stronger and more pungent than the white. Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 35c.

WHITE.—Best for salads and general use. Per pkt., 5c; oz., 10c., ¼ lb., 15c; lb., 35c.

PUMPKIN.

Kurbis, Ger.; Courge, Fr.; Calabaza, Sp.

Sow in good soll in May, when the ground has become warm, in hills 8 or 10 feet apart each way, or in fields of corn about every fourth hill. Plant at the same time with the corn.

If by mail in quantities of half lb. and upward, postage must be added at the rate of 8c per lb.

LARGE TOURS, OR MAMMOTH.—This variety grows to an immense size, often weighing over 100 pounds (see cut). Per pkt., 5c; oz., 15c; ¼ 1b., 40c; lb., \$125.

Pumpkin, Large Tours,

OKRA OR GUMBO.

Esbarer, Ger.; Gombo, Fr.; Quibombo, Sp.

Its long pods, when young, are used in soups, stews, etc., and are nutritious. It is of the easiest culture. Sow the seed thinly in dry, warm soil, in shallow drills, two feet apart. Thin out the plants to nine inches.

If by mail in quantities of half lb. and upward, postage must be added at the rate of 8c per lb.

WHITE VELVET .- The pods are round and smooth and much larger, and not prickly to the touch; very productive (see cut). Per pkt., 5c; oz., 10c; 4 lb., 25c; lb., 55c.

IMPROVED DWARF .- Early and productive. Per pkt., 5c; oz., 10c; 4 lb., 20c; lb., 55c. LONG GREEN. - Long ribbed pods. Per pkt., 5c; oz., 10c; 4 lb., 20c; lb., 55c.

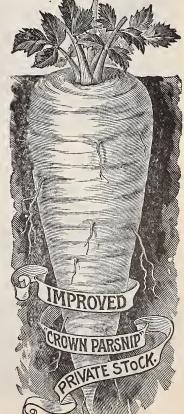

PARSNIPS.

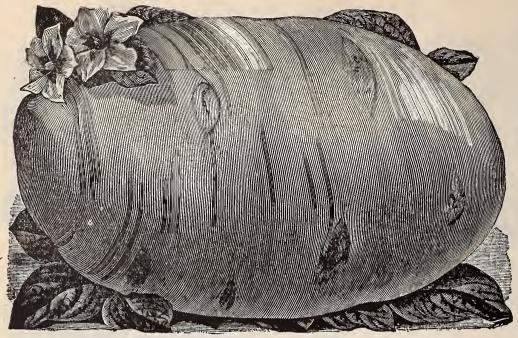

Pastinake, Ger.; Panais, Fr.; Pastinaca, Sp.

One ounce per 200 feet of drill; 5 to 6 pounds in drills for an acre. Sow as early in the spring as the weather will permit, in drills 15 inches apart, covering half an inch deep. When well up, thin out to 5 or 6 Inches apart in rows.

If by mail in quantities of one-half pound and upward, postage must be added at the rate of 8 cents per pound.

LONG SMOOTH, OR HOLLOW CROWN .-Best for general use (see cut). Per pkt., 5c; oz., 10c; 4 1b., 20c; lb., 50c.

Potato Rural New Yorker No. 2.

POTATOES.

Kartoffel, Ger.; Pomme de Terre, Fr.

In drills 3 feet apart, 12 to 14 bushels to the acre.

Potatoes can be grown with varying success on all kinds of soil but thrive best on a sandy loam, being subject to more disease in heavy soil, and are inferior in flavor. Good pasture land is preferable, allowing the sod to decay for manure. The best fertilizer for potatoes is plaster, lime, superphosphate of lime and bone dust. Plant as early in spring as the ground can be worked well, in hills or ridges a feet apart and 3 or 4 inches deep.

deep.
Our potatoes are especially raised for seed purposes, and are Northern grown.

BEAUTY OF HEBRON.—A rapid and vigorous grower, ripening as early as Early Rose, but exceeds in productiveness. Per pk., 45c; bu., \$1.50

Pea

planti by ma

FIRST

TELE PHIL AME

EARLY ROSE.—The leading variety for earliness, quality and productiveness. Per pk., 40c; bu., \$1.50.

EARLY OHIO.—Very productive, fine quality, an excellent keeper, one of the best potatoes for home or market use. Per pk., 40c; bu., \$1.40.

OHIO JUNIOR.-Similar to Early Ohio, except that it will average larger in size and a much heavier cropper. Per pk., 40c; bu., \$1.40. THE FREEMAN.—An early variety, coming in before the Early Rose or Early Ohio. The tubers are oval in shape, with a white flesh, and good size. It is a variety that gives general satisfaction to all that have grown it. Per pk., 50c; bu., \$1.50.

a good size. It is a variety that gives general satisfaction to all that have glown it. Fer pa., 50c, 50c., 51c., 51c. 50c. 50c., 51c., 51c. 50c. 50c., 51c. 50c., 51c. 50c. 50c., 51c. 50c., 51c., 51c. 50c., 51c., 51c. 50c., 51c., 51c. 50c., 51c., 51c.

Pepper.

PEPPER.

Pfeffer, Ger. Piment, Fr.; Pimiento, Sp.

Pfeffer, Ger.; Piment, Fr.; Pimiento, Sp.*

Sow in hot-bed early in April and transplant to the open ground when the weather is tavorable. They should be planted in warm, mellow soil, in rows eighteen inches apart. They may also be sown in the open ground when danger of frost is past, and the soil is warm and the weather settled

RUBY KING.—The fruits are of a bright, ruby ied, from four and a haif to six inches long by nine inches in circumference. Pkt., 5c; oz., 30c; ½ lb.. \$1.00.

LARGE BELL OR BULL NOSE.—An early variety of mild flavor; rind thick and fleshy (see cut). Pkt., 5c; cz., 2fc; ½ lb., 75c.

SWEET MOUNTAIN OR MAMMOTH.—Similar to the Bell in shape and color, but mildly flavored. Pkt., 5c; oz., 25c; ½ lb., 75c. ...

LONG RED CAYENNE.—From three to four inches long, of a bright red color, very productive and hot. Pkt., 5c; oz., 25c; ½ lb., 75c. ...

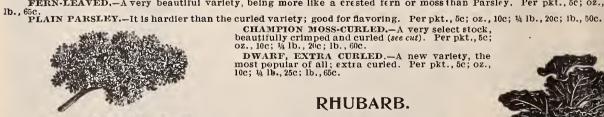

DARGE BELL.

PARSLEY.

Petersilie, Ger.; Persil, Fr.; Peregil, Sp. 1 oz, for 150 feet of drill.

Parsley succeeds best in a rich, mellow soil. As the seeds germinate very slowly, three or four weeks elapsing sometimes before it makes its appearance, it should be sown early in spring. Sow thickly in rows a foot apart and half an inch deep. For winter use, protect in a frame or light cellar.

MYATT'S TRIPLE CURLED.—This is a very ornamental variety; grown more than any other sort for its decorative purposes; the leaves are of a peculiar extra dark green color. For garnishing no variety is more attractive. Per pkt., 5c. FERN-LEAVED.—A very beautiful variety, being more like a crested fern or moss than Parsley. Per pkt., 5c; oz., 10c; 4 lb., 30c;

RHUBARB.

Rhubarber, Ger.; Rhubarbe, Fr.; Ruibarbo Eastardo, Sp.

Sow in April in drills 18 inches apart, and cover the seeds with fine soil, pressing it down firmly. When the plants are strong enough, thin out to 6 inches. In the fail or following spring, transplant the roots into deep, rich soil, 3 feet apart each way.

LINNAEUS.—A well-known market variety; very early and tender (see cut). Per pkt., 5c; oz., 15c; 14 lb., 40c; lb., \$1.25.

VICTORIA.—Very large; later than Linnæus. Per pkt., 5c; oz., 15c; 4 lb., 50c; lb., \$1.25.

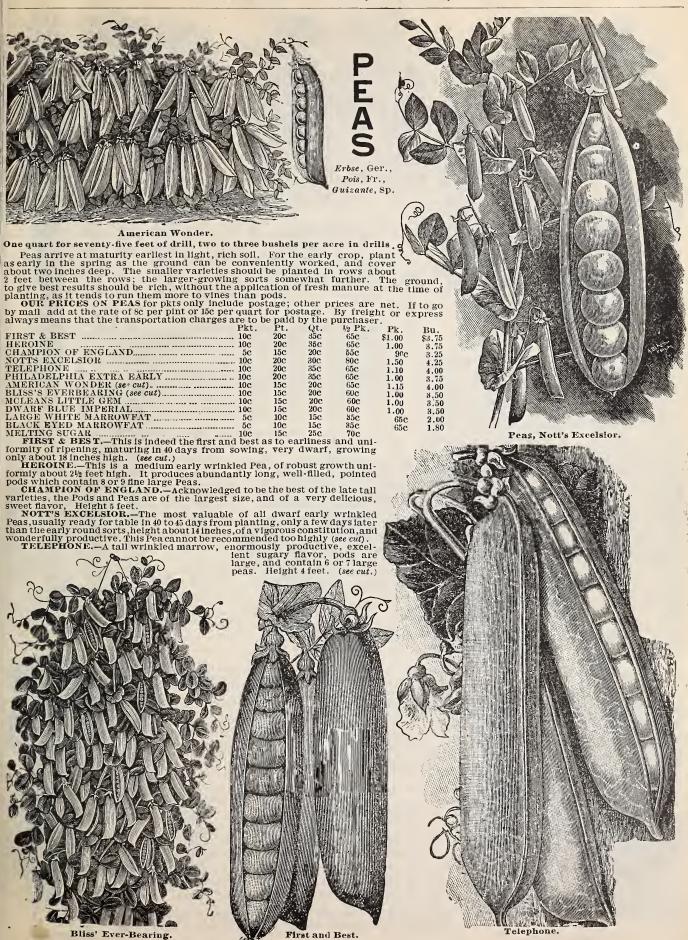

Rhubarb Roots, see page 24.

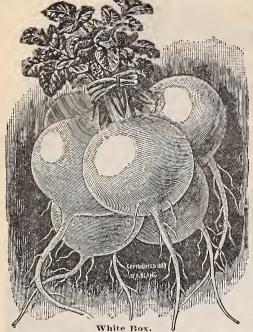

Parsley, Champion Moss-Curled.

Rhubarb, Linnæus.

Rettig, oder Radieschen, Ger.; Radis, Rave, petite, et longue, Fr.; Rabano, Sp.

Radishes thrive best in light, sandy loam. Heavy or clayey soils not only delay their maturity, but produce crops much inferior, both in appearance and flavor. For a successive supply, sow from the middle of March until September, at intervals of 20r3 weeks. For an early supply they may be sown in a hot-bed in February. Sowing should be made in drills 10 inches apart and the plants should be thinned to 2 inches in the row.

Scarlet.

EXTRA EARLY SCARLET GLOBE. -- This beautiful Radish is the earliest of all, and the best for family use. It is rich, bright red in color, round, smooth and firm (see cut). Per pkt., 5c.

LONG BRIGHTEST SCARLET.—A very early variety, Fi the roots being fit for use about twenty five days after sowing; color, a bright scarlet; shape, very regular, intermediate between the long and half long sort (see cut). Per pkt., 5c. Long Scarlet.

WHITE BOX.—It is a beautiful clear ivory-white, of perfect form, with few and short leaves, and hence can be grown very thickly in the row (see cut). Per pkt., 5c.

Scarlet Globe.

Early Scarlet Turnip.

IMPROVED CHARTIER .- A long and unusually large variety. The upper portion of the radish is bright crimson, shaded down in pink at the center, thence to the tip it is pure wax-white. In quality it is tender, sweet and mild (see cut). Per pkt., 5c.

EARLY SCARLET TURNIP .- The earliest sort, turnipshaped, color, fine scarlet. It is remarkably mild, crisp and tender, with a very short top, and cannot be too highly recommended for early fo. cing (see cut). Per pkt., 5c.

LONG SCARLET, SHORT TOP .- A standard long variety. Root is long, straight, smooth and of a rich scariet color; very crisp; quick grower (see cut). Per pkt., 5c.

LONG WHITE VIENNA (lady Fingers).-This is the finest long white radish in cultivation. Most beautiful in shape; skin and flesh are pure snow white, crisp and of rapid growth. Per pkt., 5c.

WHITE TURNIP.—Similar to the Early Scarlet Turnip in every respect, except its white skin. Per pkt., 5c.

ROUND WHITE SUMMER.-A general favorite, of large turnip shape, white skin and flesh; very crisp. Per pkt., 5c.

SQUASH.

Kurbiss, Ger.; Courge, Fr.; Calabasa Tomtanera, Sp.

Squashes will grow readily on almost any soil. It is useless to sow until the weather becomes settled and warm. The bush varieties from 3 to 4 feet each way, and for the running sorts, from 6 to 8 feet; 8 or 10 seeds should be sown in each hill, thinning out after they have attained their rough leaves, leaving three or four of the strongest plants

EARLY WHITE BUSH SCALLOP.—Light cream color; large, flat, scalloped shape; grows to a large size (see cut No. 1). Per pkt., 5c; oz., 10c; ¼ 1b., 20c; lb., 50c.

1b., 50c. EARLY YELLOW BUSH SCALLOP.—Good, early productive squash. Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50...

as one of the finest of the summer varieties; color, bright yellow; flesh dry and well flavored (see cut No. 2). Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

BOSTON MARROW.—Fruit oval-shaped; skin very thin and tender, cream-colored. Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

HUBBARD.—The leading squash for fall and winter use; good in any climate; splendid keeper (see cut No. 5). Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

ESSEX HYBRID.—One of the very best keepers that we know of The flesh is very thick, richiy colored and solid (see cut No. 4). Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

PINEAPPLE.—Pure white color, unusually thick flesh; good for summer or winter. Per pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c. SUMMER CROOKNECK.—Generally acknowledged

Summer and Winter Squash.

Salsify.

SPINACH.

Spinat, Ger.; Epinard, Fr.; Espinaca, Sp.

Spinat, Ger.; Epinard, Fr.; Espinaca, Sp.
One ounce for 100 feet drill. For the
winter crop sow in September. It may be
covered up in exposed places with straw or
hay during the winter. For summer use,
sow in March or April. Spinach is best developed and most tender and succulent
when grown in 11ch soil.

BLOOMSDALE CURLED SAVOYLEAVED.—The leaf of this variety is wrinkled and produces twice the crop of the old
variety. Per pkt..5c; 4 lb., 10c; lb., 35c.
ROUND THICK-LEAF.—The main market sort. Equally good for either fall or
spring sowing (see cut). Per pkt., 5c; 4 lb.,

ket sort. Equally good for either fall or spring sowing (see cut). Per pkt., 5c; 4 ib.,

c; lb.. 80c LONG STANDING.—Except for standing a long time before running to seed, this variety resembles the well-known Round Leaf. Per pkt., 5c; ¼ lb., 10c; lb., 35c.
PRICKLY.—May be sown either in spring or fall; the best winter variety. Per pkt.,

5c; 4 lb., 10c; lb., 35c.

Spinach, Round Thick-Leaf.

SALSIFY, OR OYSTER PLANT.

Bocksbart, Ger.; Salsifis, Fr.; Ostra Vegetal, Sp.

Especially esteemed for its pecuiiar oyster flavor. Sow the seed early in the spring, in drills 12 inches apart and 1 inch deep, thinning out the young plants to 6 inches. The roots will be ready for use in October, when a supply should be taken up and stored like carrots. Those remaining will suffer no injury by being left

in the ground tili spring.

MAMMOTH SANDWICH ISLAND.—This variety grows to a very large size, resembles a good sized parsnip (see cut). Per pk.t, 5c; oz., 1£c; 14 lb., 40c; lb., \$1.50.

LONG WHITE.—The favorite market variety, and best flavored. Per pkt., 5c; oz., 10c; 4 ib., 25c; lb , 90c.

SORRELL.

BROAD LEAF FRENCH .- This is the best variety; large leaves of a pale color. Per pkt., 5c; oz., 15c; 4 lb., 50c; lb., \$1.50.

TOBACCO.

Seed should be sown as early as possible after the danger of frost is over, and cover very lightly. When the plants are about 6 inches high, transplant into rows 4 or 5 feet apart each way, and cultivate thoroughly with plow and hoe.

BIG HAVANA .- A hybrid Havana or Cuban seed leaf. A heavy cropper of fine texture (see cut). Per pkt., 5c; oz., 25c; 4 lb., 65c.

CONNECTICUT SEED LEAF .- Is hardy and endures the cold better than the tender varieties. Per pkt., 5c; oz., 20c; 4 1b., 60c.

RUTABAGA.

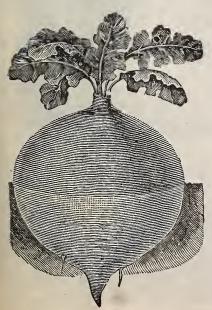

Cultural directions same as Turnip.

IMPROVED AMERICAN .- Very hardy and productive, flesh yellow, solid and sweet; good for stock and table use. Per pkt., 5c; oz., 10c; 4 lb., 15c; ib., 40c.

LONG ISLAND IMPROVED .- This is undoubtedly the finest variety of purple top Rutabagas grown; the shape is slightly oblong, with a single top root free from all coarseness, and for conformity of crop is superior. Per pkt., 5c; oz., 10c; 4 lb., 20c., ib., 50c.

Tobacco, Havana.

Rutabaga, Improved Parple Top.

Tomatoes do best in a light, warm, not over rich soil, sowing it into hot-beds during March. When the plants are about two inches high, transplant in boxes three inches deep and four or five inches apart. Set out of doors as soon as danger from severe frost is over. The fruits will come earlier if the vines are tied to a trellis. If by mail in quantities of one-half pound and upward, postage must be added at the rate of 8c per pound.

ATLANTIC PRIZE.—A very rapid, strong growing variety; fully ten days ahead of any other (see cut). Per pkt., 10c; oz., 25c; 4 ib., 75c.

MATCHLESS.—A very large-growing variety; skin remarkably tough; a good keeper. Per pkt., 5c; oz., 30c; ¼ lb., 65c.

LIVINGSTON'S BEAUTY.—This variety is as early as the Acme, is round, smooth and of a glossy crimson color (see cut). Per pkt., 5c; oz., 25c; ¼ lb., 65c.

ACME.—One of the earliest; is of medium size, smooth and regular in shape. Per pkt., 5c; oz., 25c; ¼ lb., 65c.

GOLDEN QUEEN.—A yellow tomato, very solid, large and handsome. Its flavor is of the best. Smooth, round and very productive (see cut). Per pkt., 5c; oz., 25c; ¼ lb., 65c.
PERFECTION.—Color blood red, almost round in shape, perfectly smooth and very solid. Per pkt., 5c; oz., 20c; ¼ lb., 60c.
PEACH.—Resembling a peach in shape and size; color, deep orange rose. Per pkt., 5c; oz., 25c; ¼ lb., 70c.
RED CHERRY.—The shape and size of a cherry (see cut). Per pkt., 5c; oz., 25c; ¼ lb., 75c.

Turnip, Golden Ball.

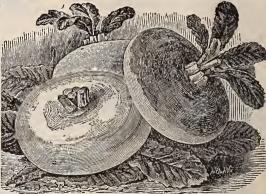

Steckruebe, Ger.; Navet, Fr.; Nabo Coman, Sp.

TURNIPS.

Steckruebe, Ger.; Navet, Fr.; Nabo Come
One ounce for 150 feet of drill. One
to two pounds in drill for an acre.
Sow the seed very early. in drills eighteen inches apart and half an inch deep.
When the plants are a few inches in
height, thin out to six inches apart in
the drills. For late crop sow in July or
August, broadcast or in drills.
If by mail in quantities of one pound and upward, add &c per pound for postage.
PURPLE TOP, STRAP LEAF.—This
variety is the principal sort for early
spring and fall use. Per pkt., 5c; 02.,
10c, ¼ 1b, 15c; lb., 40c.
EXTRA EARLY MUNICH.—This variety is at least two weeks earlier than
any other. Per pkt., 5c; oz., 10c; ¼ 1b, ,
20c; lb, 50c.
EARLY FLAT DUTCH.—An excellent
garden variety; the best for spring sowing. Per pkt., 5c; oz., 10c; ¼ 1b., 15c;
lb., 40c.
GOLDEN BALL—A rapid grower,
globe shaned

High, 40c.

GOLDEN BALL.—A rapid grower, globe shaped bright yellow color (see cut). Per pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Turnip, Purple Top, Strap Leaf.

OUR CITY GARDEN COLLECTION OF VEGETABLE SEEDS.

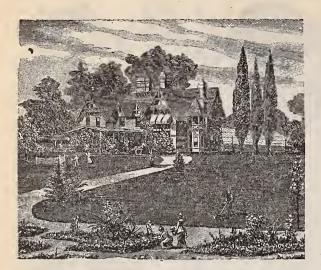

It contains the following varieties and quantities. Price, \$1.00, or free by mail for \$1.25:

Beet, round red, 1 pkt. Beans (none of which require staking), Dwarf, string, green pod, ½ pt.; Dwarf, string, yellow wax pod, ½ pt.; Bush Limas, 1 pkt.; Cabbage, Early Wakefield, 1 pkt. Carrot, Early Scarlet, 1 pkt. Corn, Early Sugar, ½ pt. Cucumber, for slicing, etc., 1 pkt. Egg Plant, 1 pkt. Lettuce, Best Summer Heading, 1 pkt. Onion,

Early White, for slicing, 1 pkt.; large, for boiling, 1 pkt. Parsley, Double Curled, 1 pkt. Peas (none of which require staking), Earliest Dwarf, 1/2 pt.; Dwarf, Medium Early, for succession, ½ pt.; Dwarf, Late, ½ pt. Radish, Early Round, 1 pkt. Squash, White Scalloped Bush, 1 pkt. Tomato, Early Smooth Scarlet, 1 pkt. Turnip, Round White Table, 1 pkt.

IN PACKETS We will send by mail, postpaid, the first 6 packets for 25c; or the first 13 packets for 50c; or the full list of 30 packets for \$1.00. These prices are far below the regular whole YOUNG'S SPECIAL LOW PRICED COLLECTION OF STANDARD VEGETABLE SEEDS,

YOUNG'S LAWN GRASS SEED

Has No Equal.

FOR MAKING A NEW LAWN OR RENEWING AN OLD ONE.

A NEW LAWN, Thick, velvety and green, may be had in three months' time by sowing Young's Lawn Grass Seed. A soft, even the finest beds of flowers lose half their beauty and effect.

IN MAKING A NEW LAWN,

The first point is to spade the ground well. If it is unusually poor, spread over it a layer of rich top soil to the depth of three or four inches. As soon as the ground is thoroughly pulverized and made perfectly smooth, sow our "Lawn Grass Mixture" thickly, after which run over it with a rake, then pat the surface smooth with the back of a spade or shovel, or, if the lawn is large use a roller. By all means get the seed in as early in the spring as possible. When the shoots of young grass have grown to the height of three or four inches, it should be mown with a sharp scythe; after this it should be mown every week with a lawn mower.

RENEWING OLD LAWNS.

Early in the spring have the lawn raked, removing all dead grass and leaves, then sprinkle it with our Lawn Grass Seed, sowing very thickly in the bare spots and thin spaces, so that the seed and grass will grow up at the same time, forming a smooth, perfect sod. Our improved Lawn Grass Seed is the best mixture for sowing or renewing lawns. It has been carefully prepared, and thorough testing has shown it to be the best seed for sowing in this climate, producing a smooth and durable turf, that will remain green throughout the Summer.

As a guide for the proper quantity to order, we may state: For making new lawns, 5 bushels per acre, or for renovating old lawns, 1 to 2 bushels per acre; for a lot 15 by 20, or 300 square feet, 1 quart is required for new or 1 pint for renovation. Price per quart 25c, by mail 30c; pk. \$1.25, per bu. of 20 lb., \$4.00.

LIST OF OTHER GRASSES AND CLOVERS.

If order is to be sent by mail postage must be added at the rate of 8c per lb.

KENTUCKY BLUE GRASS SEED.—Extra cleaned. Per lb., 20c; by mail, 28c; pk., 60c; bu., \$2.00.

ORCHARD GRASS.—Valuable for either pasture or hay. Per

ALASKA, OR SWEDISH CLOVER.—Perfectly hardy and stands the drouth well. Per lb., 25c; bu. \$12.00.

RED CLOVER .- Per lb., 20c; 5 lbs., 75c. Price per bushel on application.

WHITE CLOVER.—Per lb., 30c; bu., \$12.50.

MAMMOTH, OR PEA VINE CLOVER—Lasts longer than most varieties; grows 5 to 6 feet high. Per lb., 30c; pk., \$2.75; bu. \$9.50. CRIMSON CLOVER.—If sown at the last of the summer or early in autumn it will furnish very early green fodder. Per lb., 15c; bu., \$4.00.

MILLET.—German or Golden, medium early, growing from 3 to 5 feet high. Per lb., 10c; bu., \$2.00.

RED TOP GRASS SEED .- Per lb., 15c; pk., 50c; bu., \$1.25.

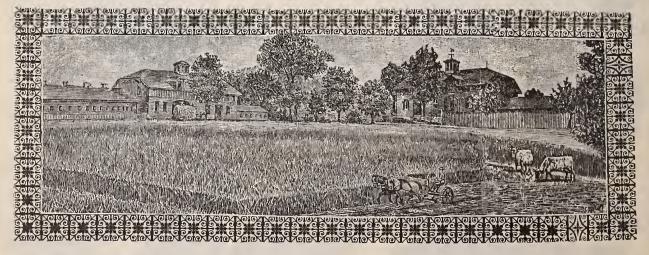

TIMOTHY, EXTRA CHOICE .- Perlb., 10c; pk., \$1.00; bu., \$3.25. HUNGARIAN GRASS .- Per lb., 10c; pk., 25c; bu., 75c.

SWEET VERNAL GRASS.—Valuable for mixing with pasture grasses on account of its fragrant odor, Per lb., 25c.

RHODE ISLAND BENT GRASS.—A valuable Grass, mostly used for lawns. Per lb., 30c; bu., \$3.00.

BERMUDA GRASS.—Suitable for the South where the winters are not below the freezing point; very valuable for pastures where the summers are very not and dry. Per lb., \$1.25.

ENGLISH RYE GRASS.—A very valuable Grass for either pastures or lawns. Per lb., 15c; bu., \$2.50.

Young's Special Grass Mixture for Permanent Pasture.

This mixture is composed of all the best standard Grasses that are used for making meadows for either mowing or pastures. The average quantity sufficient to sow an acre is four bushels, but if the ground is very fertile, 2½ bushels will be enough. Per lb., 20c. A bushel of 18 lbs., \$2.50; 3 bushels for \$7.00. For larger quantities, write for special prices.

VEGETABLE

CABBAGE.—Henderson's Early Summer, Early Jersey Wakefield, Early Drumhead, Premium Fiat Dutch, 50c per 100; \$4 00 per 1,000. Ready April 1.

CAULIFLOWER.—Early Snowball, Early Parls, \$1.25 per 100; \$7.00 per 1,000.

Ready April 1.
EGG PLANT.—New York Improved, pot grown, 30c per doz.; \$2.00 per 100.

Ready May 10.

PEPPERS.—Ruby King, Large Bell, Red Cayenne, pot grown. 80c per doz.; \$2.00 per 100. Ready May 10

TOMATO.—Perfection, Acme, Paragon, Livingston's Beauty, pot grown, 30c per doz.; \$2.00 per 100.

RHUBARB ROOTS.—15c each;; \$1.50 per dozen.
ARTICHOKE ROOTS.—Grown extensively for its tubers. Per

Fertilizers.

PURE BONE MEAT. PURE BONE MEAL.—This is ground very fine, is excellent for top-dressing lawns, and well adapted for mixing with soil for potting purposes, for which one part of meal to fity of soil is about the right proportion. Price, 21bs. (not mailable), 15c; 10 lbs., 50c.; 25 lbs., \$1.00; ln 50 to 100 lbs., 2½c per lb.

BOWKER'S FOOD FOR FLOWERS.—A fertillzer free from odor, clean to handle. Made expressly for flowers grown in the house or garden, producing a healthy, luxuriantgrowth and induces early and generous flowering. It cannot in any way harm the plants if applied according to directions which accompany every package. Small package, 15c; hy mail, 25c; large packages, enough for twenty plants for six months, 25c.; by mail, 40c. BOWKER'S FOOD FOR

PULVERIZED SHEEP MANURE.—A most nutritious food for plants; its effect is immediate and lasting; it is clean to handle and perfectly odorless, and one of the best manures to mix with soil for potting plants. One part manure to six parts of soil. As a lawn dressing it is unequaled. 10 lbs. is sufficient for an area of 30 square feet. 5 lbs., 25c; 150 lbs., \$2.00; 100 lbs., \$3.50 LEAF MOULD.—Very scarce article to get; this we have is composed entirely of rotten leaves. It is very valuable for the growing of ferns and all plants that require a light, rich soil; should be mixed with clean, sandy loam, about one-quarter of leaf mould to three-quarters of loam. It is perfectly dry and light. Per lb., 35c; 2 lbs., 60c; by mall postpaid. 5 lbs., by exp. 75c; 10 lbs. \$1.25 POTING 80IL.—We have had a mixture prepared that will be suitable for most all kinds of plants. It is made up of clean sod loam with the right proportion of rotten manure, leaf mould, good sharp sand and bone meal as a fertilizer. It is finely sifted and ready for immediate use. Per bushel. 75c; per barrel. \$2.00.

MANURE FOR LAWNS.—This is the best of all fertilizers for lawns, producing a thick luxuriant growth of grass. It is should be put on the lawn during the fall months. The finest lawns in St. Louis last summer were those that were top-dressed with this fertilizer in the fall. Per barrel, \$1.50; 6 barrels, \$7.50, per freight or express at buyers' expense.

Earthen Flower Pot.

DESTROYERS. INSECT

SLUG SHOT.—This is a powder poisonous to insects, either killing them or driving them away. For the destruction of the potato bug, striped bug on melors and cucumbers, black files on turnips and radishes, and the green worm on cabbage, we know of nothing so effectual. I 1b. canister with perforated top, 25c each; by mall, 35c; 5 lb. packages, 30c; 10 lb. packages, 50c. HELLEBORE.—For destroying rose siugs and currant worms. A few applications only are necessary, and it is thoroughly effective. Per ¼ lb., 20c; ½ lb., 30c; lb., 50c. By mail, 16c per lb. extra.

YOUNG'S INSECT POWDER.—This powder is what we have used in our greenhouses and gardens for the last two years, for destroying aphisor green fly on potted plants, roses, etc., it has never falled. Also the best powder for the destruction of the rose slug and any other insects that infest all outside plants. In packages of ¼ lb., 25c.

FLOWER OF SULPHUR.—A preventive and cure for mildew on roses, grapevines, etc. Per lb., 10c; per 3 lbs., 25c. If by mail, add 16c per 1b.

TOBACCO STEMS.—For fumigating plants infested with green fly. Per lb., 15c; per bbl., \$1.00;

TOBACCO STEMS.—For fumigating plants intested with green ny. Fer ib., 15c; per bbl., \$1.00.
TOBACCO DUST, FINE.—For green and black aphls, fleas, beeties, etc. Splendld fertilizer and preventive for insects in the ground and around roots. 10c per lb., or by mail 20c per lb.; 5 lbs., 35c; 10 lbs., 65c; \$3.00 per bbl.
SCOLLAY'S RUBBER SPRINKLERS.—Indispensable for floral work and window gardening. 50c, 75c and \$1.00 each, according to size.
ANGULAR SPRINKLERS.—For spraying under the leaves of plants, \$1.00 each.

\$1.00 each.

If ordered by mail, add 10c to the above prices for pos'age.

Angle Sprinkler.

Plant Sprinkler.

Paper Flower Pot.

PAPER FLOWER POTO.—Have been given full and repeated tests in growing plants for blooming, and have proved fully satisfactory in every respect. These pots can be sent by mail in small numbers, and by express in larger quantities, at very low rates. The following are the sizes:

e following are the sizes:
in. per doz. by mail, prepaid, 15c; per 100, by exp. not paid, \$0.75
ln. '' '25c; '' '' '1.00
in. '' '30c; '' '1.25 3½ ln.

EARTHEN FLOWER POTS.—4 and 5 inch, 50c per doz.; 6 inch, 75c per doz.; 7 inch, \$1.50 per doz.; 8 inch, \$2.00 per doz.; 10 inch, 30c each; 12 inch, 50c each.

Earthen Flower pots cannot be packed free but will be charged

SAUCERS for flower pots, 4 to 8 inches in diameter, 5c each; 50cper doz.

Packing Flower Pots and Saucers will be charged extra.

Sugar Beets and Mangel Wurtzel.

Sow 4 to 6 lbs. to the acre.

These are very valuable for stock feeding. Cultural directions same as Beets.

RED GLOBE.—Similar to the Yellow Globe, differing only in color. Per oz., 5c; 4 lb., 15c;

GIANT INTERMEDIATE.—Very profitable to grow; an improvement on Yellow Ovid. Per oz.. 5c; ¼ lb., 15c; ib., 35c.

VILMORIN'S IMPROVED (White Sugar Beet).—This variety has more saccharine matter in it than any other. Per oz., 5c; ¼ lb., 15c;

Farm and Field Seeds.

WHITE CAP YELLOW DENT.—This variety is considered by all large professional Corn growers to have more general good merit than any other corn grown. It is a very heavy yielder and a vigorous grower, even on poor land. Per pk., 35c; per bu., \$1.25.

CLARK'S EARLY YELLOW MASTODON.—This is a very quick-growing variety, extra large and very productive. Ears average 9 to 12 inches long, with 20 to 30 rows on the cob; stalk bearing 3 to 5 ears, often weighing 2 lbs. each. Perpk., 40c; per bu., \$1.25.
CHAMPION EARLY WHITE PEARL.—This is the best of the White Dent varieties.

reliow Dent Corn and is well named, as it is the most beautiful yellow corn grown. The ears are medium in size and very heavy and long, having from 15 to 20 rows on a cob. Perpk., 30c; perbu., \$1.00.

IMPROVED LEANING.—A Yellow Dent variety, very small cob, with a deep, long grain; very productive, yielding from 75 to 100 bushels per acre. Per pk., 30c; bu., \$1.00.

DUNGAN'S WHITE PROLIFIC.—One of the largest varieties of White Corn grown, a very deep grain and a small, pure, white cob. One of the greatest points in this corn is its yielding capacity, it producing double the quantity of any other variety. Per pk., 30c; per bu., \$1.00.

SORGHUM.

Cultural Directions same as Corn.

EARLY AMBER SUGAR CANE. — An early popular variety. Its distinct feature is its earliness and great yield of both sugar and cane. Per lb., loc; pk., 50c; bu., \$1.50.

EARLY ORANGE SUGAR CANE.—A little later variety than the Amber, well adapted for the South. Per lb., 10c; pk., 50c; bu., \$1.50.

KAFFIR CORN.—A variety of Sorghum cultivated for both forage and grain, growing from 4½ to 6 feet high; is stocky and erect, and has wide foliage. Kaffir Corn has the quality common to all sorghums of resisting drought, and in this fact is to be found its peculiar value to southern sections. Sow in rows 3 feet apart, 5 to 6 lbs. to the acre. Per ib., 10c; 10 lbs., 75c.

MILLET.

GERMAN, OR GOLDEN MILLET.—Superior to all others. Medium early; three to five feet high. Sow same as Common Millet. Lb., 10c; bu., \$1.50.

BUCKWHEAT.

Sow 3 pecks to the acre.

JAPANESE.—Distinct and superior to all other varieties, tailer strain and much larger grain; far outyleiding the older varieties. Per lb., 10c; pk., 40c; bu., \$1.25.

SILVER HULL.—This variety continues in bloom longer than Common Buckwheat. The flour is whiter and husks thinner. Peck, 50; bu., \$1.50.

SUNFLOWER SEED.

Sow 4 or 5 lbs. to the acre.

MAMMOTH RUSSIAN. — Single heads measure 12 to 22 inches in diameter, and contain an immense quantity of seed; it is in excellent and cheap food for fowls, and can be raised cheaper than corn. Per lb., 15c; 10 lbs., \$1.00.

COW, OR SOUTHERN PEAS.

Plant in thoroughly pulverized soil. If wanted to plow under for manure, sow with a grain drill, in drills a foot apart. Is grown for fodder or for seed; plant 3½ feet apart and cultivate thoroughly. The seed must not be sown until the soil has become thoroughly warm. Weight per bu., 60 ibs.

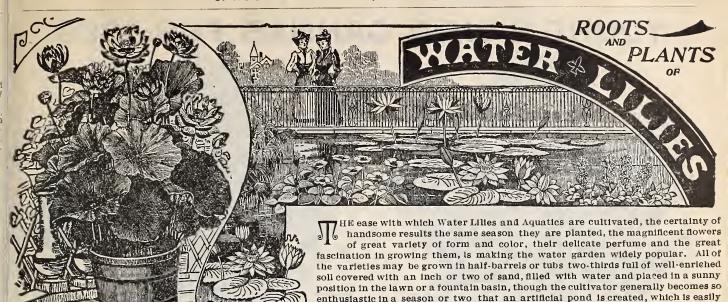

BLACK EYE.—Seed large, round oblong, creamy white, with a large black eye. Peck, 50c; bu., \$1.50.

BLACK.—Seed all black; called also "The Poor Man's Pea," on account of its wonderful prolilicacy. Peck, 50c; bu., \$1.50.

CLAY COLORED.—Large seed, of a blue clay color, Peck 50c; bu., \$1.50.

WHIP-POOR-WILL.—The seeds are large, speckled brown in color. Peck, 50c; bu., \$1.50.

done and at small cost.

WATER PLANTS.

NYMPHEA FLAVA.—This is a true Water Lily, with yellow flowers and a delicate refume. Its leaves are beautifully variegated with brown. It is a very desirable varie y either for pond, tub or aquarlum. Each, 30c. NYMPHEA ODORATA.—Our native Water Lily, flowers pure white and very fragrant; when grown in rich mud it will produce flowers 6 inches and leaves 1 inches across. Each, 25c.

NYMPHEA ODORATA SULPHUREA .- A handsome yellow-flowered form of our native variety. Each, \$1.00.

NYMPHEA ODORATA ROSEA (Cape Cod Water Lily).—This is the famous pink Water Lily of Cape Cod, and is a grand aquisition to our list of hardy Lilles. It possesses all the desirable qualities of Lilies. It possesses all the desirable qualities of the white-flowered sp-cles, hardiness, freedom of bloom and delicious fregrance, with the added charm of deep pinkcolor. Each, 50c.

NYMPHEA ZANZIBARENSIS VARIETIES.—
The flowers, 4 to 6 inches across, are produced in continuous abundance throughout the season, enchantingly fragrant. Splendid for growing in tubs or tanks (see cut).

tubs or tanks (see cut).

NYMPHEA AZUREA —Blue Zanzibar Lily. 50c.

NYMPHEA ROSEA.—Pink Zanzibar Lily. 50c.

WATER POPPY.—Small oval leaves, and showy flowers of bright lemon color, standing a few inches out of the water and producing freely all summer. Easily grown in a shallow tub or pan, will prove a great attraction. Each, 20c; 3 for 50c.

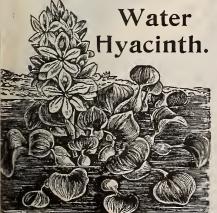

NELUMBIUM SPECIOSUM (Egyptian Lotus).—
The leaves attain a height of 5 to 6 feet. Flowers very large; beautiful rosy-pink changing to creamy-white and pink when fully open (see cut).

Extra large roots, \$1.00 each; flowering roots, 75c.

PARROT'S FEATHER .- An aquatic hanging-plant. Planted in a water-tight hangingasket, so water can be kept standing on the surface of the soil, it will trail down over the

sides in a most charming manner. In a tank or lake it prefers shallow water (see cut). Each, 15c; 4 for 50c.

WATER POPPY (Limnocharis Humboldtii) .-Flowers beautiful clear yellow; poppy-like, must be grown in shallow water; very attractive. 15c each.

Parrot's Feather.

NELUMBIUM OR LOTUS. The University of Street, Stre

Nymphea Zanzibarensis.

THE WATER HYACINTH.—One of the most remarkably curious and beautiful plants we have ever grown. Instead of growing in soil, it floats in the water. Each flower is larger than a sliver dollar; color a soft, lilac rose, sparkling as if covered with diamond dust. Will grow in the open air in summer, and in the window in winter, in anything which will hold water (see cut). Each 250: 560: 100 25c: 5 for \$1.00.

Cyperus Alternifolius.

CYPERUS ALTERNIFOLIUS.—An excellent plant for growing in water or damp places; will thrive in any good soil, and always presents a green and attractive appearance. 15c and 25c each.

YOUNG'S NEW CANNAS FOR 1899.

New Canna Premier.

ALLEMANIA.—This is the best of the Italian type flowers, being exceptionally large, frequently measuring over 6½ inches across; the upper petals salmon, with broad border and markings of golden-yellow, while the lower petal is darker salmon, marked with yellow in the center; a fine flower and possesses more substance than others of this type; dark green foliage. 50c each.

STELLA KANST.—Green foliage; flower apricot, medium size, of splendid substance, trusses good and borne well above the foliage on very strong, cane-like stalks. Best bedder of this color for massing. 35c each.

MRS. PAUL.—The foliage is a rich plum purple. Extra strong, robust grower, carrying its numerous flower spikes well above the foliage; a good habit. Flowers large, and of a clear, deep orange, without markings (see cut No. 3). 35c each.

BURBANK.—The new Orchid-Flowered Canna. At last we have not only a clear, beautiful yellow Canna, but also a flower magnificent in size. The flowers are truly gigantic in size, the upper petals spreading fully 7 inches and the form is really semi-double. Toward the inner part the petals show fine crimson spots, all the rest of the flower is a most beautiful, rich canary-yellow. A very strong grower, with leaves having a texture like rubber. 35c each.

Ing a texture like rubber. 35c each.

GOLIATH.—The finest crimson Canna extant, and we have no hesitation in predicting a great future for it. It was introduced by the fortunate originator of Queen Charlotte and other prominent varieties. It is of uniform dwarf habit, never exceeding 3 feet in height, with broad massive dark green leaves; an early and continuous bloomer throwing its graceful trusses of large bold flowers just the proper distance above the foliage; color rich dazzling crimson, similar to that old favorite, Alphonse Bouvier. (See cut No. 1.) 50c each.

J. D. EISELE.—A magnificent vermition scarlet overlaid with orange, raised by one of Europe's foremost Canna specialists. It is a strong free grower, attaining the height of 3½ feet, and is without question the finest scarlet yet offered.

• MENELEK.—This is the best of M. Crozy's introductions for this season, and one of the most floriferous varieties known to us. It is of dwarf compact habit, about 3½ feet high, very uniform, with rich green foliage. Its flowers are of good size, with broad petals; are of a rich nasturtium red, a color which shows well in contrast with other shades. 50c each.

with broad petals; are of a rich nasturtium red, a color which shows well in contrast with other shades. 50c each.

FURST VON HOHENLOHE.—An ideal yellow bedding Canna. Its flowers are of fair size, the upper petals of purest yellow, the lower one slightly marked with crimson. Its strong points are its great floriferousness, neat compact habit, large spikes of flowers, and the fact that at the distance of only a few feet in appears as a pure yellow. We have no hesitation in placing it at the head of the list of yellows. 75 cts. each.

SAM TRELEASE.—This handsome variety originated with Mr. James Gurney, Superintendent of Tower Grove Park, and Head Gardene of the Missouri Botanical Gardens, and was admired by everyone who saw it in our grounds last summer. In fact, many prominent Canna prowers considered it the best and most distinct new variety in our fields. The greatest merit of this variety is this that the flowers open out flat, which, with its very broad petals, which are of good substance, make a large nearly perfect circular gower, different from all other sorts. In color it is the nearest approach to a pure scarlet yet introduced. Very rich and glowing; the edges and centre are marked with yellow about the same as in Mme. Crozy. It grows about 3 feet high, with large, freely-branching spikes of flowers, which are thrown above the foliage of just sufficient height to show them to best advantage. In freedom of flowering we know of no variety that compares with it. SUNRAY.—An entirely distinct striped variety. The flowers are of large size, open out well, and are produced very freely. The ground and blazare effect. (See cut on page 13.) 50 cts. each.

NEW AMERICAN CANNA PIESHDENT CLEYELAND.—A variety that originated in Washington, D. C., where it is used very extensively in the grounds of the various departments. It is of strong, robust habit, growing about 3 feet high, with rich green foliage. The flowers, which are bright orange scarlet, are borne in enormously large trusses, standing well above the folia

YOUNG'S NEW AND RARE PLANTS FOR 1899.

New Abutilon, Savitzii.

New Japanese Abutilon, "Savitzii."

This unique variety is well shown in our illustration, which gives an idea of its remarkable appearance. It is a decided improvement upon Souvenir de Bonn, inasmuch as the variegation is entirely different, the contrast between the green and white is sharper, and the habit of the plant dwarfer. It is the most striking decorative foliage plant in our collection, being equally as valuable as Palms, Crotons or Dracænas. Fine for edging or as single specimens. It withstands the hottest sun splendidly and also thrives in shady situations. We regard this as a magnificent plant, and those who give it a trial will be amply paid for the investment. It attracts instant attention.

Strong plants, 20c each; 3 for 50c.

NEW ABUTILON, EMP. ALEXANDER.—Flowers of the largest size, round and open, rich dark crimson; the finest dark flowered sort extant. 15c each.

NEW DWARF ABUTILON, PIGMY.

New Dwarf Ever-blooming Abutilon, "Pigmy."

This is entirely unlike any other Abutilon. It rarely ever exceeds one foot in height, is a strong, vigorous and compact grower, and bears its large deep-orange-colored flowers in amazing profusion and continuously throughout the entire year. Single plants will bear hundreds of flowers that are fully two inches across. This variety will never become cheap, as it cannot be grown in large quantities like other Abutilons. As a pot plant this will supersede every other variety of flowering Abutilons. Do not fail to try it. It is never without flowers.

Strong plants, 20c each; 3 for 50c.

CLOCHE D'ARGENT.—A vigorous growing variety, raised by Lemoine, and remarkable for the grand size of its flowers, which are pure white. 15c each.

COUPE D'HEBE.—Flowers of the grandest size, red, veined orange; form almost saucer-shaped. 15c each.

Amaryllis (New Hybrids).

AMARYLLIS.

It is impossible to name a more magnificent genus of bulbous flowering plants than the Amaryllis. Under the simplest culture they throw up stems from one to three feet high, surmounted by immense trumpet-shaped flowers of the most gorgeous colors, which in some species are nearly a foot wide when fully expanded, and varying from five to eight inches in length. Besides the pure white, pale fiesh and soft pink shades, are many intense and brilliant shades of crimson, scarlet, orange and vermillion, either self-color or boldly striped with white, green or red. Can be kept in pots the year round, or planted out in open ground during summer. Alternate rest and growth is the secret of big Amaryllis blossoms and lots of them. While growing give them all the sun and moisture possible; but while at rest give very little water.

NEW HYBRID AMARYLLIS .- Fine, large flowering sorts, in a wonderful variety of beautiful colors. Each, 50c; 5 for \$1.25.

FORMOSISSIMA .- A quick and ready bloomer, often producing its intensely brilliant trusses of bloom before the leaves appear. The color of the oddly-formed flowers is considered the richest shade of crimson known among flowers. Each, 20c: 3 for 50c; dozen \$1.50.

YOUNG'S NEW BEGONIAS FOR 1899.

New Begonia, Otto Hacker.

NEW BEGONIA, ELEGANS ROSEA.—An excellent plant for pot culture, making nice, compact specimens that are hright with hioom the year round, hut its greatest value is as a hedder, where it is a strong rival with our hrightest colored Geraniums, with its mass of hright, rosycarmine flowers (see tilustration). 15c each.

NEW BEGONIA, LA FRANCE.—Flowers same shape as G. Rosea, hut much larger, and the lovellest soft, hrightlpink; one of the lovellest Begonias ever introduced; hlooms fine for cutting. Pretty as an Orchid. 20c each.

NEW BEGONIA, OTTO HACKER.—A heautiful new Begonia. The plant is a strong, vigorous grower of stiff, upright habit, with large, shining, deep green leaves. The flowers are horne in clusters, twelve to twenty-five large flowers in a cluster. Color a heautiful, hright coral-red (see illustration). 15c each.

NEW BEGONIA, PAUL BRUANT.—Fivepointed leaf, large and smooth; nice hush form; New I
flowers in very large panicles, freely produced, so as to nearly cover
the plant; peculiar rose shade, changing to pale green. One of the
hest 20c each.

NEW BEGONIA, GLOIRE DE LUCERNE.—A heautiful variety that is evidently a cross hetween Sanguinea and Ruhra, hoth of which it resembles in foliage, while the hloom is the most beautiful rosyvermition. The leaves are of heautiful form, hroad and deeply lohed, hronze-green ahove and purple helow. The plant assumes a fine tree form with a little attention. 20c each.

NEW BEGONIA, PICTAVIENIS.—Beautiful foliage and fine clusters of flowers. The under side of leaves is a rich purplish-red, upper side fine hronzy green. Flowers rosy-white. 20c each.

NEW BEGONIA, MADAM PERNET.—Beautiful glowing-red leaves lightly touched with silvery-white; coral-red flowers in clusters. 15c each.

NEW REX BEGONIA, RICINIFOLIA.—So called from its likeness to the Ricinus, or castor-oil plant. The leaf is very large, will average a foot or more in diameter, and is separated into seven or nine large points, carried on thick, heavy stems, eighteen inches or more in height; color, a rich green, with reddish markings; surface velvety. In bloom it is magnificent; the panicle, composed of great numbers of individual pink hlooms, is lifted high and spray-like, quite clear of the foliage. One of the best for winter hloom, hesides being ornamental in foliage. 20c each.

NEW REX BEGONIA, REVOLUTION.—A very striking new variety of our own raising, with a very pronounced double whorl on the leaf, one above the other; the texture is fine and velvety and the shading is heautiful, showing a nice silver zone. A free, thrifty grower. A fine addition to the whorled Rex (see illustration). 35c each; 3 for \$1.00.

NEW BEGONIA, KNOUSLERWANA.—This fine novelty is a hybrid hetween the unique variety *Carolinafolia* and the *Polyantha*; leaves clear green, stem upright; grand panicles of flowers of tender rose color. A robust grower. 35c.

NEW BEGONIA, CORDEL DE LEE.—A cross hetween Haageana and Scharfiana. This variety has a distinct small foliage and a strong upright flower stem; the plant is a strong upright grower, the downy leaves are hronzy red underneath; the clusters of bloom produced in masses are half-spherical in form, carried well ahove the foliage; the flowers are of rose. In freedom of bloom, heauty of the flowers, and general style of the plant, this variety is unexcelled. 35c each; \$3.50 per dozen.

NEW BEGONIA, ERFORDIA.—A sterling novelty. Begonia Erfordia has ait the good qualities of the famous hedders, Vernon and Dewdrop, and is a novelty we can strongly recommend. It will stand the strong sun in summer, and is one mass of bloom from June until frost. It is also a very showy pot plant. Habit of growth strong and compact; color deep rosy pink. We have a splendid stock and offer it at an exceptionally low price. 25c each.

NEW BEGONIA, GOLIATH.—Weil named, for it is a gigantic flower. The florets and panicles are much larger than those of *Gigantea Rosea*, and the color is rosy white. 25c each.

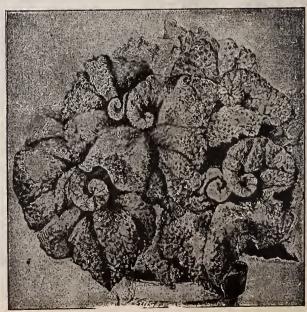

NEW BEGONIA, MASTODONTE.—Similar to the above and quite as large; color, tender rose. 20c each.

New Begonia, Elegans Rosea.

M. Lemoine has succeeded in obtaining an improved type hy careful crossing, and the ahove varieties will he found much freer and healthier in growth than any that have gone hefore. They hoth throw long, rigid flower stems, which is a decided improvement, and their exceptional vigor makes them very free in production of hloom, while the flowers are enormous and of the most exquisite color.

NEW BEGONIA, SEMPER-FLORENS ELEGANS ALBA.
—A grand new Begonia that is decidedly distinct from any other white variety. The flowers are very large, pure, glistening snow-white, on stiff, erect stems. Plant a fine, free grower, and when in bloom the foliage is nearly hidden under the profusion of snowwhite flowers. 15c each.

New Begonia, Revolution.

YOUNG'S NEW GERANIUMS FOR 1899.

From the many new varieties of our own importation we have selected the following as the very finest new sorts of this year. From our careful comparative trials in garden and greenhouse weare convinced that for vigor and freedom of bloom, size of flower and beauty of color they are all very valuable and desirable additions to this well-known

20 cts. each: any three for 50c. The full set of twelve new varieties for \$1.25.

House of New Scarlet Bedding Geranium, Ville de Poitier, illustrating how our Geraniums are grown. The best Scarlet Bruant for bedding.

VILLE DE POITIER.—Semi-double Bruant, color bright vermillion-scarlet. Dwarf, very vigorous habit. Large trusses, measuring from 4 to 7½ inches in diameter; floret large, sometimes exceeding 2 inches in diameter. The finest large flowered scarlet Bruant that has been introduced, and we deem it the best bedding Bruant that has been introduced, and we deem it the best bedding scarlet. The trusses are on strong foot stalks, and so freely produced as to nearly conceal the foliage. It is a constant bloomer, and almost every joint producing a flower stem. We have a large, healthy and true stock of this variety. 20c each.

GALATEA.—Single. Enormous trusses; flowers a most beautiful shade of rosy-pink, with white eye. Foliage medium in size, indented, and abundantly free in bloom; the bright pink Bruants are not over-plentiful, and this is one of the finest, being a very compact grower 20c each.

ENID.—Clear, bright rosy red, large well-shaped pips, 24 inches dlameter, forming huge compact trusses of bloom; this is one of the brightest and most attractive, and certain to be a general favorite. 20c each.

GEO. REID.—Bright orange, very effective; large and well-formed flowers; sturdy habit. 20c each.

HERMINE.—Large round flowers of pure white; a fine grower; one of the very finest of double whites. 20c each.

WILHELMINA.—Rich salmon, scarlet center, a most captivating shade of color; fine bold trusses. 20c each.

-Clear salmon, much deeper towards the center, good habit; very dwarf and free. 20c each.

VIRGINIA.—One of the very finest and best single whites ever raised; pure snow white; flower large and beautifully formed; habit dwarf and free. 20c each.

M. CALVAT.—Crimson, white eye, medium-sized flowers, but forming into large bold trusses. 20c each.

RED EAGLE.—A beautiful fine large rounded flower in large trusses, color a clear rosy scarlet with distinct white eye. Plant of free branching habit, a very pleasing shade of color and entirely distinct. 20c each.

PRINCESS ALIX.—Clear, bright salmon, white eye. Remarkable for the beauty of the trusses, and also for its lovely color. Plant semi-dwarf; very fine in bloom. 20c each.

GOLDEN GATE.—Bright orange scarlet; fine compact flower

and very free bloomer. The nearest approach to yellow yet seen in a Geranium. 20c each.

FOUR GRAND NEW IVY GERANIUMS.

The Set of Four for 50 Cents.

GARDEN GLORY.-Grand scarlet color. Florets of a beautiful form, quite circular, largest size. The most regularly beautiful of all the Ivys. As fine in color as P. Crozy, but a ittle darker, besides being very double. 15c each.

RYECROFT SURPRISE .- Clear rosy salmon; large flowers of perfect form. Vigorous, apright habit. A splendid varlety. 15c each.

LA FRANCE.—Light rose, flowers and trusses large; habit free, short jointed. 15c each. P. CROZY .- A grand hybrid between the Zonales and Ivies, having the foliage of the former, but very heavy in texture; while the forms of truss and florets are found only among the Ivies. The color is soft bright scarlet (see cut). 15c each.

NEW SWEET-SCENTED GERANIUM FRAGRAN

A very handsome new English variety with beautifully cut fern-like foliage of bright green. It is of compact shrubby growth and bears fair sized trusses of pink flowers. The fragrance of the leaves is indescribably sweet and entirely unlike any other sort. 15c each; two for 25c.

New Ivy Leaf Geranium, P. Crozy.

New Heliotrope,

NEW FUCHSIAS. FOR 1899.

CHILWELL BEDDER.—Corolla rich purple, sepals scarlet; a very vigorous grower, compact, and blooms at every joint so profusely as to be a dense mass of flowers; especially fine for out-door bedding. 20c each.

ROYAL PURPLE.-Corolla dark velvety purple, almost black, sepals crimson scarlet; immense massive flowers, but perfect in form. Habit vigorous and bushy, very free. A magnificent dark variety. 20c each.

cut). 20c each.

GERTRUDE PEARSON.-A very large single flower of very distinct form; the corolla is a rich purple; tube and sepals scarlet. Very distinct (see

WHITE PHENOMENAL and ROSE PHENOMENAL.-Two grand sports from that king of doubles, Phenomenal. The first has a pure white corolla, the second a rose-colored corolla, while in all other points they are like the parent plant. 20c each.

MME. CARNOT (Lemoine). Grand double; sepals large carmine red; corolla enormous, very full, with long petals of flesh-white shading to rose. 20c each.

TRIPHYLLA HYBRIDA.—Entirely distinct from any other variety and would hardly be taken for a Fuchsia. The flowers are of an intense rich carmine, and while not large, are produced in great profusion, frequently being from thirty to forty flowers on a single branch. Fine for house culture in Winter or for Summer flowering in the garden. 20c each.

SPECIAL OFFER.

The Full Set of Seven New Fuchsias for \$1.25.

NEW HELIOTROPES.

Four of Bruant's Grand New "Giant Flowered" Varieties. The Full Set of Four for 50 cents.

LE CID.—Semi-dwarf and very robust; panicles very large, and the florets of the very largest size yet obtained. Mauve passing to lilac and tender rose, with clear white eye. A remarkably fine novelty. 15c each.

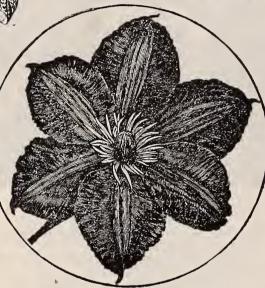

LE POITEVINE.—Enormous florets compose the very large truss of bloom; color, mauve violet and azure with shadings of rose; a robust, semi-dwarf grower; very free and continuous in bloom. 15c each

CZAR .- A very dwarf growing variety with black stems and enormous panicles of dark velvety violet bloom; very rich in color and of the "Giant type" in bloom. 15c each.

CZARINA .- A fine companion for the above. A little taller grower; deep indigo blue with white eye; enormous trusses of the "Giant type. 15c each.

NEW CLEMATIS.

The Set of Three Varieties for Two Dollars.

New Clematis-Mad. Baron-Villard.

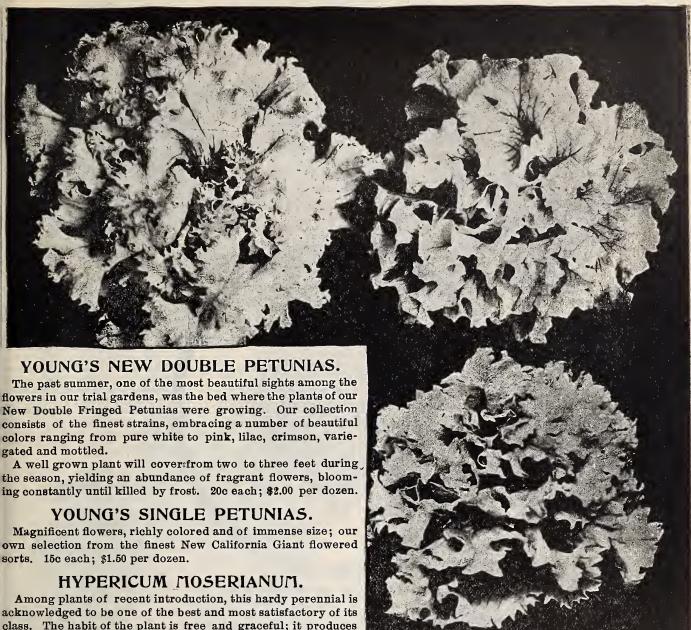

MAD, BARON-VILLARD-Of recent introduction and quite like its parent, the popular Jackmanni, in habit and make-up, except that its flowers are a lively, satiny, lavender-pink; entirely distinct from any other variety and charming in effect (see cut). 75c each.

RAMONA .- A strong, rampant grower, and a true perpetual bloomer, flowers appearing on the last year's growth and on thenewshoots, giving an abundance of bloom all through the season. Color deep, rich lavender. 75c each.

PRINCESS. - Large flowers, rich deep violet purple, with red bars down the center of each petal; beautiful. 75c each.

New Fuchsia, Gertrude.

Young's New Double Petunias.

acknowledged to be one of the best and most satisfactory of its class. The habit of the plant is free and graceful; it produces long, slender, much branched stems, leafy to the base and all drooping toward the ends, apparently from the weight of flowers and buds, although the flowers face so that none of their

Hypericam Moserianum.

beauty is lost. It is marvelously free flowering, of large size, measuring from 2 to 21/2 inches in diameter, in color a rich golden yellow, which is rendered still more effective by the numerous yellow stamens and crimson anthers, and blooms continuously the entire season from July to October. 20c each; three for 50c.

BOUGAINVILLEA SANDERIANA.

"Chinese Climbing Paper Plant."

The name of "Chinese Paper Plant" has been given to the Bougainvillea because of the color and lasting quality of the flowers. The color is a soft rosy crimson, and this variety blooms very freely in pots, making very hand-some plants in a short time. It climbs rapidly and should be trained to stakes to make a good specimen. Plants in bloom have sold at auction in New York at from \$5.00 to \$10.00 each. Price, 1st size, 50c each; 2d size, 30c each.

YOUNG'S NEW LANTANAS,

FOR 1899.

AMIEL.—Semi dwarf; very compact; very free in blooming; ombel and floret of fine size; color reddish orange with yellow center. 15c each.

AURORA.—Light and dark shades of plnk. 15c each

CICERON.—A dwarf, beautiful bedder; extremely free In flower; color, bright gold passing to coppery orange. Fine for edging. 15c each.

CORBEILLE d' ARGENT.—Very dwarf, a free grower and an abundant bloomer; pure white. A gem among white bedders, 15c each.

FRANCINE.—Quite dwarf; flowers large; rosy lilac. 15c each.

JAVOI .- Purest white; large flowers.

15c each. LA PACTOLE.—Very dwarf; golden yellow. 15c each. The Full Set of 7 New Lantanas for 80c

New Dwarf Justicia.

NEW DWARF JUSTICIA "VELUTINA."

Everyone knows the tall, lanky, straggling habit of the old Justicia Rosea. This new sort, which is now grown so extensively by Par-Islan fiorists, begins to bloom when the plant has only three or four leaves, and Is never out of flower afterward. If pinched back occasionally It makes a very dwarf, stocky plant, frequently covered with twenty to fifty large pink flower-heads, lasting a long time. The follage is highly ornamental, being heavy in texture and very velvety (see cut). each, 20c; per dozen, \$2.00.

GIANT WHITE SCENTED SNAPDRAGON.

This remarkable new plant has attracted widespread attention, and in one season has jumped to a foremost place among choice plants for pot culture. It is a perpetual bloomer, of compact and branching habit, sending up flow. er splkes by the dozen, 1 to 2 feet in helght, almost as large and as beautiful as a Gladiolus. Color nure white with lemon-tinged throat, and of lovely fragrance. Flowers keep two weeks after belng cut. Has created a sensation wherever seen. Fine blooming plants, 20c each; 8 for 50cts.; 7 for \$1.00 (see cut).

Cissus Discolor.

New Dwarf Alamanda Williamsii.

This is a new dwarf or bush variety of the old favorite green-house plant. It bears large trusses of flowers at the tips of every branch; each flower three to three and one half inches in diameter. Color rich golden yellow, very fragrant. It continues flowering the grant. It continues flowering the whole summer, and makes an elegant pot plant for house or conservatory (see illustration)... 35 cts., three for \$1.00.

ASPARAGUS SPRENGERI.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes or for planting in suspended baskets; the fronds are frequently four feet long, are of a rich shade of green and most useful for cuttings, retaining their freshness after being cut for weeks. It will make an excellent house plant, as it withstands day atmosphere and will succeed in almost any position. 20c each.

ICISSUS DISCOLOR (Trailing Begonia).

Beyond doubt the most beautiful-leaved climbing plant now known. The leaves are long, heart-shaped, and as handsomely marbled and mottled as a Begonia Rex; the under side is a trans-parent wine red; entitled to be called superbly beautiful. Grows remarkably quick and makes immense quantities of follage. For trailing over the side of a window box, or for hanging basket, or grown on a trellis in pots (see cut), it is one of the most useful and beautiful plants. Strong plants, 25c each.

SOLANUM WENDLANDI.

An exceedingly rare and beautiful varlety, considered one of the best and most gorgeous-flowering climbing plants known; When only a few feet high, even in the open ground, it bears enormous panicles or heads of flowers, 2 leet and more in circumference, each head being made up of hundreds of illac flowers 2½ inches across. A grand variety that will surely please everybody. Not hardy. As a pot plant it possesses superior merit. 25c each; 3 for 60c; 5 for \$1.00.

Alamanda Williamsii.

New Solanum Wendlandi.

need staking. 15c each.

FOUR GRAND NEW CARNATIONS.

The Cream of the Latest New Sorts.

The Set of 4 for 50 Cents.

MRS. GEO. M. BRADT (see cut No. 1) .- Color, clear white, heavily edged and striped with scarlet; strong and vigorous; flowers large and very full. 15c each.

EVELINA (see cut No. 4) .-Is a pure white of large size, good form and substance. An extraordinary strong calyx, is fragrant, and borne on long stiff stems that always carry the bloom erect. It is an extra free, early and continuous bloomer; is of good habit; a strong, free and healthy grower. Last year quite a number of plants produced from 30 to 50 flowers. Won the Ward Cup for best white at Cincinnati. 15c each.

BON TON (see cut No. 2).-Bright, warm scarlet, large, deeply fringed, fragrant flower, on a stem as stiff as a reed. Perfect calyx. Habit of splant exceptionally strong, resembling Portia, but much heavier and more vigorous. The growth is so strong that it does not

GOLD NUGGET.-Clear, deep yellow, slightly marked with red. The first real rival of Buttercup in color. Strong grower, free, early land continuous bloomer. Medium sized, high centered flower, does not burst. The best yellow we have ever grown (see cut No. 3), 15c each.

HARDY DOUBLE ENGLISH VIOLET .- This Violet is entirely hardy, perfectly double, a deep violet-purple color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. 15c each.

New Violet, La France.

GRAND NEW VIOLET "LA FRANCE."

Strong, Vigorous Grower, Extra Free Flowering, Richest

Of the many new Violets introduced in the past few years this, the latest introduction of the foremost French specialist, is unquestionably the Best. It has been thoroughly tested by Mr. Suplot, the Violet expert, who pronounces it "perfect," and flowers which we have exhibited during the past few weeks have been much admired. In vigor of growth, freedom of bloom and in size and coloring, it is superior to all existing sorts, and will soon supersede them. Only a limited stock will be offered this season. 25c each.

WHITE CZAR .- This variety occasionally changes, and for a tlme produces purple colored flowers, but when it comes true, it is a useful single white; strong grower, free bloomer in the spring. 25c each.

THE NEW SINGLE

VIOLET, PRINCESS OF WALES.

This variety is of French origin. The flowers are single, blue, not quite as large as The California, but exceedingly fragrant and stems very long. The foliage is very large and dark. We are pleased to offer something new and meritorious in the ever popular Vlolet. 15c each.

MDLLE. BERTHA BARON .- A fine, vigorous, compact grower; flowers freely produced, strongly scented, and of a beautiful indigo biue. 25c each.

FARQUHAR .- A beautiful new double Violet; strong and healthy grower; perfectly hardy and free flowering, producing in the greatest abundance lovely deep and double flowers of deliclous fragrance, borne on long stems; the flowers are of splendid size 25c each.

Forest Park Collection of Hardy Everblooming Roses.

A Bed of Roses in Forest Park, St. Louis. - See Colored Plate opposite.

HE beds of beautiful everblooming roses in Forest Park have become famous, and that all may grow and enjoy these splendid roses we offer below the varietles planted in these beds. The illustration above shows their vigor of growth and free blooming qualities, while the colored plate opposite accurately portrays the richness and variety of their colors. By ordering the "Forest Park Collection" you will obtain a very select assortment of the finest everblooming roses, that will be sure to prove entirely satisfactory.

5No. 1. PERLE DES JARDINS.—Unquestionably the finest yellow rose for either winter or summer flowering. The flowers are very large and double, of perfect form. Color, a rich shade of yellow; a healthy, free grower, with beautiful foliage and unequaled in profusion of bloom. No collection of roses is complete without Perle. First size, 50c; 2d size, 25c; 3d size, 15c.

No. 2. SOUVENIR DE LA MALMAISON.—This grand old variety, when used as a bedding rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, and are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Exquisitely fragrant. Each, 1st size, 50c:

our hot, dry summers. Exquisitely fragrant. Each, 1st size, 50c; 2d slze, 25c; 3d size, 15c.

No. 3. COQUETTE DES BLANCHES.—A finely formed, pure white rose; occasionally shows light flesh when first opening; beautiful shell-shaped petals, evenly arranged. Flowers of good size, perfect and of fine form and finish. One of the finest, freest and most beautiful of the White Hybrids. Very suitable for cemetry planting, Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 4. MADAME SCHWALLER.—This rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flow.

No. 4. MADAME SCHWALLER.—This rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full-blown. It is very free in bloom, and has the fragrance of the old June roses. The color is a bright, rosy flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A rose from which we hear very flattering reports from all directions. Try it. It is magnificent. Each, ist size, 50c; 2d size, 25c; 3d size, 15c.

No. 5. AMERICAN BEAUTY.—This new rose of American introduction belongs to the hardy hybrid perpetual class, but it blooms almost as constantly as the Teas. There is no doubt that it is a good rose for out-door culture. It is a strong, vigorous grower, and a very free bloomer. The buds are extra large, very full and double, and exceedingly sweet. The color is a dark, rich crimson, and most exquisitely shaded. The flowers are very lasting after cutting, keeping fresh and bright from one to three weeks. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 6. LA FRANCE.—One of the most beautiful of all roses, and is unequaled by any in its delightful fragrance. The flowers are very large, double; color is light, silvery pink. It blooms continuously throughout the season. Stands first among the roses of our climate. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 7. SOUVENIR DE WOOTTEN.—This superb rose is unquestionably one of the finest varieties ever introduced for summer blooming. The color is a beautiful shade of carmine crimson, deliciously fragrant, a constant and most prolific bloomer, every new shoot forming a flower bud. It retains its color better than any rose of its class, and is exceedingly vigorous in growth rendering it one of the most satisfactory roses for the amateur to grow. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 8. MME. HOSTE. — A grand rose. Almost always in bloom. Color, soft canary yellow, deepening toward the center, often beautifully tinged with pale amber; edges and reverse of of petals rich, creamy-white; full superb buds, delightfully fragrant; an excellent bedding variety. Each, ist size, 50c; 2d size, 25c; 3d size, 15c.

No. 9. SOMBRIEUL.—Creamy white, tinted with rose, very large and a free bloomer; the showlest and best rose for general cultivation. Each, 1st size, 50c; 2nd size, 25c; 3rd size, 15c.

No. 10. CLOTILDE SOUPERT.—One of the most prolific bloomers in the entire list. Beginning to flower when not over four inches high and continuing without intermission the entire season. The flowers are borne in sprays, very double and handsomely formed. The outer petals are pearl-white, shading to a center of rosy pink, but varying sometimes on the same plant from pure white to deep silvery rose; a grand bedding variety. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 11. DINSMORE.—A true perpetual bloomer; begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, and quite fragrant. Color bright, flery scarlet, passing to fine rosy crimson; very showy and handsome and one of the best roses ever introduced for general planting. Each, 1st size, 50c; 2nd size, 25c; 3d size, 15c.

No. 12. KAIZERINA AUGUSTA VICTORIA.—An extra fine white variety, faintly blended with cream color; very large, full double and perfect in form. Its fragrance is a combin

Special offer of Forest Park Collection: Strong young plants, the set of 13 varieties, \$1.50 by mail or express. Large plants, the set of 13 for \$2.50, by express only. Extra large two-year-old plants, the set of 13 for \$5.00.

C. Young & Sons Co.

1406 OLIVE STREET,

ST. LOUIS, MO.

YOUNG'S ROSES WILL GROW AND BLOOM.

Interior of one of our Rose Houses, showing the healthy, vigorous growth of the plants.

Sample of our extra large Kosesfrom 5 inch pots.

Our Roses are grown naturally, in cool greenhouses, without being forced or stimulated in any way. When you buy a rose that has a weak stender stem, with a little bunch of leaves at the top, you may be sure that it has been overcrowded, that it cannot be in a healthy condition, and if it lives at all after being set out, will rarely give satisfaction. Ours are grown under our own personal supervision, are given plenty of room to branch out into bush form and retain their leaves; they are therefore strong, handsome, stocky plants, full of life and vigor, with an abundance of healthy foliage, and in the best possible condition for transplanting to the garden. We grow them by the hundred thousand, and offer them in different sizes and prices to suit all purchasers.

HINTS ON THE CULTURE OF ROSES.

WHAT VARIETIES TO PLANT,—The Ever-Blooming or Monthly Roses are the only constant bloomers we have. They begin to bloom early in May, and continues all through the summer and autumn months until stopped by freezing weather.

HARDY ROSES.—This section includes the Hybrid Perpetuals and mosses, and while they are not constant bloomers, they make a gorgeous display in May and June. Most of the Hybrid Perpetual class give a second crop and bloom in September and October.

PREPARATION OF ROSE BED.—Select a sunny spot, prepare your bed by digging to the depth of eighteen inches. Any good garden mould will grow roses. After the plants have been set out, which should be early in the season, keep the soil loose by frequent shallow stirrings, till the middle of June, when they should be muiched by covering the surface of the bed to the depth of an inch or so with old manure to prevent evaporation,

FERTILIZERS.—Fine well-decomposed cow manure is the best for general purposes, and the results obtained from its use will be found to be in most respects satisfactory. Ground bone ranks next to cow manure as a fertilizer.

Sample of our strong young plants from 21-2 inch pots. WINTER PROTECTION.—The ever-blooming Roses require protection during the winter. A plants from 21-2 inch pots. goodway of protecting them is to bend the bush down and cover to the depth of three or four inches with loose earth; over this put a light covering of boards or boughs. Any mode of protection is good that will prevent sudden freezing and thawing, and does not hold moisture about the stem causing decay. A straw covering is apt to harbor mice. Do Nor Cover Too Soon; wait until the plants are well matured, and severe weather is beginning; light freezing will do no harm. UNCOVER when the frost is leaving the ground.

INSECTS.—The most important is the Rose-slug, a green, soft, slug-like animal, about a quarter of an inch long, most troublesome in June; they feed upon the upper surface of the leaf. A good remedy is white Hellebore Powder mixed in water and put on with a syringe; or dusted with Young's Insect Powder. To destroy Aphis or Green Fly, dust with Young's Insect Powder, or place tobacco stems on the ground around the rose.

MILDEW.—This disease is caused by the sudden changes from heat to cold. Remedy: Dust with sulphur as soon as it appears.

Shown on Front of Cover.

All the good qualities of a rose are combined in the three varieties illustrated in colors on the front cover of this catalogue. They represent three distinct and charming colors, and for fragrance, freedom of bloom, vigor of growth and hardiness, are not excelled by any of the roses in cultivation to-day

No. 1. SUNSET.—This grand Rose is a great favorite wherever known; the color is a rich golden amber or old gold, elegantly shaded with dark ruddy crimson. The flowers and buds are extra large, full, finely formed and deliciously perfumed; it is a strong and vigorous grower and free bloomer. 1st size, 35c; 2d size, 25c; 3d size, 15c.

No. 2. MRS. ROBERT GARRETT.—Extra large double flowers and long, beautifully shaped buds; color, soft rich pink, and of exquisite fragrance; it is a temarkably healthy. vigorous grower, wonderfully free flowering, every shoot being crowned with a bud (see cut). 1st size, 50c; 2d size, 35c; 3d size, 25c.

No. 3. METEOR.—Dark, rich, velvety crimson; free bloomer; excellent for bedding. 1st size, 35c; 2d size, 25c; 3d size, 15c.

Mrs. Robert Garrett.

A PAGE OF NEW ROSES.

THE BEST NEW VARIETIES OF RECENT INTRODUCTION.

INTRODUCTION.

CLIMBING SOUV. DE WOOTON—A GRAND ACQUISITION.—A sport from that famous Rose, Souv. de Wooton, with which it is identical, except that it is a strong rampant climber, growin one season to a height of 10 to 15 feet; superbly formed flowers; bright magenta red passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick leathery petals and deliciously tea scented; make beautiful buds; as an outdoor climbing Rose it will take a front rank, because of its strong growth and freedom of bloom. A well-developed bush covered with finely-formed flowers, is beautiful beyond anything we have ever seen. 25c each.

WHITE MARECHAL NIEL.—It has been carefully tested for the last two years, and has proved its value. It is especially good for the South, as it has the same qualities and good habits as our old yellow Marechal Niel, which has been in cultivation for the last thirty-five years, and is everybody's favorite. The new variety is lemon-white; a very rich shade. 35c each.

BELLE SIEBRECHT.—This variety will, we believe, prove to be one of the most satisfactory Roses we have ever offered. It is as fiee-blooming as a Tea Rose and hardy as a Perpetual, a union of the two most desirable qualities in roses. It is equally valuable for winter forcing as for summer blooming. The color is a unique shade of pink, clear and constant. 2bc each.

WHITE BOUGERE.—A free bloomer, and clean, healthy grower; blooms of great substance; pure white; good stiff stem; as pure a white as Niphetos, and from a given space will produce 50 per cent.

MENTE BOUGERE.—A free bloomer, and clean, healthy grower; blooms of great substance; pure white; good stiff stem; as pure a white as Niphetos, and from a given space will produce 50 per cent.

MENTE BOUGERE.—A free bloomer, and clean, healthy grower; blooms of great substance; pure white; yeod stiff stem; as pure a white as Niphetos, and from a given space will produce 50 per cent.

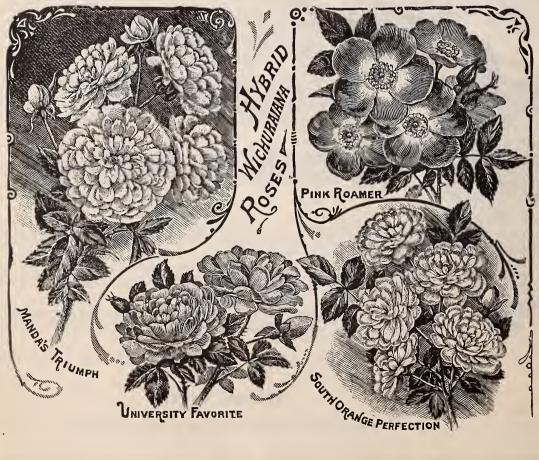

MENTE BOUGERE.—A free bloomer, and clean, healthy grower; blooms of great s

NEW ROSE, CHEVALIER A. FERRARIO.—A vigorous grower with large flowers, quite full, petals very large; color deep, clear crimson. A remarkable fine red variety; obtained a first prize.

NEW ROSE, SOUV. D'AUG. METRAL.—Flower large, full and of good form; a very beautiful Rose of pure red color, and fragrant. 25c each.

The set of 4 New Hybrid

The set of 4 New Hybrid Wichuraiana Roses for 85c

NEW RAMBLER (HARDY CLIMBING) ROSES.

Crimson Rambler.

The introduction of this sterling variety makes the greatest ad vance in climbing roses that we have had in the last quarter of a cen tury. Perfectly hardy; wonderfully free-flowering; rich, glowing crimson; intensely bright and vivid in color. The plant is a strong, rampant grower, making shoots ten to twelve feet long in a season after the first year or when well established. The flowers are produced in large trusses, pyramidal in shape, often twentyfive to thirty in a cluster, fairly covering the

plant from the ground to the top with a mass of bright, glowing crimson. The color is simply superb, and is retained unfaded, or without showing any of the purplish tinge so often seen in dark roses, for an unusual length of time. For waits, pillars and porches, or any other place where a hardy climbing rose is wanted, nothing can be more desirable or beautiful. If grown in beds and pegged down, it makes a brilliant display with its profusion of bloom, large clusters shooting out from each joint. As many as 300 blooms have been counted on a single branch. 15c; 4 for 50c. Large plants, 40c; 3 for \$1.00. Extra large 3-year-old plants with stems 3 feet long, \$1.00.

YELLOW RAMBLER. A worthy companion to crimson Rambler. A new natury years of medium size in immense clusters, the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, and the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, and the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, and the same manner as Crimson Rambler, in large clusters; flowers of medium size in immense clusters, and the same manner as Crimson Rambler, and the sa A worthy companion to Crimson Rambier. A new hardy yetiow climbing rose, blooming after (Aglaia.)

often thirty-five to forty in a single cluster; very sweet scented. Color a clear derided yellow, a color heretofore unknown in a climbing rose that was in any way hardy. Yellow Rambier has successfully withstood, unprotected, a grower, well established plant, often making a growth of ten to twelve feet in a single season. The flowers are very lasting, keeping in perfect condition three to four weeks without fading. A strong plant; in full bloom makes one of the finest pillar or porch plants imaginable. 15c each; 4 for 50c. Large plants by express, 40c; 3 for \$1.00.

WHITE RAMBLER.

Rose, which in habit of growth, foliage, manner of blooming and form of flowers is identical with

(Thalia.)

Crimson Rambler. The flowers are pure snowy-white. It is beyond question the highest type of a hardy white climbing rose yet introduced, and it is sure to become unusually popular everywhere, more especially in the North, where it is hardy without protection. The flowers are superb; they are produced in splendid large clusters, after the same fashion as Crimson Rambler, having, like it, the same distinct pyramidal form found in no other rose but the Rambler family. The flowers of the White Rambler have the additional charm of being sweetly scented. They remain on the bush from three to five weeks, and a well established plant is a sight truly beautiful to behold. The habit of growth is vigorous, young plants throwing up shoots eight to ten feet in height in a single season. Wherever Crimson Rambler is planted this grand new variety should be found, for certainly, apart from the fact that Thalia is the equal of its sister variety, its own superior merits stamp it as one of the genuinely desirable roses of the year. 20c each-Large plants, 40c each; 3 for \$1.00.

Possesses cuttons the superson superson and provided the superson and plants the control of the superson superson and plants the superson of the genuinely desirable roses of the year.

THE PINK RAMBLER.

Possesses entirely the same valuable features found in both the Crimson Rambier and Thalia. The growth, hardiness and richness of bloom are aitke. The flowers appear in large, fuil, hand-

SPECIAL OFFER

One plant each of the four Ramblers, postpaid, for 60 cts. Larger plants, the set of four, for \$1.40.

'Yellow Rambler.

THE BRIDE.—Color, white, with a light pink tinge; flowers very large, on stiff stems. 1st size, 25c; 2d size, 15c.

DUCHESS DE BRA-BANT.— Rose, heavily shaded with amber and salmon; strong grower and free bloomer. 1st size, 25c; 2d size, 15c.

METEOR. — A dark, rich, velvety-crimson; free bloomer; excellent for bedding. 1st size, 25c; 2d size, 15c.

PERLE DES JAR-DIN (or Pearl of the Garden).—The most popular rose in our entire list. The standard yellow. The form of the bud is round and symmetrical; strong and healthy, vigorous grower; color, a rich canary yellow. 1st size, 25c; 2d size, 15c.

Madame Caroline Testout.

THE SET OF FOUR LA FRANCE ROSES.

PINK LA FRANCE.—One of the most beautiful of all roses, and is unequaled by any in its delightful fragrance. The flowers are very large, double; color is light, silvery pink. It blooms continuously throughout the season. 1st size, 25c; 2d size, 15c.

WHITE LA FRANCE.—A seedling from La France, retaining the habit of growth, fragrance and blooming qualities of the parent variety, with flowers of a pearly white, shading toward the center to light rose. 1st size, 35c; 2d size, 15c.

RED LA FRANCE (Duchess of Albany).—A sport from La France, and retains all the characteristics of the type, with the blooms three to four shades darker, of a deep carmine-pink hue. The flowers are produced in profusion upon long stems; very large and double. 1st size, 25c; 2d size, 15c.

STRIPED LA FRANCE.—A very beautiful sport from La France, which it resembles exactly, except that it is beautifully variegated in bright rose on a satin-pink ground. A delightful addition to the La France family. 1st size, 35c; 2d size, 15c.

The Set of Four La France Roses, 1st size, \$1.00; 2d size, 50c.

TWELVE SUPERB

Summer-Flowering Roses.

We have selected the following as being remarkable handsome and free-flowering varieties. They will make a very attractive bed from which beautiful roses may be gathered all through the summer months.

The Full Set of Twelve Varieties for \$1 25. Extra Large Plants, the Full Set for \$2.50.

MRS. DeGRAW.—A fine, ever-blooming, hardy rose, of strong vigorous growth. From early summer until frost it can be depended upon for flowers of large size and exquisite fragrance in lavish abundance. Color, rich, glossy pink. 1stsize, 3°c; 2nd size, 15c,

BRIDESMAID.—The flowers are very large and perfect in form, delictously scented; the color is a clear, bright pink, shading to a bright, rosy crimson. Makes large and beautiful buds and is a constant and profuse bloomer. 1st size, 25c; 2d size, 15c.

LUCIOLE.—Very bright carmine, rose-tinted, and shaded saffron; back of petals bronze, large and full, fine scented, good shape, long buds. 1st size, 25c; 2d size, 15c,

ETOILE DE LYON.—Color a deep chrome yellow; strong grower and free flowering. 1st size, 25c; 2d size, 15c.

MARECHAL ROBERT.—Color, pure white, faintly tinged and shaded with light pink, A pretty variety. 1st size, 25c; 2d size, 15c.

CLOTILDE SOUPERT.—The flowers are borne in sprays, very double and handsomely formed. The outer petals are pearl white, shading to a center of rosy pink. A grand bedding variety. 1st size, 25c; 2d size, 15c.

MADAME CAROLINE TESTOUT.—A magnificent rose; flowers fuil, very large, globular form; color, clear, satin rose; petals bordered with tender rose, very fragrant; vigorous grower. This variety resembles La France, but its color is more deep, vivid and brilliant; flowers less full, but are better formed (see cut). Ist size, 25c; 2d size, 15c.

BON SILENE.—Noted for the great size and beauty of its buds, which are valued very highly for bouquets; deep rose color; splendid for outdoor cuitivation. 1st size, 25c; 2d size, 15c.

Pink La France.

ROSES.

EIGHT SPECIALLY VALUABLE EVER-BLOOMING ROSES.

The Set of Eight Valuable Ever-blooming Roses for 75c by mail. postpaid; large plants by express only. The set of Eight Varieties, as

described below, for \$1.50.

MAD. WELCHE.-This grand rose still continues un-MAD. WELCHE.—This grand rose still continues unsurpassed in beauty. The flowers have great depth and substance, and are of fine, globular form, with broad, thick petals and large, finely shaped buds. The color is a beautiful shade of soft amber yellow, deepening toward the center to fine orange or coppery yellow, delicately clouded with pale ruddy crimson. Both flowers and buds are remarkably sweet, and are produced in great abundance during the whole growing season (see cut). 1st size, 25c; 2d size, 15c.

MEDIA. This is an avguisticly formed rose large in

med. 1st size, 25c; 2d size, 15c.

MEDEA.—This is an exquisitely-formed rose, large in size, very full, globular when fully expanded. The color is clear lemon yellow; the growth is vigorous, Altogether, Medea is a grand rose, either indoors or in open ground. Ist size, 25c; 2d size, 15c.

PRINCESS VICTORIA.—It is a vigorous grower, with large, fine tollage, and is one of the loveliest of all roses. The color is pure, waxy, snow-white; a fine double flower when full blown. Certainly a grand acquisition. Resembles that grand old rose, "Malmaison," in shape and fullness. It far surpasses any other white rose in all particulars, and has a much richer perfume. Ist size, 25c; 2d size, 15c.

SUNSET.—It is a "sport" from the grand old variety.

SUNSET .- It is a "sport" from the grand old variety

SUNSET.—It is a "sport" from the grand old varlety,
Perles des Jardins, which it strongly resembles except in
color. The flowers are of large size, fine, full form, very
double and deliciously perfumed. The color is a remarkable shade of
rich golden amber, elegantly tinged and shaded with dark orange yeilow. Sunset is a constant and profuse bloomer. Ist size, 25c; 2d size, 16c.
GRACE DARLING.—One of the most elegant roses it has ever been
our pleasure to offer. Strong, vigorous grower; color, a porcelain rose,
elegantly shaded with crimson. The colors stand out separate and distinct, making a vivid contrast. 1st size, 25c; 2d size, 15c.

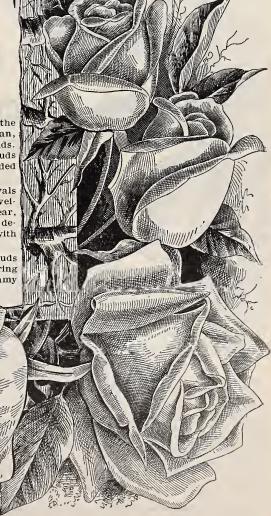

Souv. President Carnot.

SOUV. PRESIDENT CARNOT.

A charming new French rose; one of the most promising new roses we have had the pleasure of offering in years, and we predict for it a grand future. A strong, clean, healthy grower, with handsome, bronzy-green foliage and large, eiegant-shaped buds. The flower is of large size, of exquisite shape, with heavy, thick, shell-like petals; buds long and pointed and borne on long, stiff, erect stems. Color, delicate rosy flesh, shaded a trifle deeper at the center. A very profuse bloomer, 1st size, 30c, 2d size, 20c.

AUGUSTINE HALEM .- In this rose we have a beauty indeed, for it fairly rivals the well-known American Beauty in the size and color of its flowers. It has well-developed buds, having good, thick, waxy-like petals of excellent substance. Color, clear, bright, rosy-red, verging to deep, rich crimson. With these changes it adds the delightful fragrance of the old June roses. Taken altogether, we are much pleased with this beautiful variety. It is very free-flowering. 1st size, 25c; 2d size 15c.

THE QUEEN .- This is undoubtedly the finest White rose ever offered. The buds are very large and of exquisite form, and the full flower is very double, measuring from three and one-half to four inches in diameter. The color is a delicate creamy white. 1st size, 30c; 2d size, 15c.

Mad. Welche.

PAPA GONTIER.—A grand red rose of fine crimson shade and silken texture. The bud is of fine size and graceful form, extremely free, both in growth and bloom. Very long and beautifully-leaved stems can be cut, the foliage being very dark and heavy. One of the best. 15c each.

MADAME JOSEPH SCHWARTZ.—A strong, vigorous grower, and one of the hardlest tea roses for outdoor bedding. The flowers are cup-shaped and borne in clusters. Color white, beautifully flushed with pink. 15c each.

shading to a center of rosy plant. A grand country reach.

NEW ROSE, AMERICAN BELLE.—A plant-colored sport from the American Beauty, and probably one of the greatest acquisitions to the rose family in many years. It is entirely distinct from American Beauty, in color, which is of a rich, deep plant when first opening, changing to a pretty light plant as the fie wer develops. It possesses the same delightful fragrance peculiar to its parent, and is equally free in habit of bloom. 15c each.

THE HARDY MEMORIAL ROSE.

(Rosa Wichuraiana.)

Creeps on the Ground Like Ivy-Dark Green Leaves-Numberless Satiny-White Flowers, with Golden-Yellow Discs-Hardy as Grass, and Will Grow in Sun and Shade.

It is difficult to conceive anything more appropriate, beautiful and enduring for covering graves and plots in cemeteries than the Hardy Memorial Rose. It forms a dense mat of very dark green, lustrous foliage, and flowers in lavish profusion from the first week in July throughout the month, and sparingly for the rest of the season. They are single, pure white, with a golden-yellow disc five to six inches in circumference, and have the strong fregrence of the Ronksia Roses.

are single, pure white, with a golden-yellow disc five to six inches in circumference, and have the strong fragrance of the Banksia Roses.

But its use is not confined to cemeteries. Planted in the garden, either as a creeping plant or trained upright to a stake, it makes the prettiest sight imaginable. It has been largely used throughout the famous park system of Boston for covering rocky slopes, embankments and such places as it was desirable to cover smidtly with roads. and such places as it was desirable to cover quickly with verdure. It quickly adapts itself to all conditions of growth, whether barren soil, rocky ledge or fertile garden, and no more fitting place can be found for it than running through the grass (see cut).

Price, strong plants, each, 20c; 6 for \$1.00; 12 for \$1.75.

TRUE ENGLISH SWEET BRIER.

Grown for the delightful fragrance of its leaves. It makes a splendid hedge and is very effective when planted either in groups or as a single specimen on the lawn. Strong plants, each, 25c; \$2.50 per dozen. Extra large size, each, 40c; \$4 00 per dozen.

HARDY PERSIAN YELLOW ROSE.

The old-fashioned hardy yellow rose. A pure deep yellow. It is perfectly hardy, blooms profusely, requires no protection. Strong plants, each, 25c; \$2.50 per dozen; extra large plants, each, 35c; \$3.50 per dozen.

HARDY WHITE ROSE.

MADAME PLANTIER.—A perfectly hardy, pure white, double rose; the plant grows in a very fine bushy form, and produces flowers in great abundance in June; a most desirable rose for cemetery decoration. Price, extra two-year-old plants, each, 35c; 2d size, each, 15c.

Types of Flowers from Young's Bargain Collection of Roses.

Young's Bargain Collection of Roses. Fine Plants in 8 Distinct Colors, 10c each; the full set of 8 varieties for 50c.

Large Plants from 4-inch pots, 25c each; the set of 8 for \$1.50. No further dis-That every one may try our roses, we have selected the following 8 varieties of Ever-Blooming Roses. The cheapest and best collection ever

> DUCHESS DE BRABANT.—Rose heavily shaded with amber and salmon; strong grower and free bloomer.

> CATHERINE MERMET.—Color, a clear rosy pink; large buds; on very stiff stems; beautiful.

AGRIPPINA.—Rich velvety crimson. A grand bedder.

ETOILE DE LYON. -Color a deep chrome yellow; strong grower and free flowering. 1st size, 25c; 2d size, 15c.

MARIE VAN HOUTTE .- An exceedingly lovely rose, not excelled by any; the flowers are extra large, very double and full, and deliciously tea-scented; color, pale canary yellow, passing to rich creamy white, shaded with pale rose; a constant bloomer; splendid outdoor rose.

MARIE LAMBERT.-Pure white; a grand rose for bedding.

ISABELLA SPRUNT.—Bright canary yellow; large, beautiful buds; very valuable for cut flowers. An old variety, but always in demand.

SOUV. D'UN AMIE.-Extra large, globular flowers, very full and deliciously sweet; color, deep rosy flesh, beautifully shaded with rich carmine; edges and reverse of petals silver rose; vigorous grower and profuse bloomer.

MOSELLA (or Yellow Clothilde Soupert).—Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding rose? Mosella is a stronger grower; flowers are a little larger than the Clothilde Soupert; the color is throme yellow in the center, shading to creamy white on the edges of the petals.

MRS. DeGRAW.—Flowers large, full, deep, clear lively pink and delicately fragrant. Blooms freely from early summer until frost.

Marechal Neil.

distinct and valuable features as it does (see illustration.) First size, 50c; 2d size, 30c; 3d size, 15c.

MARECHAL NEIL.—A beautiful, deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years. It yields thousands of beautiful golden-yellow flowers. A rose so famous as to need no description. Grown the world over for its magnifucent yellow flowers. Especially desirable in the South. We have a grand stock of this variety. First size, branches 3 feet long, each, \$1.00; 2d size, each, \$50c; 3d size, each, 25c; 4th size, from 3-inch pots, each, 15c; per dozen, \$1.50 (see cut).

Six Pure White Hardy Monthly Roses.

Price 20c each; the set of Six Varieties for \$1.00, by mail, postpaid. Large plants by express, 35c; the set of Six Varieties for \$2.00, by express only.

Persons who wish a small bed of pure white hardy roses, suitable for cemetery or other purposes, will find this lot just what is wanted; good, vigorous growers and constant bloomers. They are all quite hardy, and very desirable for outdoor culture in open ground.

BALL OF SNOW.—Very full and double; pure white in clor and entirely bardy. It is invaluable for cemetery planting.

COQUETTE DES BLANCHE.—Flowers large, pure snow white, very double, full and fragrant; a strong grower and constant bloomer.

MARIE GUILLOT. — A splendid rose, first-class in every respect; color pure snow white, sometimes faintly tinged paie yellow; extra full and double; sweet tea scent.

WHITE MALMAISON.—Pure white, large and double. A magnificent summer bloomer.

MARIE VAN HOUTTE.—An exceedingly lovely rose, not excelled by any; the flowers are extra large, very double and full, and deliciously tea-scented; color. pale canary yellow, passing to rich creamy white, shaded with pale rose; a constant bloomer; splendid out-door rose.

LITTLE WHITE PET.—One of the finest of this class. The flowers are pure white, of the most perfect shape, about one and one-half inches in diameter, flowering in clusters of from five to thirty flowers each. A very free bloomer. First size, 2bc; 2d size, 15c.

Six Ever-Blooming Climbing Roses.

The Full Set of Six Varieties, first size, \$2.50; second size, \$1.50; third size, 75 cents.

THE MARY WASHINGTON ROSE.—This rose, so widely advertised during the past years, is said to have originated in the garden of George Washington, at Mt. Vernon, over one hundred years ago. It is an ever-blooming climbing rese of vigorous and rapid growth, and makes a profusion of fine buds which are borne in large clusters. The flowers are of medium size, pure white, perfectly double and very sweet. First size, 50c; 2d size, 30c; 3d size, 15c.

CHROMATELLA, or CLOTH OF GOLD.—A grandrose for the South; clear, bright yellow, sweet and beautiful. First size, 50c; 2d size, 30c; 3d size, 15c.

ac; 3d size, 15c.

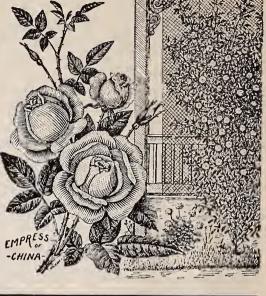

GLOIRE DE DIJON.—A magnificent rose, one of the finest in every respect; large, perfectly double and tea-scented; color rich creamy white, beautifully tinged with amber and pale blush. First size, 50c; 2d size, 30c; 3d size, 15c.

REINE MARIE HENRIETTE.—A seedling or the Gloire de Dijon, with bright red flowers; large, full and scented. This rose partakes somewhat of the Hybrid Perpetual character, and in shape, form and size it is certainly very distinct and beautiful. The color is a bright, cherry-red, a pure shade. A strong, vigorous grower. This rose succeeds well all over the South. First size, 50c; 2d size, 30c; 3d size, 15c.

EMPRESS OF CHINA.—A true

EMPRESS OF CHINA .empress of china.—A true perpetual bloomer producing a profusion of flowers the first season and continuing to bloom throughout the entire season. Flowers of good size, semi-double and of a beautiful bright plnk. It is an ex-

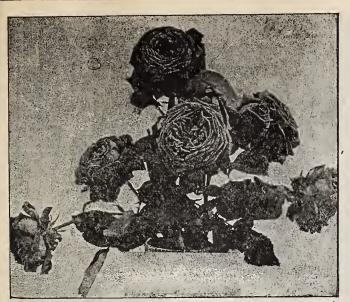

beautiful biceed ingly fast grower and its abundance of bloom is trulyamazing. Should be very be very popular, combining so many

Hybrid Perpetual Roses.

BY MAIL, POSTPAID, \$1.50.

Large Two-year-old Plants, the 12 Varieties for \$3.50. By Express Only. No Further Discount Allowed on this Offer.

press Only. No Further Discount Allowed on this Offer.

The Hybrid Perpetuals are necessary to every garden, because when once planted they live from year to year. Many of the flowers are of immense size, frequently from 5 to 6 inches in diameter. They are exceedingly fragrant, and of the most gorgeous and dazzling colors. They flower profusely in June, with occasional flowers during the summer and fall months. The foliowing collection has been selected from the best new and rare sorts, and includes the varieties that are the most constant bloomers and that have the largest and finest flowers:

GENERAL WASHINGTON.—Color soft scarlet, sometimes glowing crimson; a grand rose with a first-class American name and an old favorite. It is probably the best hybrid perpetual rose in existence for general planting, especially because of its vigorous growth and its near approach to an ever-bloomer, blooming almost constantly from June until frost. Each, 1st size, 40c; 2d size, 15c.

PRIDE OF WALTHAM.—Silvery blush, shaded in the center with delicate rosy pink; very distinct, large and full, of beautiful cupped form, and produced in great profusion; foliage handsome. Each, 1st size, 40c; 2d size, 15c.

MADAME JOS. DUBOIS.—A most vigorous grower and persistent bloomer. The flowers are very large and double, on long, stiff stems, of fine, waxy texture and substance. The color is a pure snow-white. This we commend as being a very desirable sort. Each, 1st size, 40c; 2d size, 15c.

MRS. J. SHARMAN CRAWFORD.—This is a grand perpetual hardy rose for the garden. The plant is very vigorous in growth, of strong branching habit, with fine, distinct foliage, every shoot crowned with a handsome, large flower of perfect form. Color a rich, deep rosy pink, outer petals shaded with pale flesh; very showy. Each, 1st size, 40c; 2d size, 20c.

MAD. CHARLES WOOD.—A true perpetual bloomer; begins to bloom almost as soon as planted, and continues ail through the season. The flowers are extra large, very double and full, and quite fragrant. Color bright flery scarlet, passing to fine rosy crimson, elegantly shaded with maroon; very showy and handsome, and one of the best roses ever introduced for general planting. Each, 1st size, 40c; 2d size, 15c.

ULRICH BRUNNER.—Brilliant cherry-red, a very effective color; flowers of fine form and finish, carried well upon the plant; petals of great substance; plant vigorous, hardy and resists mildew. Each, 1st size, 40c; 2d size, 15c.

GLOIRE DE MARGOTIN.—This grand new hybrid perpetual rose is one of the very finest varieties of recent years. The flowers are very large and of symmetrical form, somewhat globular, very lull and deliciously scented. The color is a clear, dazzling red. Certainly one of the most brilliant roses ever seen. Each, ist size, 40c; 2d size, 15c.

GENERAL JACQUEMINOT.—Bright shining crimson, very rich and velvety; exceedingly brilliant and handsome; makes magnificent buds, and is highly esteemed as one of the best and most desirable for the garden. Each, 1st size, 40c; 2d size, 15c.

PERLE DES BLANCHES.—A truly elegant rose, very full and double and delightfully perfumed; color pure lvory-white; sometimes clouded with pale blush and tinged with amber. Each, 1st size, 40c; 2d size, 15c.

PAUL NEYRON.—Deep shining rose, very fresh and pretty. Flowers large, often measuring five inches in dlameter, and it has this merit—though very large, the buds always develop fine, perfect roses. It is, moreover, a good, strong grower, with nice, almost thornless stems (see cut). Each, 1st size, 40c; 2d size, 15c.

MADAME VICTOR VERDIER.—Brilliant carmine crimson; large, full, beautiful globular shape; a free bloomer; very desirable. Each, ist size, 40c: 2d slze, 15c.

MRS. JOHN LAING.—An elegant new constant-blooming hybrid perpetual rose. One of the very finest of its class; color clear bright pink, exquisitely shaded. The buds are long and pointed, the flowers extra large and full, borne on long stems and exceedingly sweet. A grand rose. Each, 1st slze, 40c; 2d size, 15c.

HARDY CLIMBING

Prairie Roses.

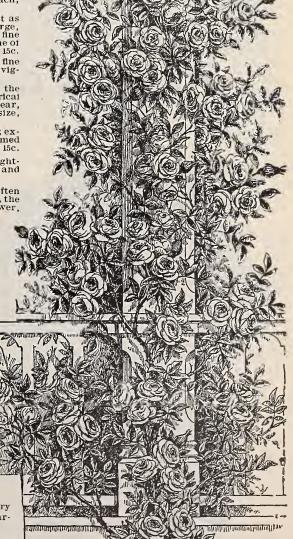

.These are climbing roses that are perfectly hardy everywhere, and can be readily trained to the height of from 10 to 30 feet, as they grow with great vigor. The flowers are produced in large clusters.

BALTIMORE BELLE-Pale biush, nearly white, very double, flowers In beautiful clusters, the whole plant appearing a perfect mass of bloom.

Price, strong 2-year-old plants, 35c each; 2d size, 15c each.

QUEEN OF PRAIRIES .- Clear, bright pink, large, compact and globular, very double and full, blooms in clusters; one of the finest (see cut). Price, strong 2-yearold plants, 35c each; 2d size, 15c each.

RUSSELL'S COTTAGE.-Dark, velvety crimson, very double and full; a profuse bloomer and strong grower. A very desirable climbing rose. Price, strong 2-yearold plants, 35c each; 2d slze, 15c each.

Climbing Rose, Queen of the Prairies.

YOUNG'S CHRYSANTHEMUMS.

UR LIST OF CHRYSANTHEMUMS contains the cream of all the best varieties in cultivation to-day. We grow and test all new sorts as soon as sent out, saving only the best. All the prize winners at the November shows in Chicago and St. Louis and other cities are included in our collection, as well as some of the grand old sorts that have never been excelled by any of the new varieties

White Louis Boehmer,

WE WERE AWARDED 20 FIRST PRIZES

At the Chrysanthemum Show at St. Louis, in November, 1898.

[Cultural Directions, which, if Followed, will Insure Success.

[Cultural Directions, Which, if Followed, will Insure Success.

WHEN TO PLANT.—Any time after the ground can be worked, even up to June the 10th, will give good blooming plants.

DISBUDDING AND STOPPING.—When the plant is 6 or 8 inches high, cut it back to 4 inches, allow 4 shoots to grow, and when they have attained the same height again, pinch out the terminal bud, continuing to stop them whenever the shoots get 4 inches longunti August 15th. After that time they should be allowed to form their buds and flower. If large flowers are wanted, all the buds should be picked off except one on the top of each branch or shoot. In localities subject to early frost, they should be litted and placed in large pots or boxes; after lifting, water thoroughly, and never allow them to become dry, as that would cause them to lose their leaves and produce imperfect flowers. Manure water, once a week, is very beneficial at this stage.

TO DESTROY BLACK APHIDES.—This is the only insect that is troublesome to the Chrysanthemum. Place tobacco stems on the top or around the pots, and the fumes will be sure to kill them. Another remedy is to dust them with Young's Insect Destroyer.

4-oz. package, postpaid, 25c.

FAMOUS OSTRICH PLUME SET.

The Full Set of Six for 50 Cents.

L. BOEHMER.—Wine pink, one of the best; elegant for specimen pot plants. Each, 15c.

WHITE LOUIS BOEHMER.—An immense, perfectly incurved flower, with broad petals, showing a plush-like surface (see cut). Each, 15c.

Blower, With Protect Place, 15c.
GOLDEN HAIR.—Fine, deep, rounded flower of amber yellow; broad, incurving petals; one of the best. Each, 15c.
WM. FALCONER.—A delicate shade of rosy blush, changing to white. Each, 15c.
EIDERDOWN.—Large, perfectly double, incurved, snow-white.

Each, 15c. ROBERT M. GREY.-ROBERT M. GREY.—A terra cotta color; petals covered with a very dense hairy growth. Each, 15c.

SPECIAL CHEAP OFFER OF FINE CHRYSANTHEMUMS.

SIX NEW AND RARE CHRYSANTHEMUMS.

Selected as the Very Best of all the New Varieties Introduced this Year. 20c each, any 3 for 50c, the Full Set of 7 New Varieties for \$1.00.

Sunstone.

SUNSTONE. -Robust habit like "The Queen." Petals hook up at the end, showing the light straw reverse; upper surface bright yellow; shading to red at the base. 5 feet high, 7 inches in diameter. (See cut.) 20c each.

an exhibition variety. There is nothing like it in color, which is a deep reddish salmon upon opening, and gradually changes to a soft shrimp pink when fully finished; the flower is of the general shape of V. Morel, is of the largest size, and takes on great depth. Has attracted marked attention wherever shown. This variety has no touch of lavender in its color, but is a decided and new shade that is very beautiful. Examine

the cut, which shows the depth of bloom nicely (see cut). 20c each.

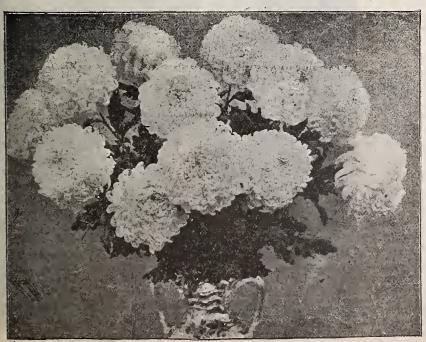

MRS. JOHN J. GLESSNER .- A light yellow, very distinct in form; broad petais, opening in a whori, which, when matured, assume a convexed form; tips turning backward and twisting in all directions, giving a very irregular outline. Flowers 7 inches in diameter, a perfect ball; robust habit; stem very stout and short. 20c each.

FRANK HARDY .-- A grand new white that has been much admired, with florets of great length incurved in curls first in one direction then in another, giving a wave or plume-like appearance; sure to become a favorite exhibition variety. 20 cts each.

PENNSYLVANIA .- A sport from that favorite exhibition variety, Philadelphia, and possessing ail the good qualities of its parent. from which it differs only in color, which is a rich, bright yeliow. Like Philadeiphia, it is of large size, globular in form and certain to become a favorite. 20c each.

MISS FLORENCE PULLMAN .- Pure white, very large, of deep build and good breadth; extra fine. Among the grandest whites seen at the shows in 1898. 20c each.

'L AMETHISTE.-Royal purple, of the finest shade, and of extraordinary size; quite globular in form, perfectly incurved. Should be in every exhibition collection. 20c each.

Frank Hardy,

Mrs. H. Robinson.

INDIANAPOLIS PRIZE WINNERS.

Set of Six for 75 cents.

MRS. W. P. RAYNOR.—A beautiful, clear white, Japanese variety; long, flat petals; fine round bloom, full to center; reflexing slightly towards the stem, which is strong and erect. Awarded certificate (see cut). 15c each

INDIANA.—A grand incurving pink of bright color, fine finish and enormous size—twenty-two inches in circumference. We should pronounce this one of the fines varieties of the year. 15c each.

MAYFLOWER.—White, bold, irregular flower. Has taken first place at Chicago show the past two seasons in the class of forty blooms. Certainly a very meritorious variety. 15c each.

MRS. H. McK. TWOMBLY.—Large, perfectly double incurved; white, shaded with pink. A grand early variety. 15c each.

CYRUS H. McCORMICK.—Vigorous grower, bearing massive flowers of the shape and make-up of "W. H. Lincoin." Color deep yellow, shaded with bronze red. 15c each.

LIBERTY.—Of beautiful form; 5 incbes in diameter; reflex in its earlier stages, incurving and of perfect globular sbape when fully developed. Color a clear, rich, deep golden yellow; habit dwarf, but robust; foliage and stem perfect. 15c eacb.

St. Louis Prize Set.

Finest Varieties with which we Won Prizes at the St. Louis Show in November.

THE FULL SET OF EIGHT SUPERB SORTS FOR ONE DOLLAR.

MRS. JEROME JONES.—Grand stem and beautiful foliage; quite dwarf; beautiful waxy white flowers, broad incurving petals; one of the very finest, and a grand prize taker among whites. 15c each.

MRS. PERRIN.—The very nearest approach to the true pink so long desired. It has strong, stiff stems and ornamental foliage. The flower is of incurving form, full and with a finish as fine as satin. Color, rose pink within, glistening pink without. Recognized wherever shown as the ideal variety in this color. 15c each.

CHEABEAGUE.—An immense [pearl pink] of remarkable form; the relals are incurved and twisted in regular fashion. This is a spiendid variety and one that we can recommend to all; good strong grower. 15c each.

MRS. H. ROBINSON.—Ready to cut October 14, and increases in beauty till November 1; height 3 feet. It is of the most popular style—immense incurving broad channeled petals of great substance and the purest white—a perfect ball of snow, 16 to 18 inches in circumference (see cut). 15c each.

GOLDEN WEDDING. - Flowers of very large size, on stiff, erect stems; petals both long and broad; color, deep, bright gold, of sbining texture. A perfect Japanese of most beautiful form. 15c each.

GEO. W. CHILDS —The best deep self-colored crimson variety in existence; flowers massive and of immense size, with broad stiff petals, rich dark velvety crimson, without a shade of brown or chestnut. 15c each.

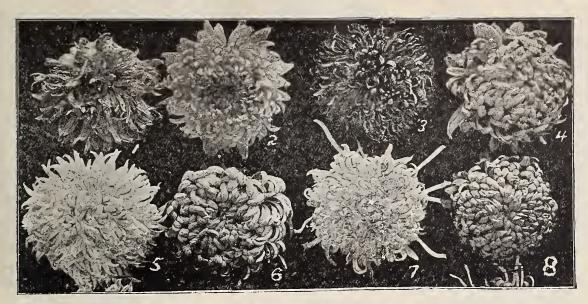

WESTERN KING.—Is a first-rate white, notable for its superb form and substance. Is extra large and the petals, which are somewhat pointed, incline to incurve. The growth is of moderate beight. This sort is sure to become popular for any purpose. 15c each.

MODESTO.—This variety has made a fine record, and must take its place among the very finest yellows; grand for exhibition, for commercial purposes or for single stem in pots. Bright goiden yellow. 15c each.

Mrs. W. P. Raynor.

All Prize Winners at the Chicago Show, 15c each; Any Two for 25c; the Full Set of Eight for \$1.00.

MRS. J. M. PARKER, JR.—Dwarf, robust habit, strong stem and fine foliage. Flowers over 7 inches in diameter, with broad incurving petals, the inner surfaces rich deep pink, reverse light silvery shade. Color extra good (see cut No. 1). 15c each.

MINNIE WANAMAKER.—One of the finest of all the standard whites; no newer variety has as yet taken its place; fine for all purposes. Dwarf grower (see cut No. 5). 15c each.

THE QUEEN.—The largest white chrysanthemum ever introduced; a vigorous grower, and has such strength of stem that it carries its great globular flowers erect. Although the flowers are so large, they are not heavy, solid-looking like many others (see cut No. 2). 15c each.

MRS. BAYARD CUTTING.—A flower of extra large size, color deep rose; valuable in exhibition collections (see cut No. 3). Ea. 15c.

NYANZA.—A fine, large, bold flower, often 7 inches across, with very broad petals, slightly incurved but full to the center. Color, bright terra cotta; reverse of petals old gold. A grand flower of fine build, with good stout stems and handsome; foliage; one of the earliest (see cut No. 6). 15c each.

PELICAN.—Snow-white, medium-size flower; snow-ball type; quite distinct and early. One of the very best for large pot specimens (see cut No. 7). 15c each.

H. L. SUNDERBRUCH.—One of the very finest of exhibition yellows; size enormous, but not at all coarse; fine habit and free grower (see cut No. 4). 15c each.

PRES. WM. R. SMITH.—Color a beautiful, clear, flesh pink; very heavy in substance, on stiff stems; the form of the flower is very beautiful in all its stages (see cut No. 8). 15c each.

SET OF EIGHT GRAND DWARF CHRYSANTHEMUMS FOR 75 CENTS.

We commend to your notice this set of 8 dwarf chrysanthemums, which we know to be the best varieties in cultivation for pot culture. None of them exceed 18 inches in height.

HARRY MAY.—Flower very large and double, forming, when well open, a massive sphere; color, deep old gold, occasionally velned red (see cut No. 1). 10c each.

IVORY.—Pure white, very double, large and beautiful, distinct and dwarf in habit (see cut No. 5). 10c each.

WM. H. LINCOLN.—Grand flowers, immense size, very double and full, beautiful incurved form; color, clear chrome yellow, reverse of petals fine canary (see cut No. 2). 10c each.

ST. CLAIR.—Fine, clear yellow, of spherical shape when fully developed. Petals straight; very much admired variety. Good for specimen bush plants (see cut No. 6). 10c each.

L. CANNING.—A most exquisite white, absolutely pure; the flower is quite regular in form, very large; one of the best (see cut No. 3). 10c each.

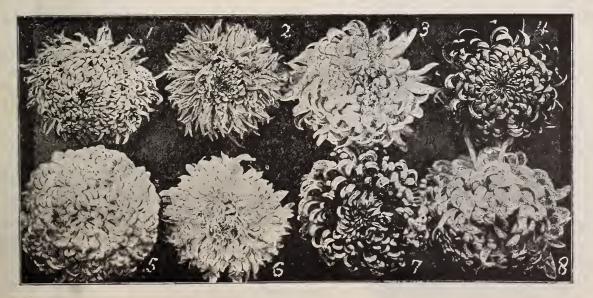

LAWN TENNIS.—A fine shrimp pink, perfect globular flowers;

No. 3). 10c each.

LAWN TENNIS.—A fine shrimp pink, perfect globular flowers; petals cupped and incurved; very beautiful (see cut No. 7). 10c each.

J. SHRIMPTON.—Bright crimson, of largest size and perfect form (see cut No. 4). 10c each.

GLORY OF THE PACIFIC.—A magnificent pink; one of the earliest; ready to cut October 8th. Dwarf habit; strong and stiff stem and excellent foliage. A grand variety (see cut No. 8). 10c each.

Set of Eight Grand Dwarf Chrysanthemums.

The Abutilons or Flowering Maple, is a plant of as easy culture as the geranium and quite as satisfactory. It is beautiful, both in leaf and flower, and is very profuse in bloom.

SOUV. DE BONN.—One of the most valuable novelties of recent years, and totally distinct. It is a very strong grower; the leaves, a beautiful green, are regularly banded with white; the bloom is very large and bright orange in color. A beautiful decorative plant. Each, 10c.

ECLIPSE.—This is really one of the best of all pot plants. It is always in bloom. Color, light orange, bell-shaped. For hanging baskets, pots or vases, it is superb, and very attractive as a window or bedding plant in the garden. Each, 10c.

GOLDEN BELLS.—A bright golden yellow Abutilon, of strong, vigorous habit and very free-flowering (see cut). Each, 10c.

BOULE DE NEIGE.-Fine, pure white, free bloomer. Each, 10c.

TRIUMPHANT.—The darkest blood-red yet produced; dwarf and compact, and very free bloomer. Quite a novel color. Each, 10c.

CAPRICE.—A most beautiful novelty; profuse foliage; marbled and blotched cream and yellow. Bright, purplish red flowers, with rich, metallic lustre. Each, 10 cents.

SPECIAL OFFER.-The Set of Six Abutilons for 50 cents.

FOR NOVELTIES IN ABUTILONS, SEE PAGE 49.

New Abutiton-Golden Bells.

CLERODENDRON FRAGRANS.

(Fragrant Clerodendron.)

This new plant is a native of China, and is most desirable in every way. Illustration gives an excellent idea of its great beauty. The exquisite waxy white flowers are produced in wonderful profusion in dense, compact clusters, and their fragrance is simply delicious; fully as sweet as a Gardenia or Jessamine. It is a dwarf, sturdy grower, and is almost hardy. Each, 30c; four for \$1.00.

AGAVE AMERICANA.

(Century Plant.)

Very picturesque plant for outdoor decoration on the lawn or in vases. From 10c, 25c, 50c to \$3.00 each.

AMERICANA VARIEGATA.—Similar to the above variety, with leaves banded with yellow. These plants stand any amount of heat and drought; and they are admirably adapted for center plant of vases, rock work, baskets, etc. (see cut.) Small plants, in 4-inch pots, 50c each; large plants, one or two feet high, \$1.00 to \$3.00.

Agave Variegata.

Begonias, Ornamental Leaf.

Caladium Esculentum.

CALADIUM ESCULENTUM.-Very effective, and suitable for a single plant on the lawn. The leaves often attain the length of three feet by twenty inches wlde, and have a rich troplcai effect. Watering in dry seasons will help develop large leaves (see cut). Extra selected bulbs, large size, \$1.00 each. First size bulbs, 50c each; \$4.50 per doz. Second size, 30c each; \$3.00 per doz. Third size, 15c each; \$1.50 per doz.

FANCY LEAVED CALADIUMS .- Valuable for the decoration of conservaories, greenhouses and window boxes; six distinct colors. 25c each.

BEGONIA REX.

(Ornamental Leaved.)

(Ornamental Leaved.)

This class of plants is grown for their large, handsome leaves, which are banded and flaked with silvery white, brilliant greens and reds, many having a metallic lustre. Very desirable for house cuiture, as they thrive where there is little direct sunlight.

COUNTESS LOUISE ERDODY (see cut No. 7).—The leaf has a center of dark silver, edged with crimson. The two lobes at base of leaf do not grow side by side, but one of them winds in a spiral-like way, until in a fuil-grown leaf there are four of these curves lying on top of the leaf. Each. 35c

SILVER FLEECE (see cut No. 2).—Smooth, silvery leaf, with high lustre and narrow, dark edge; free-growing variety. Each, 20c.

20c. QUEEN VICTORIA (see cut No. 3).—Bright silver green, of crepe-like texture, with reddish veins and fluted edge. Each, 20c.

BERTHA McGREGOR (see cut No. 4).—A free, strong grower, producing follage in abundance. The center of leaf is small, dark and palm-shaped, the body of leaf being solid silver, outlined with 'ronze; extremely elegant. Each, 20c.

MAGNIFICA (see cut No. 5).—Immense leaf, very dark green, with silvery markings. Each, 20c.

EDWARD PYNAERT—In elegant discolor Rex; fine, upright growth, and very beau iful, bright coloring. One of the showlest of its class. Each, 20c.

The Six Varieties of Begonias for \$1.00, by Express only.

New Coleus, Mrs. F. Sander.

NEW COLEUS.

The following varieties are a selection of the handsomest and best sorts from our latest French importation. The colors and markings of these spiendid new sorts are simply gorgeous, and are a decided improvement over all varieties now in cultivation.

MRS. F. SANDER.—This new Coleus differs from all other varieties in having a wedge of creamy-white in the center of the leaf, with a clearly defined margin of oxidegreen, bronze, crimson and purple (see cut), 15c each.

FAITH.—Ground color creamy yellow, handsomely marked with bright crimson. Dwarf and compact. 10c each.

each.
ETOILE.—Deep rosy-pink, distinctly spotted and blotched with light yellow. 10c each.
MARQUIS OF LORNE.—Center of leaves rich velvety-black, margined with bright green. 10c each.
INTERNATION.—Glowing dark maroon, velned with original to the control of the

crimson. 10ceach. M. DAUDET.—Canary-yellow, spotted with bright red.

inc ea h.

MEISSONIER.—Very dark ground color, handsomely
marbled with light green and shaded with bright crimson.

Inceach.

M. DAVIS.—Curiously blotched and spotted with maroon, red, veilow and green. 10c each.

EPOPEA.—Color of leaves is a combination of crimson, maroon, scarlet and bright yeilow; very striking. 10c each.

SOUV, GUANESEY.—A very charming combination of light crimson, deep maroon and clear yellow. 10c each.

of light crimson, deep marcon and consequent.

MANOLE HAZARD.—Brilliant red. The richest and brightest colored variety yet introduced. 10c each.

GOLDEN VERSCHAFFELTI.—Bright golden-yellow; excellent bedder. 10c each.

VERSCHAFFELTI.—Rich velvety-crimson. The best of all for bedding. 10c each.

10c each; 4 for 25c. The set of 13 varieties for 75c.

COLEUS .- Unnamed; sorts our selection. 5c each; 50c per doz.

THIRTEEN EVER-BLOOMING CARNATIONS.

Price 10c each; 3 for 25c; or the full set of 13 for \$1.00.

DAYBREAK.—Flowers large, very full. Color a delicate pure bright flesh with no salmon shadings. A free-blooming 10c each. variety.

WM. SCOTT.—Delicate bright pink, with finely fringed petals; flowers of large size on long stems that hold the flower erect. Λ splendld keeper, lasting a long time when cut. (See cut No. 1.) 10c each.

ALASKA.—This variety is a freer bloomer than McGowan, a stronger grower, has a better flower, and is better in every way; pure white, (See cut No. 3.) 10c each.

FRED. DORNER.—This carnation is noted for early and constant bloom. The color is like the rich shade of scarlet found in so many geraniums. The flowers are extra large, very full and perfectly double, deeply fringed and deliciously fragrant. (See cut No. 4.) loc each.

ROSE QUEEN.—Color soft, pure rose, so much admired by cut flower purchasers; flowers large and well formed. (See cut No. 5.) loc each.

GOLDFINCH.—A beautiful carnation, remarkably productive; a splendid summer bloomer, with large, finely made flowers that come into bloom early; stems erect and stiff. The color is a clear yellow with edge of each petal slightly marked pink, a new and novel color. (See cut No. 6.) 100 each

SILVER SPRAY.—Of strong, robust habit; dwarf, compact growth; a very profuse bloomer; flowers produced on long stems, very large and well formed, never bursting; beautifully fringed a pure white. 10c each.

TIDAL WAVE, "THE PINK OF PINKS,"—It is a strong, healthy grower. The flower is of a very bright pink, shaded salmon when first opening, but growing brighter when fully expanded. 10c each.

PORTIA.—Flowers of a brilllant scarlet, and remarkably sweet scented; on this account the flowers are always in good demand; a strong grower of bushy habit. 10c each.

HECTOR.—A deep, velvety red; flowers extra large, seldom less than 3 inches across; constant, free bloomer and vigorous grower. The petals are beautifully shaped and finely fringed. 10c each.

LIZZIE McGOWAN.—An elegant new white variety that is destined to become very popular, being of the purest white; large, full and very attractive; very prolific and fragrant. 10c each.

GRACE WILDER.—This is a grand carnation; flowers are a distinct shade of bright rose pink, finely fringed, very sweet; and borne on long stems. The plant is a strong, healthy grower. Undoubtedly the best of its color. 10c each.

METEOR.—Bushy growth; It has perfectly-formed flowers; color, a rich crimson maroon. 10c each.

For Novelties; see Page 55.

Young's New Dwarf French Cannas.

New Large-Flowering Varieties.

Nothing can be more effective for grouping on lawns or for large beds in parks, than these ever-blooming Cannas. They commence to flower in a very short time after planting, and are a mass of gorgeous colors until stopped by frost in fail. When grown as pot plants they are beautiful specimens for the porch in summer, and continue to bloom all winter if taken into the house or conservatory. At the low price that these showy plants are now offered, no one who has a lawn or yard should be without a bed of these beautiful free-blooming Cannas.

No. 1. CHARLES HENDERSON—A grand variety.

No. 1. CHARLES HENDERSON.—A grand variety introduced two years since, of a fine crimson color that has become very popular; habit compact, rarely exceeding 3½ feet in height (see cut No. 1). First size, 50c; 2d size, 30c; 3d size, 20c.

No. 2. QUEEN CHARLOTTE.—The plant attains a height of about 3 feet. The enormous spikes of large flowers, with petals of velvety blood-red, broadly banded with the brightest canary-yellow. Very distinct and showy (see cut No. 2). First size, 50c; 2d size, 30c; 3d size, 20c.

No. 3. FLORENCE VAUGHAN .- One of the finest yellow-spotted varieties; in color it is of a bright, rich golden-yellow, spotted with bright red; the flowers are of the largest size (see cut No. 3. First size, 50c; 2d size, 30c; 3d size, 20c.

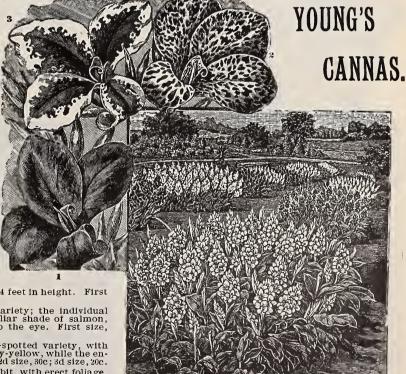

MADAME CROZY.—Flowers of a dazzling crimsonscarlet, bordered with golden-yellow; a marvelous
and rich combination of colors. The plant is or vigorous growth, yet very dwarf in habit, rarely exceeding 4 feet in height. First
size, 50c; 2d size, 30c; 3d size, 20c.

PAUL MARQUANT.—A very beautiful and distinct variety; the individual
flowers are the largest among the race, and are a peculiar shade of salmon,
overlaid lightly with soft rosy-carmine, very pleasing to the eye. First size,
50c; 2d size, 30c; 3d size, 20c.

CAPITAINE P. DE SUZZONI.—A good, light, yellow-spotted variety, with

CAPITAINE P. DE SUZZONI.—A good, light, yellow-spotted variety, with broad-rounded petals. The ground color is of a rich canary-yellow, while the entire flower is spotted with cinnamon-red. First size, 50c; 2d size, 30c; 3d size, 20c.

FURIO.—This Canna is one of comparatively dwarf habit, with erect foliage, blood-red in color. It has been pronounced by all who have seen it here the richest Canna in cultivation, and the coloring is perfectly uniform. In carriage and color it is very handsome. Flowers orange-red. First size, 40c; 2d size, 200; 2d size, 150.

Young's Dwarf French Cannas.

ITALIA.—Flowers of enormous size, spreading 7 inches, the center of flower is a brilliant red with a wide irregular band of clear yellow on outer edge. Its handsome foliage is a deep green, boreser edge and the with white. 30c each.

AUSTRIA.—Flowers very large, spreading about 7 inches. Color, canary yellow, much resembling the Burbank. Foliage large. 25c each.

SPECIAL OFFER OF THE FULL SET OF 9 VARIETIES: 1st size, \$3.25; 2d size, \$2.00; 3d size, \$1.25.

For Novelties in Cannas, see Page 48.

FOUR CALLA LILIES FOR 75 CENTS.

EXTRA LARGE PLANTS, SET OF FOUR FOR \$1.25.

Black Calla Lilv.

NEW DWARF, EVER-BLOOMING CALLA, LITTLE GEM.—
This charming Calla is of a dwarf, compact habit, and is far better adapted to pot culture than the old tail-growing variety. It is a true ever-bloomer, producing flowers almost without intermission. Like the old Calla, it should be placed in the conservatory or window garden, where it will bloom continually. The dwarf compact habit of the plant, and its lustrous dark green foliage and snowy-white flowers, make this one of the most beautiful and desirable pot plants ever introduced. Each, 20c; six for \$1.00.

of the most beautiful and desirable pot plants ever introduced. Each, 20c; six for \$1.00.

SPOTTED CALLA. (Richardia Alba Maculata).—This plant is always onnamental, even when rotin flower, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the old favorite white Calla, except being of smaller habit. It flowers abundantly in the gal den during the summer months. The flowers are shaped like those of the Calla, and are pure white, shaded violet inside. This is one of the reliable house plants that may be depended upon to give excellent satisfaction. It is sure to grow splendidly in any situation, and its beautiful, variegated leaves are very conspicuous and attractive. Each, 20c

WHITE CALLA, OR LILY OF THE NILE.—An old favorite plant, which should be found in every collection. It grows freely and produces large, pure white hlossoms during the winter and sprirg. We have had grown for us in California a splendid stock, and as California roots grow nearly the entire year that stock gives most excellent results wherever planted. They require a very rich soil and should always be watered freely when they are fairly established; strong plants, each, 2tc; blooming plants, 50c.

THREE GRAND CLEMATIS FOR \$1.75. CLEMATIS PA-NICULATA. — The best of all hardy climbers. Of rap-id growth; perfect-ly hardy; showy fo-liage; thousands of sweet-scented flow-

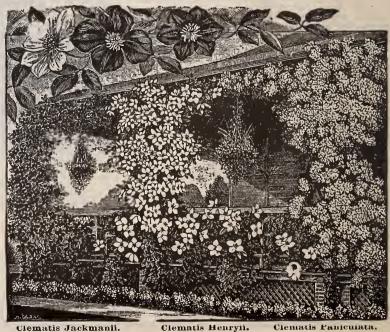

ers on a single plant. This is one of the most desiraof the most destrable, handsomest and hardlest of our garden vines; and it is long-lived and easy to grow and manage. Our illustration is a photo-reproduction, and shows the wealth of flowers, follage and vine. It is one of the very best of vines to grow near the house, as it is so free from insects and remains neat-looking throughout the whole summer. It will also grow up any trellis, over any piliar or stump. The flowers are of medium size, pure white, borne in Immense sheets, and of a most delicious and penetrating fragrance. The flowers appear late in the summer, at a season when very few other vines are in hloom. The extreme rapidity of growth, the showy follage, beautiful and fragrant flowersand entire hardlhood, serve to make this one of the very choicest of recent introductions (see cut). 25c each; five for \$1.00. Extra large field-grown roots, 50c each; three for \$1.25, postpaid.

CLEMATIS HENRYII,—This variety is a much stronger

CLEMATIS HENRYII.—This variety is a much stronger grower than most of the other white varieties, and is entirely hardy: excellent for cemeteries, or wherever a hardy climber is desired; color pure white (see cut). Large, strong plants, \$1.00 each.

CLEMATIS JACKMANII .- This is one of the most vaiuable flowering hardy climbers: It blooms the entire season; color dark, rich royal purple (see cu'). Strong two-year-old plants that will bloom this season, 75c each.

For Novelties in Clematis see page 52.

The set of Three Clematis for \$1.75.

YOUNG'S

IMPROVED

New Dahlias.

Dahlias are the most beautiful and attractive of all the Summer and Autumn flowers. Recognizing their great value, and in order to make this truly magnificent flower still more popular, we have imported from the largest Dahlia growers of Europe all their latest new and improved varieties. Our illustration (from a photograph) shows the forms of these splendid new types, but a colored plate would fail to convey an idea of the marvelously rich and varied colors of the different varieties.

We have a large stock of field roots, pot roots, and in May will also have strong pot-grown plants which may be put out for immediate growth and bloom. It matters not which you get, pot or field roots, or growing plants, they ar all carefully selected, strong and vigorous, and will do equally well.

NEW DOUBLE DAHLIAS.—Each, 20c; 3 for 50c; doz, \$1.50. NEW CACTUS, OR DECORATIVE DAHLIAS.—Each, 20c; 3 for 50c; doz., \$1.50.

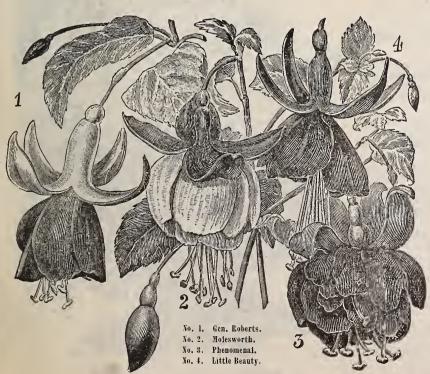

Types of New Dahlias.

FUCHSIA

SPECIAL OFFER,-The Set of Ten Varieties: 1st size, \$1.75; 2d size, \$1.00.

CHARMING.—Growth robust, very prolific bloomer, corolla deep purple, sepals a dark crimson; extra fine variety; single. 1st size, DES MIRABLE.—Free habit, good form; flowers remarkable for their splendid substance; sepals well recurved and tube of bright vermillon; corolla finely formed and of a very rich violet. 1st size, 25c; 2d size, 15c. 25c; 2d size, 15c.

ELM CITY.—An old favorite, one of the very best; sepals crimson, corolla purple; very large and full; double. 1st size, 25c; 2d size, 15c.

MAD. VAN DER STRASS.—The sepals reflex well, showing a beautiful double corolla of pure white, and very full; the habit is fairly strong. 1st size, 25c; 2d size, 15c.

MRS. MARSHALL.—White tube and sepals, bright rosy scarlet corolla; flowers large and bold; free bloomer and grower; single. 1st size, 25c; 2d

ROSAIN'S PATRIE.—Another fine double white; very free bloomer and quite early; tube and sepals rosy carmine, corolla pure white. 1st size, 25c; 2d size, 15c

GENERAL ROBERTS .- Beautiful variety GENERAL ROBERTS.—Beautiful variety, of drooping habit, and will make a splendid companion to the well-known Mrs. Marsball. The blooms are 4 inches in length and are borne in large clusters; corolla a rich plum color; tube and sepals crimson (see cut No. 1). 1st size, 25c; 2d size, 15c.

sepāls crimson (see cut No. 1). Ist size, 25c; 2d size, 15c.

NEW FUCHSIA, MOLESWORTH.—This variety is the most perfect double white Fucbsia ever raised. The short tube and sepals are a bright, rich, reddish-crimson color (see cut No. 2). Ist size. 25c; 2d size, 15c.

NEW FUCHSIA, LITTLE BEAUTY.—This charming variety is a perfect pem, and undoubtedly the freest-flowering Fuchsia ever introduced, beginning to bloom when only 2 inches high. As many as 150 open flowers and buds bave been counted on a single plant in a 4-incb pot at one time. The flowers are of fair size, being 1½ inches long, with bright red tube and sepals and purple corolla (see cut No. 4). Ist size, 25c; 2d size, 15c.

NEW FUCHSIA, PHENOMENAL.—The largest Fucbsia tbat has yet come to our notice; sbort tube and sepals of a bright, rich, reddish crimson color; corolla very full and double, of a beautiful azure violet, flaked with red (see cut No. 3). Ist size, 25c; 2d size, 15c.

size, 25c; 2d size, 15c.

For novelties in Fuchsias, see page 52.

YOUNG'S GLADIOLUS.

The Giadiolus constitutes on 6 of the finest features of the flower garden during the summer and autumn months, for diversity of color and general effect, either in masses or planted in clumps for border decoration. Plant (after danger of freezing is past) in ordinary soil, 3 inches deep and 6 or 8 inches apart, and they will soon throw up tall spikes of beautiful flowers of the most brilliant and gorgeous coiors, crimson, scariet, purple, orange, white, etc., with all imaginable shades and markings. Each bulb produces from one to three spikes, which continue brilliant for weeks. By planting Gladiolus at intervals of a couple of weeks, from early in April until July, flowers can be had constantly from June until frost. As a cut flower the Gladioli has no equal for large vases, etc., as they will keep weli in water for several

Bed of Young's Gladiolus.

days, gradually expanding until every bud has opened They should be taken up in the fall and kept in a dry celiar until spring. We do not offer named varieties, as the unnamed are much cheaper and embrace all the colors of the named varieties.

OUR "SUPERB MIXTURE."—Composed of all the principal colors, 5c each; per doz., 40c; 100, \$2.50.

SHADES OF WHITE AND LIGHT STRIPED.—10c each, 4 for 25c; per doz., 60c; 100, \$3.75.

SHADES OF YELLOW.—10ceach; 3 for 25c; per doz., 75c; 100, \$4.00.

SHADES OF PINK AND VARIEGATED.—10c each; 4 for 25c; per doz., 60c; 100, \$3 75.

SHADES OF RED .- 5c each; 6 for 25c; per doz., 40c; 100, \$2.50.

HELIOTROPES.

The Full Set of Eight Varieties for 60 Cents,

JERSEY BELLE.—Fine, prominent truss, flowers large and of great substance, and an excellent bedder and pot plant. For planting in masses we have seen none to equal it. Another thing in its favor, it takes fewer plants, from its sturdy branching habit, to give effect (see cut). Each, 10c.

FLEUR D'ETE.—This is in every way superior to ali the ordinary varieties. Pure white. Its value is its habit and freeness of flowering, either in pot or bed; is a great improvement on the old, light-colored varieties (see cut). Each, 10c.

PURPLE AND GOLD.—A French variety of great beauty; foliage is a bright, golden yellow, very pronounced and marked slightly with a delicate green. In bloom it is exquisitely beautiful, the deep lavender color of the flower contrasting admirably with the varying foliage; very free-flowering; trusses large (see at). 10c each.

SAPHIR.—This was one of the novelties of last year; a truly beautiful variety of the richest blue violet-purple color, with large and distinct white eyes. Each, 10c.

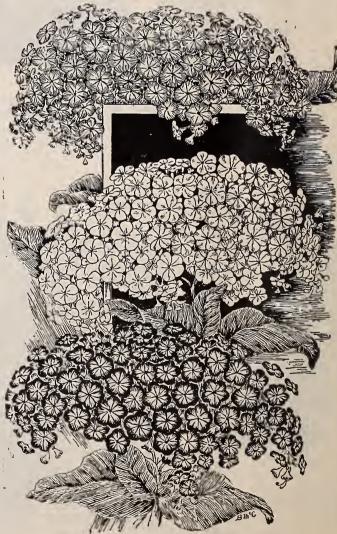

THE QUEEN.—For neat, dwarf habit, profuse in bloom and richness of odor, the Queen Helictrope has no equal; color, royal purple. Each, 10c.

FLORENCE NIGHTINGALE.—One of the best. Immense trusses of dark bine flowers; very sweet. Each, 10c.

SNOW WREATH.—Large truss, compact growth, almost pure white. Each, 10c.

MINA.—Color not very dark or light—medium. Its value is its habit and freeness of flowering. Each, 10c.

For Novelties in Heliotropes see Page 52.

Heliotrope, Jersey Belle, Fleur D'Ete and Purple and Gold.

Geranium, Mauam Alfred Mame.

BRUANT'S SUN-PROOF GERANIUMS.

(See the above sketch.)

The Bruant Geraniums endure sun and drought. It matters not what the temperature, the Bruants are always growing, always green, and crowned with flowers from May until November. The Bruant Geraniums are the most popular plants for bedding.

BLANCHE MOULAS.—A grand bedding variety of much merit. The flowers are large salmon, beautifully bordered with white. A Geranium of rare beauty. 15c each.

TOUR EIFFEL.—Semi-double; this variety is large and perfect in form, a dwarf, healthy and strong grower, and a grand bedding sort. Color of flower bright orange-scarlet; trusses of immensesize. 15c each.

MRS. E. G. HILL.—Single; florets two and one-half by twoinches. The center of each petal is a soft, light salmon, bordered with rosy-salmon and veined deep rose. 15c each.

MRS. MAYS.—Gigantic flowering variety, which sells as fast as can be grown. Its flower pips are nearly three inches across. Color light salmon, shaded with cream; a real gem. 15c each.

FRANCOIS ARRAGO.—A charming variety and free bloomer. The flowers are salmon pink, shaded to a high tone of salmon in center. Has a beautiful glistening texture. 15c each.

MADAM ALFRED MAME.—The giant among Geraniums. We consider this the best bedding Geranium of all varieties. Color of flower is a bright vermilion-red of most pleasing shade; flowers absolutely perfect in shape; trusses exceptionally large and borne in immense spherical balls, often measuring twelve inches in diameter, the florets by actual measurement being two and one-half inches long by two inches wide, of almost pansy form (see cut). 15c each.

M. EMILE CAILLOT.—Undoubtedly one of the best Geraniums ever offered. Very large single florets of the most beautiful and distinct form, borne in Immense trusses; very free bloomer, and as a bedder it has no equal; color pure rose, upper petals marked white. 15c each.

SPECIAL OFFER.—The set of 7 Bruants would cost you \$1.05 at regular catalogue prices, but we here offer the set free by mail for 75c. Get a friend to join you and order 2 sets, remitting \$1.25.

Since the great improvement recently made in Geraniums their popularity has been redoubled, and they appear like a new race. For several years we have been importing all the new varieties from England and France, giving the same care to their selection as in roses, and now we have the best collection it is possible to obtain. We do not offer a long list because we grow the best varieties only, and have discarded all that do not come up to the highest mark of excellence. Purchasers of Geraniums not familiar with our stock will be surprised at the strong, healthy plants we send out. They are propagated in September, and when they have made their growth are kept in light, cool greenhouses, so that when shipped in spring they are hard, well-ripened plants, that will be effective soon after planting. Last summer we had thousands of Stock Geraniums planted in our grounds, and during July and August they were a blaze of glowing scarlet, pink, white and all the different shades. The universal comment of visitors was: "There is not an inferior sort in the field."

FIVE GRAND BEDDING GERANIUMS.

Price: 15c each; 2 for 25c; or the set of 5 for 50c.

NEW GERANIUM, LADY BROOKE.—Petals lapping and of great substance; quite round; color white, with delicate pink mark in the center; very striking; trusses of fine form and immense size.

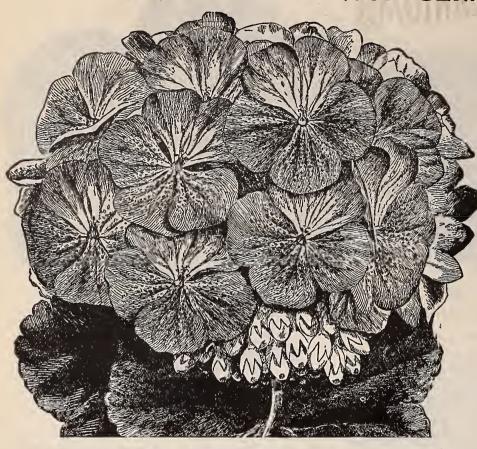

NEW GERANIUM, MADAM BOUGNIER.—A new English variety that doubtless will supersede such varieties as Master Christine, Queen Olga, etc. The flower is larger than any single pink variety heretofore known; of the same delightful shade; the flower well above the foliage on strong stems; fine, light green foliage; good, strong habit; makes an elegant pot variety, and surpasses all pink varieties as a bedder. Isc each.

NEW GERANIUM, MADAM PATTI.—Florets full two inches across, perfectly circular in form and extremely showy. It is the largest, finest and most showy fancy Geranium that we have ever seen. The center of the flower is pure white, surrounded by an aureole of purple, and is bordered bright red. The bloom is of the very largest size, and is a beautiful dwarf grower, and very free in bloom. 15c each.

NEW GERANIUM, GENERAL DODD.—A strong grower, dwarf and branching, and producing flowers in great masses. Both floret and truss are of enormous size, single or slightly doubled and color a brilliant shade of orange-red. 15c each.

M. A. BLANC.—A most distinct and pleasing shade of salmon, with a light shading in the center; trusses are very large and composed of an immense number of florets. A single variety; the finest salmon-flowered Geranium to date. 15c each.

BRUANT'S SUN-PROOF GERANIUMS.

Sun-Proof Geranium, Madam Redellet.

C. MULLER.—Bright vinous rose with very high tinted center; truss fine; florets not crowded, as the footstalks are long and hold them well apart; color very bright; stands the sun well. Dwarf grower, making a fine bedder. 20c each.

EDW. DANGLADE.—A strong, robust grower, keeping up a wonderful succession of bloom; trusses large and spherical, carried well above the follage; flowers large and round, color rosy scarlet, upper segments shaded orange at the base. *M. Bruant* pronounces this a grand bedder in a new color. 20c each.

EUREKA.—Single. Trusses enormous, composed of extra large florets, of the most singular and beautiful color; carmine lake, the upper petals marked at the base with flery red, the lower ones bordered with crimson. A superb novelty, very free in bloom, and of the first order. 20c each.

RUY BLAS.—This is one of the finest of its cotor, and is as valuable for pot culture as for bedding. Trusses immense; large fiaming salmon center, with rosy peach border; double. 20c each.

VAN DAEL.—Bruant type. Center bright silvery rose, bordered white; single. Large trusses. 20c each.

ACTEON.—A Bruant type, raised by Gerbeaux. Color, the most brililant scarlet; upper petals tinted rosy iliac; semi-double; very fine. 20c each.

MADAM REDELLET.—A neat dwarf, compact grower; exceptionally free in bloom, so much so that the large trusses of boom almost hide the foliage. Florets large, of a bright soft pink color, with white center; petals slightly veined red. A lovely color and a grand addition to this race of sun-proof geraniums. (See cut.) 20c each.

M. LOUIS FAGES.—A beautiful, compact grower; flowers of the largest size; trusses fine; semi-double; clear, bright; orange scarlet. Extra fine. 20c each.

MME. CHAS. MOLIN.—Clear, bright salmon, white eye. Remarkable for the beauty of the trusses, and also for its lovely color. Plant semi-dwarf, zoned in black, and very fine in bloom. 20c each.

H. DAUTHENAY.—Single. Low growing, free branching and extremely free in bloom; the trusses are of gigantic size, flowers enormous and quite round, color coppery orange red, with white eye, with peculiar shadings about the eye; the color is magnificent the plant blooms in the greatest abundance, and the foliage is beautifully zoned. 20c each.

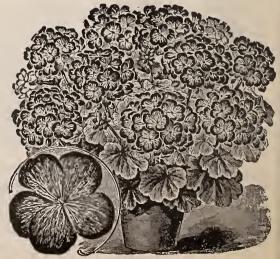

J. D. CABOS.—Single. Plant of dwarf growth, flowering in abundance; trusses of the largest size, composed of large flowers, showing a new and delightful color in Bruants, soft rosy pink. Will prove a magnificent pink bedder. 20c each.

MME. JAULIN.—Semi-double. Very large florets compose a truss of grand size, center very tender pink surrounded by a wide border of white. For freshness and beauty this color is without parailel among out-door bedding varieties, and is equally good as a specimen under glass. 20c each.

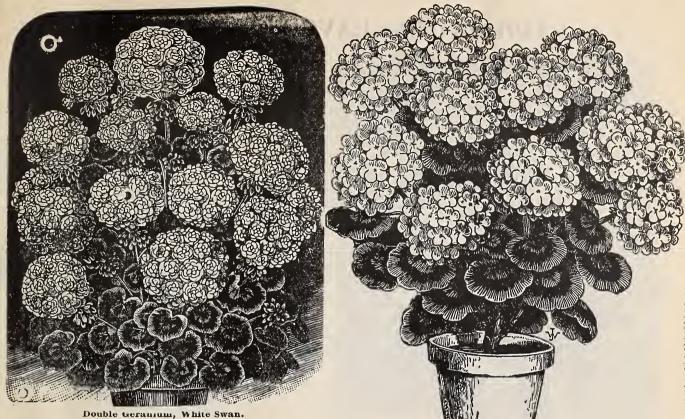

20c each; any 6 for \$1.00. The set of 13 varieties on this page for \$1.75.

New Fancy Flowered Geranium, Madam Bruant.

No other Geranium on our grounds has ever attracted so much attention or been so much admired as this beautiful new Aureole-flowered variety. It is entirely distinct from any Geranium in cultivation, so much so that visitois on passing through the greenhouses, where hundreds of other varieties are in bloom, single it out at once as the most beautiful and attractive in the whole collection. It might with propriety be called the Pansy-flowered Geranium, so distinct is it from the ordinary style. The plant is a vigorous grower, making nice compact plants, and very free flowering, producing fine large trusses of blooms in great profusion; individual flowers large, of fine shape; center of flower white, velned with carmine lake, the five petals regularly and distinctly bordered with bright solferino. The arrangement'of's color is exquisite and entirely new in Geraniums. An excellent variety for pot culture, being a continous bloomer, winter and summer. (See cut.) 15c; 2 for 25c; \$1.25 per doz.

New Geranium, Madam Bruant.

13 BEST DOUBLE GERANIUMS.

Selected as the best of all the double varieties now in cultivatlon. Each, 10cl

SPECIAL OFFER.-The full set of 13 varieties for \$1.00. No further discount from this offer.

SWANLEY DOUBLE WHITE GEFANIUM.—Without seeing it, one would scarcely believe the dwarf growth and free-flowering of this wonderful variety. Dense green leaves, throwing up numerous trusses of the purest white at every joint, and continues to do so through the year.

ATTRACTION.—Pale blush, shaded with delicate lavender; flowers large, trusses immense. 10c each.

MAGGIE HALLACK.—Quite new; in color a deep, pure, pink-shaded rose; flowers of good shape, free-blooming and quite distinct. 10c each.

WHITE SWAN.—The finest double white geranium ever introduced; and, unlike other double white geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It a dwarf, compact grower (see cut). 10c each.

M. WADDINGTON.—The individual flowers are very large, borne on long foot-stalks; color fresh, bright rose, marked with white on the upper petais. A beautiful variety. 10c each.

L. CONTABLE.—Plant of perfect habit; very free, large, full, double flowers of a beautiful bright rose color. An extra fine va-10c each. riety.

ALFRED TENNYSON.—Very large trusses, composed of very large flowers, semi-double. Color clear orange; petals marked

with heliotrope. 10c each.

MD. BACOT.—Very remarkable color, yellowish-orange, the nearest approach to yellow in the doubles; plant dwarf, free grower, profuse bloomer. 10c each.

BISHOP WOOD.—A grand variety of the most perfect hablt, with numerous trusses of very large carmine-shaded, crimson flow-

SUMMIT OF PERFECTION.—Bright scarlet; compact habit; small foliage. For winter-blooming, one of the best. 10c each.

W. P. SIMMONS.—A variety of dwarf, compact habit, and a very abundant blo mer; color bright orange-scarlet. Flowers of grand size. 10c each.

grand size. 10c each.

RASPAIL IMPROVED.—Among double Geraniums there is nothing finer. The color is a deep scarlet of exquisite shade. The floret is very regular in form; more than semi-double and about 2½ inches in diameter. 10c each.

EMILIE LEMOINE.—Deep rich crimson, a splendid improvement in this favorite class; the pips are immense, 2% inches in diameter, showing a margin of nearly haif an inch round an ordinary watch laid upon them; the shape also is very good, the petals well rounded and slightly reflexed, and as most of the crimsons are deficient in this respect, this novelty will be doubly welcome. 10c each. come. 10c each.

13 BEST SINGLE GERANIUMS.

Single Geranium, Cinderella.

Nothing better to be had in the whole list of Single Geraniums.

Price, 10c each; the full set of 13 varieties for \$1,00. No further discount from this offer.

CINDERELLA.—A fine truss of bright rosy salmon. A beautlful color and an excellent flower (see cut). 10c each.

WHEELER.—Single; petals lapping and of great substance; quite round; color white, with delicate pink shading in the center; very striking; trusses of fine size. 10c each.

GLARE OF THE GARDEN.—The flowers are borne in enormous trusses, often measuring five to seven inches in diameter, and are of the most brilliant shade of scarlet. 10c each.

LILY.—White, very slightly tinted with pink; the largest flower of its color in cultivation. 10c each.

RED SHIRT .- Dark crimson truss, shaded scarlet, very large, dwarf habit. 10c each.

dwarf habit. 10c each.

QUEEN OLGA.—The trusses are very large and perfect, and is the freest-flowering variety of its color. The petals are brilliant deep pink. 10c each.

CYGNET.—Immense trusses of purest white flowers, dwarf and very attractive. 10c each.

QUEEN OF THE WEST.—The best bedding geranium in cultivation; grows freely, and blooms in the grestest profusion; light glowing scarlet, in fine trusses. We can lurnish these by the dozen or hundred. 10c each.

BERNICE GARD.—Producing enormous sized flowers and

BERNICE GADD.—Producing enormous sized flowers and trusses of a clear salmon shade, distinct white eye and fine overlapping petals. 10c each.

MINISTER VARROY. — Violet-crimson, scarlet shadings; very large individual florets of superb form; carrles immense trusses.

WHITE VESUVIUS .- One of the best whites. 10c each.

CAPICENE.—Rose, with white center, upper petals flamed with orange; plant of splendld hablt, freely bearing large, perfect trusses, 10c each.

STRIPED QUEEN.—This grand new and beautiful novelty was raised by us last season, and we consider it the finest introduction in years. It is a sport from that well known variety, the Lity in color it is entirely distinct from anything in the Geranium line. It is no blotched or white striped with scarlet like the old variety, New Life; but it is prominently striped scarlet and white, each color being as prominent as the other. It is a perfect round Zonale, of large truss, a good bedder, retaining its two colors in the hottest summer sunshine. Please note that we control the entire stock of this grand novelty. 10c each.

VARIEGATED=LEAVED GERANIUMS.

Mrs. Parker

MRS. PARKER.-In this beautiful variety we have the only double flowering sort in the silver-leaved section. While the foliage is deep green, with a hroad border and margin of the pure snow white, the flower is perfectly double, and of a clear bright pink. In color it is an exact counterpart of that grand variety Centaure. The foliage and flower together make it one of the most unique and heautiful of plants (see cut). Each, 15c.

FLOWER OF SPRING.—The finest of this class, a vigorous grower, an ahundant bloomer, and for ribbon lines of massing, is one of the best. The center of the leaf is bright green, the outer margin hroadly marked with silvery white. One of the whitestleaved sorts, flowers hright scarlet. Each, 15c.

MAD. SALLEROI .- A very compact variety of silver geranium, very fine for massing or hordering; a thrifty heaithful grower; rarely reaching a height of more than six inches. Leaves very small, of a peculiar, clear green, edged with pure white. Each, 10c; \$1.00 per dozen.

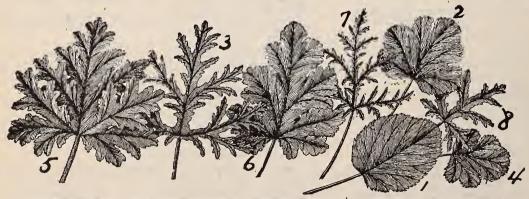

Happy Thought.

HAPPY THOUGHT .- A perfectly distinct variety; center of leaf hright golden yellow, with hroad margin of deep green; flowers of a magenta shade. A bushy grower making a fine pot plant; also an excellent bedder (see cut). Each, 25c.

CORINNE.-Clear, golden yellow foilage; flowers double; trusses good size; color flery orange. Each, 15c.

GOLDEN HARRY HIEOVER .-- A grand and much needed variety; habit of the green variety of that name, thick and hushy; for small beds and front rows; a gem. Each, ioc.

MRS. POLLOCK .- (Golden Tri-color) .- As an ornament for the parlor or conservatory nothing yet excels this beautiful plant. The flowers are dark scarlet; the ground color, or, rather, the disc of the leaf, is green, next comes a zone of bronze-crimson, margined scarlet; then a helt of lighter green, the margin of the leaves being a clear yellow. Each, 20c.

Scented Geraniums.

10 cts. each, except where noted.

SPECIAL OFFER: The Set of 8 Scented Geraniums for \$1.00.

APPLE SCENTED .- Has a fragrance of pineapples; well-known favorite (see cut No. 1). 25c each.

NUTMEG .- One of the most fragrant; somewhat resembles the Apple Geranium in growth and fragrance (see cut No. 2). 10c each.

PENNYROYAL .- Finely cut foliage; strongly scented (see cut

SHRUBLAND PET .- A hushy grower; leaves curled at the edge. With distinct fragrance. Flowers rose-colored (see cut No. 6). 15c each.

LEMON .- Small leaves, growing erect; of a delicious lemon fragrance (see cut No. 4). 10c each.

ROSE .- Too well known to need description. They are indispensable in the formation of bouquets (see cut No. 5). 10c each.

LITTLE PET.-Most delicate of all cut-leaved geraniums; delightful fragrance; very free-growing (see cut No. 7). 15c each.

MRS. TAYLOR, or SCARLET ROSE GERANIUM .- A distinct variety of the Scented Geranium, with a strong rose fragrance and large deep-scarlet flowers (see cut No. 8). 15c each.

New Ivy-Leaf Geranium, Souv. De Chas. Turner.

GLOXINIAS.

Charming plants of dwarf habit, producing large and splendid blooms in the greatest abundance under the commonest culture. In pure white, with throats of blue, scarlet, rose or crimson, or the tubes are of bright color, with white throat (see cut). Strong bulbs, each, 25c; doz., \$2.50.

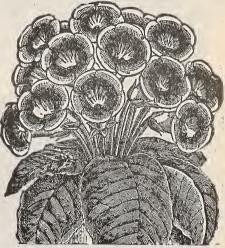

Ivv-Leaved Geraniums.

These splendid Ivy Geraniums are recommended as the very best of their respective colors, and most desirable for general planting. The set of 2 for 25c.

NEW IVY-LEAFED GERANIUM, SOUV. DE CHAS. TUR-NER .- A wonderful stride in this lovely class, producing gigantic trusses six to eight inches across, pips two and one-half to threeinches over, deep pink shade, feathered maroon in upper petals. Finest English variety introduced (see cut). Awarded many certificates. 15c each; 2 for 25c.

NEW DOUBLE WHITE IVY GERANIUM, JOAN OF ARC .-This is one of the most beautiful plants that it has ever been our privilege to offer. The flowers are perfectly double, white as snow, and literally cover the plants when in full bloom. The

foliage is extremely handsome, the dense glossy-green leaves making a most effective background for the great cluster of snow-white flowers. 15c each; 2 for 25c.

LANTANAS, OR SHRUBBY VERBENAS.

The brilliant colors, robust growth and profuse-blooming habits of the Lantana, render it one of the finest bedding plants that grow. The flowers embrace all the most delicate shades or orange, sulphur, creamy-white, etc., changing from one distinct color to another as they increase in age and development. The varieties

described give a wide range of color, and include the most distinct and profuse-blooming varieties (see cut). Price, 10c each; 3 for 25c.

LANTANA ALBA PER-FECTA .- Pure white, very fine. 10c each.

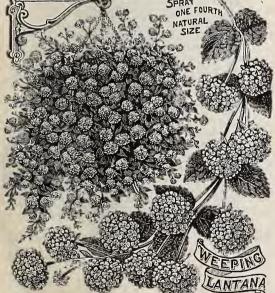

COMTESSE DE BIEN-COURT .- Flowers bright rose and yellow, center sulphur; dwarf and bushy. 10c each.

LA PLEUR D'OR .- Small, pure yellow flowers; very dwarf and bushy; very abundant bloomer. This will please you. 10c each.

MICHAEL SCHMIDT .- The flowers fresh and sparkling, of a brilliant yellow, passing into purple-vermilion, 10c each.

MINE D'OR .- A new variety, orange and crimson flowers and golden variegated foliage. 10c each.

JAVOIL.-The finest pure white yet introduced; florets large, forming large spikes of bloom, 10c each.

Beautiful Weeping

One of the Few Plants that Cannot be Too Highly Recommended.

The plant is of very rapid growth, and graceful drooping habit, with lovely dark green foliage, producing a cluster of flowers at each leaf. The flowers are a most delicate, clear, brilliant rosy lilac color; entirely distinct from any other flower we have ever seen. Indeed, we never grew a plant that attracted so much attention and gives such general satisfaction. To produce quick results, a half dozen or more plants should be planted in a basket, although a very pretty basket can be grown from a single plant. It is also a very valuable plant for mixing with other plants in vases, etc. We have grown an immense stock of this beautiful basket plant and offer it at prices that are within the reach of all. Price, 10c each; 3 for 25c.

Group of Lantanas.

dwarf plant; bright golden-yellow flowers, disc and center being the same shade. These two varieties make a beautiful contrast. 10c each; large plants, 25c each.

MOONFLOWER, RED (Ipoma Mexicana Palmata).--From Buenos Ayres. A red morning giory, with a large, tuberous root, bearing rich, violet-crimson flowers; a beauty. To be treated like a dahlla. Each, 20c; extra large plants, 35c.

MOONFLOWER, WHITE (Ipomæa Grandiflora). -There are few plants that are as satisfactory as this. One lady says that it was trained on strings to a balcony 25 feet high and 40 feet wide, and that from August to November. it was covered nightly with its white, moon-like flowers, from 5 to 6 inches in diameter. It has also a rich, jessaminelike odor at night. It is called the Moonflower from its rare peculiarity of blooming test at night, although it also expands its flowers on dull days. It grows everywhere where there are old trees, walls or strings to cling to (see cut), Each, 20c; 6 for \$1.00; extra large plants, 35c.

MOONFLOWER, BLUE, or the Giant Morning Glory (Ipomaa Learii).-This makes a splendid companion to plant with the white Moonflower. It is equally rapid in growth and free flowering, blooming in the morning or on duit days. The flowers are the most Intense violet-blue, with reddish-purple rays, and are 6 Inches across. Each. 20c; extra large plants, 35c.

Group of Hibiscus.

HIBISCUS.

Large-growing tropical shrubs, with very glossy foliage. The plants, under the hottest sun, produce enormous flowers in great number, and make noble specimens. They can be grown in tubs and kept for years. The blooms average five or six inches in diameter, and are gorgeously colored. The plants can be wintered over in a warm, dry cellar or pit (see cut). Price, 10c each; large plants, by express only, 25c each.

FOUR GRAND JESSAMINES FOR 75 CENTS.

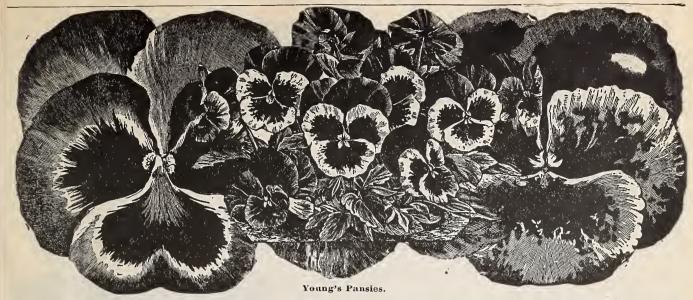

GRAND DUKE OF TUSCANY.—Easily grown, even small plants bearing profusion of double, creamy-white flowers, having a delicious perfume. A plant of this lovely variety will, when in bloom, scent up a whole yard or house. Fine plants, each 25c; large plants, 50c.

NIGHT-BLOOMING (Cestrum Parqui)—An excellent house plant, growing rapidly. Foliage long and of deep green color, producing its richly fragrant flowers at every joint. Sweet only at night. Each, 25c; larger plants, 50c.

CAPE JESSAMINE (Gardenia Florida).—This variety is invaluable on account of its sweetly fragrant, double white flower; the most valuable of all Jessamines; large glossy foliage. Each, 25c; large plants, 50c.

STAR JESSAMINE (Grandsforum)—This is of climbing habit. Flowers pure white, star-shaped, of exquisite fragrance, blooming from October until May without intermission (see cut). Each, 15c; large plants, 35c.

Star Jessamine.

YOUNG'S PANSIES
Who does not like a pansy? No one. It comes so quickly after the duli, dreary winter, and its color and markings are so beautiful that everyone exclaims: "I like a heartsease." As to their culture, give them a good, rich soil and they will grow and thrive anywhere and beyond replanting, will bloom eight months without attention. If the splendid colors and roundness of form of those we grow could be seen, they would be planted in every garden.

YOUNG'S GIANT TRIMARDEAU. - Fine young plants from this superb, large.

flowering strain. Each, 10c; per doz., 75c.

LARGE-FLOWERING VARIETIES, MIXED COLORS.-Strong plants, raised from seeds obtained from the different pansy specialists; all colors and varieties. Each, 5c; per doz., 60c.

OTAHEITE ORANGE. MOST UNIQUE POT PLANT IN CULTIVATION.

An extra fine pot plant with glossy green leaves, the true fragrant orange blooms and abundant little bright oranges that will hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot, and we have seen a plant in an ordinary window, that was but 15 inches high. and had 23 oranges on it. With good sunlight they are never out of fruit from one year's end to another; and at least two-thirds of the time are in flower also. The fruit is very sweet and handsome. Could we have but one plant in our window it would be an Otahelte Orange (see cut). Fine plants for blooming and fruiting at once. 20c each; 3 for 50c; extra large, by express, 40c; 3 for \$1.00.

Lily of the Valley.

ILIES.

LILIUM CANDIDUM (or St. Joseph Lily). - This is the favorite White Garden Lily. It grows 3 to 4 feet high, and flowers in the open ground about the first of June. Each, 15c; per doz., \$1.50.

LILIUM AURATUM,-Decidedly the most beautiful of all lilies. Large, white petals, spotted with chocolate-crimson, and have a bright golden band through the center of each. Each, 25c.

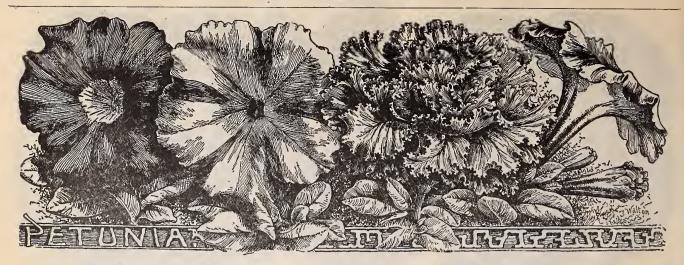

DOUBLE TIGER LILY,-Bright orange-red flowers, spotted with black. Each, 20c.

SINGLE TIGER LILY.-Orange salmon, spotted black. Each, 20c LANCIFOLIUM ALBUM.-Pure white. Each, 25c.

LANCIFOLIUM RUBRUM .-White, shaded with rose and spotted with red (see cut). Each, 25c. ted with red (see cut). Each, 25c, *LILY OF THE VALLEY.—This beautiful little flower is quite hardy. Choose a partially shaded place in the garden and plant the roots about six inches apart and two inches deep. It is especially adapted for planting in cemeteries, as it requires no care after being once planted (see cut), Per doz. roots, 40c; per 100, \$2.00.

NEW DOUBLE PETUNIAS.

The Double Petunia is one of the finest bedding plants for massing, mixed borders, or for vases. The brilliancy and variety of its colors, combined with the duration of its blooming period, render it invaluable for garden decoration. Our collection is unsurpassed for brilliancy of color and size of blooms. They include all the brightest shades of pink, purple, rose, white, etc. We have discarded the plain edged sorts, as the fringed and laced varieties are very much better. Price, 15 cts. each; \$1.50 per dozen.

SINGLE PETUNIAS.—From an extra choice strain of seed, obtained from the best flowers of California Giants. In assorted colors and stripes. Each, 10 cents; \$1.00 per dozen. For Novelties in Petunias, see page 53.

HYDRANGEA OTASKA.

These are second in importance only to Easter Lilies and Acadeas for Easter decoation, as they are exceedingly showy and effective, and are very largely grown for

Salvia Splendens.

that purpose. They are also particularly effective when grown as large specimens in tubs for the decoration of lawns in the summertime, for which purpose they are admirably adapted. They are exceedingly ornamental, producing splendid ef-

Hydrangea Otaska.

fects, the plants being covered with a solid mass of their large, showy heads of bloom. which remain beautiful for months. They can be wintered in any cool cellar with little or no trouble, and the plants increase in beauty from year to year—the larger they grow, the more effective they become. While they are principally grown in pots or tubs, they can also be planted in the open ground, and while not entirely hardy, will live if given a slight protection to prevent freezing the flower buds. We grow Hydrangeas very largely, and carry a large stock of dormant plants in all sizes from fall until spring. During spring and summer we can supply plants in bud or full bloom, as may be desired. We al-

ways have a fine lot of tubs for mid-summer flowering, and can furnish plants in almost any condition desired by customers.

OTASKA.—The favorite, large-flowered, pink variety. Young plants, 20c each; \$2.00 per doz.; Blooming plants, 5-in. pots, 40c each; \$4.00 per doz.; 6-in. pots, 60c each; \$6.00 per doz.; 7-in. pots (as shown in engraving), \$1.00 each; \$10.00 per doz. Large specimens; \$1.50 to \$2.00 each. Large specimens in tubs, well budded, \$4.00 each.

SALVIA—(Flowering Sage).

The Salvia is one of the most beautiful of all flowers. We would especially recommend the Salvia Splendens as one of the grandest plants in cultivation—a bed of them surpassing the finest scarlet geraniums in brilliancy and continuous bloom. 10c each; \$1.00 per dozen. The set of three varieties, 25c.

SALVIA SPLENDENS (Scarlet Sage).—Most gorgeous plants, with spikes of intense vivid scarlet flowers. The flower spikes measure 10 to 12 inches in length, and there are as many as 200 spikes on a well-grown plant. They continue to flower most profusely all summer and until killed by late frosts (see cut). 10c each.

SPLENDENS ALBA.-Identical with Splendens in every respect except color, which is our white. 10c each.

VARIEGATED GROUND IVY.

A thrifty and rapid grower, and a fine acquisition to the list of basket or vase plants. It has light-green leaves bordered with pure white. Hardy; excellent for cemetery (see cut.) Each, 10c; \$1.00 per dozen.

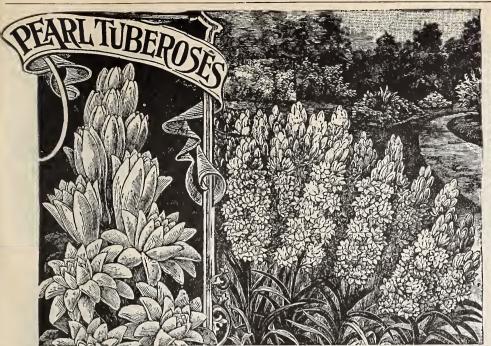

PASSION FLOWER.—(Passiflora.)

Everyone is familiar with the beauty and the graceful climbing habit of Passifioras. They are valuable for window culture, and can be planted in the open ground during the summer. CONSTANCE ELHOTT.—A valuable novelly, with large, handsome and very fragrant flowers of pure ivory-white, with laised center. Hardy in the open ground if given a light covering of leaves during the winter. 20c each; 2 for 35c.

PFORDTI.—A beautiful blue flower shaded with rose. It blooms freely when only a foot high, and is the best sort for window culture. 20c each; 2 for 35c.

Variegated Ground Ivy.

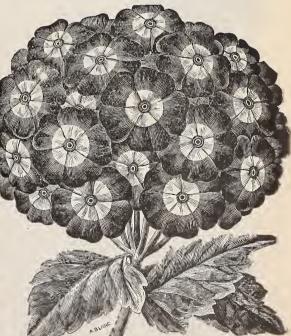

NEW EVER-RLOOMING TUBEROSE.

A wonderful new single Tuberose that blooms continuously from early in July until it is stopped by frost Unlike any other tuberose it flowers year after year from the same bulb the young roots also producing flower stems. In this way it forms large clumps, frequently having 15 to 20 large spikes in full bloom at one time. The immense spikes of bloom are borne in great profusion and keep fresh and fragrant for weeks when placed in vases of water. This is the most remarkable and valuable novelty offered this season, and was awarded the Shaw Gold Medal for the best new plant introduced in 1897 (see cut). 15c each, two for 25c: \$1.25 per dozen. two for 25c; \$1.25 per dozen.

VERBENAS.

(Mammoth Strain.)

One of the most useful plants for bedding out. Are of the simplest culture. Verbenas should not be grown on the same bed for several years in succession, as they do best in fresh soil. Grow an extensive collection of the new mammoth strain, including all shades from pure white to deep purple and nearly black (see cut). Price, loc each; 3 for 25c; 75c per doz., or 20 plants, unnamed, for \$1.00

New Mammoth Verbenas.

NEW GIANT-FLOWERED VIOLET, CALIFORNIA.

The plant is a robust grower with dense, heavy foliage, entirely free from the disease that is so destructive to the older sorts. Flowers single, intensely fragrant; color a clear violet-purple that does not fade. The flowers are very large and borne on stems ten to twelve inches long, giving them unusual value for cut flowers (see cut).

Each, 15 cents; per dozen, \$1.50.

For Novelties in Violets, see page 55.

ABRIDGED LIST.

Lack of space prevents us from giving an extended description of the following well-known and useful plants.

ACHANIA MALVIVISCUS.—Suitable for outside planting or house colture; color a brilliant scarlet. Each, 15c.

ANTHERICUM VITATUM VARIGATUM ..- A dwarf decorative plant, with green and white foliage. Each, 15c.

ALTERNANTHERAS.—A border plant in three varieties, yellow and green, metallic red and ruby red. Each, 10c; per dozen, 60c.

ASTERS. (China),—From the choicest strain of German seed; assorted colors. Ready April 15. Each, 10c; per dozen, 75c.

AZALEAS.—Double and single varieties, in assorted colors of white, plak, red and striped. Large plants, each, \$1.00.

ASPIDISTRA.—In two varieties, green and variegated. The hardiest house plant. Large size, each, \$1.00. ASPARAGUS.—A very hardy fern·like variety, well adapted for a table

plant. 20c each. ALYSSUM, DOUBLE.—A variety with neat green foliage, bearing spikes of pure, double, white flowers (see cut). Each, 10c.

AGERATUM.—John Douglas, deep marine blue; compact habit, 10c each. AGERATUM (Mexicanum Variegatum).-Leaves variegated. Each, 10c.

ACALYPHA, TRICOLOR.—A beautiful plant with large and highly colored leaves; bright red with blotches of crimson-bronze. Each 10c.

colored leaves; bright red with blotches of crimson-bronze. Each 10c.

BOUVARDIA.—In three colors; red, white and pink. An excellent and winter-flowering plant. Each, 15c.

COBAEA SCANDENS.—A vigorous-growing climber, with large bell-shaped flowers; a valuable trailing plant. Each, 15c.

CRAPE MYRTLE.—Ā hardy, shrubby plant, with beautiful fringed pink blossoms; free-flowering. Each, 25c.

CENTAUREA GYMNOCARPA.—A valuable plant for ribbon bedding in contrast with Coleus (see cut). Each, 10c; per doz., 75c.

CUPHEA PLATYCENTRA (Cigar Plant).—Tubular flowers; light scarlet, shaded purple. Each, 10c,

CYCLAMEN PERSICUM .- White, crimson, pink, etc. Each, 20c.

CALENDULA METEOR .- Bright orange flowers; blooms all summer; ready April 15 (see cut). Each, 10c.

CARNATION, MARGUERITE.—A very dwarf variety, growing only about nine inches high, and flowering all summer. Each, 10c.

ERYTHRINA CRISTA GALLI (Coral Plant).—A strong-growing summer-flowering plant with scarlet, pea-shaped flowers. Each, 25c.

EUPHORBIA SPLENDENS (Crown of Thorns).—Thorns and decidedly odd; bearing beautiful heads of brilliant scarlet flowers. Each, 25c.

FERNS.-Twelve choicest sorts; Maiden's Hair and others. Each, 15c. FEVERFEW, DOUBLE WHITE.—Useful for summer flowers. Each, 10c; per dozen, \$1.00.

FICUS ELASTICA (India Rubber Tree).—A valuable decorative plant for either table or house decoration; fine plants. Each, 75c.

FICUS NITIDA.—A very handsome evergreen plant for house culture. Similar to the rubber plant, but leaves are smaller. Each, 25c.

GAZANIA SPLENDENS.—A most useful plant for vases, of drooping habit, with large yellow flowers. Each, 15c; per dozen, \$1.50.

IVY (English).—An evergreen climber, remaining green all the year. Valuable for cemetery planting (see cut). Each, 20c, per dozen, \$1.50.

GERMAN, OR PARLOR IVY.—Leaves plain green; a most rapid grower, of easiest culture. Each, 10c.

MACROGLOSSUS.—Dark metallic-green leaves; thick and fleshy, resembling the English Ivy. Each, 15c.

LEMON VERBENA.—A universal favorite, and invaluable for its fragrant leaves; useful for bouquets. Each, 15c and 25c. MYOSOTIS PALUSTRIS (Forget-me-not).-Large flowering; dark blue.

MUSK PLANT (Mimulus Moschatus).—A rapid-growing plant, the leaves of which throw off a musk scent. Each, 10c,

MADEIRA VINE (Mignonette Vine) .- Per dozen, 30c.

MAURANDIA.—A free-flowering climber. Useful for hanging-baskets, vases, etc. Each, 10c.

MANETTIA BICOLOR.—A pretty climber, with scarlet colored flowers, tipped with yellow; of easy culture. Each, 15c.

NIEREMBERGIA (Gracilis).—A graceful, ever-blooming bedding plant, With light blue colored flowers. Each, 10c.

POMEGRANATE.—A handsome plant for the garden. Orange-scarlet flowers followed by pear-shaped fruit of reddish-orange color, Each, 10c. PALM, LATANIA BARBONICA (Fan Leaf Palm).—Each, 50c, \$1.00, \$1.50 and up to \$3.00; according to size.

KENTIA BELMOREANA.—Strong plants, 2½ feet high, with three or four perfect leaves (see cut). Each, \$2.50; smaller plants, \$1.00each.

ARECA LUTESCENS.—A graceful palm, with glossy green leaves on a slender stem; stocky plants, Each, \$1.00, \$1.50, \$2.00, \$3.00, \$4.00 and \$5.00; according to size.

PANDANUS UTILUS (Screw Palm).—A very attractive plant, either for the house or for the center of a vase. Each, 35c, 50c and \$1.50.

SMILAX.—No climbing plant in cultivation equals this in graceful beauty of foliage. Each, 15c.

SOLANUM JASMINOIDES GRANDIFLORUM.—A climbing plant, with white star-shaped flowers borne in clusters. Each, 15c. SANSEVERIA ZEYLANICA.—One of the few plants that flourish in the living-room. A handsome window-plant and very showy. Each, 20c; 3 for 50c.

TRADESCANTIA, MULTICOLOR. - Variegated Wandering Jew. Each, 15c.

UMBRELLA PLANT (Cyperus' Alternifolius).—An ornamental grass; splendid as a water-plant for the center of aquariums. Each, 15c to 25c.

English Ivy.

Sanseveria.

Alyssum.

Centaurea.

Marguerite Carnation.

Calendula.

AMPELOPSIS.

VEITCHII (Boston Ivy).—This is the most popular of all climbing plants, entirely hardy, clinging to stones, brick or woodwork with the greatest tenacity. During the summer the leaves change to the brightest tints of scarlet, crimson and orange, so dazzling as to be seen at a great distance (see cut). Ist size, extra strong pot-grown, 2 to 3 feet, 35c each; \$3.50 per dozen. 2d size, extra strong pot-grown, 1 to 2 feet, 25c each; \$2.50 per dozen. 3d size, extra strong pot-grown, 6 to 9 inches, 15c each; \$1.50 per dozen.

QUINQUEFOLIA (American Ivy, or Virginia Creeper).—A strong rapid grower, clinging firmly to walls, brick and stone or wood, without support; suitable for verandas, porches, trunks of trees, etc. Perfectly hardy. Each, 15c; large plants, 25c.

AKEBIA QUINATA.

A twining plant, with rich dark-green foliage and curious brown flowers of the most powerful and delicious fragrance. Attains the height of 20 feet. Each, 25c.

BIGNONIA RADICANS.

(Trumpet Creeper.)

A splendid climbing plant, suitable for covering dead trees, walls, fences, etc., producing large clusters of trumpet-shaped, orange-red flowers, about 3 inches long. Each, 30c.

CHINESE WISTARIA.

This is one of the most popular of our hardy vines, growing very rapidly, elimbing to a height of fifty feet or more; when in bloom is truly magnificent. It flowers in early spring in long, drooping racemes, resembling in size and shape a bunch of grapes (see cut).

SINESIS (Chinese Glycene).—The favorite variety, producing thousands of pendulous clusters of delicate violet-blue blossoms, richly perfumed. Each, 50c.

SINESIS ALBA .-- Of similar habit to Sinesis, with pure white flowers. A lovely climber. Each, 50c

MAGNIFICA.-Blue flowering. A beautiful variety and free kloomer; grows freely in any place. Each, 50c.

HONEYSUCKLE.

HALLIANA.—A variety introduced from Japan. It is evergreen and a constant bloomer; flowers pure white, changing to yellow; very fragrant; good for trellises or pillars (see cut). Each, 1st size, 36 inches high, 50c; 2d size, 20 inches high, 25c.

SCARLET TRUMPET, OR CORAL.—A very strong variety, producing beautiful scarlet flowers all summer. One of the best. Each, 1st size, 36 inches high, 50c; 2d size, 20 inches

high, 25c

MONTHLY FRAGRANT, OR DUTCH.—A fine, rapid-growing variety; flowers large and fragrant; color red and yellow; a constant bloomer. Each, 1st size, 35 inches high, 5c; 2d size, 20 inches high, 25c.

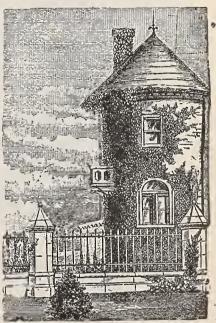

YELLOW TRUMPET.—A hardy, rapid-growing variety, with yellow-colored flowers, blooming the entire summer. Each, 1st size, 36 inches high, 50c; 2d size, 20 inches high, 25c.

HARDY CLIMBING ROSES.—For prices and list of varieties, including the four New Ramblers. See pages 59 and 65.

CLEMATIS.—See pages 52 and 74.

CHINESE MATRIMONY VINE (Lycium Chinense).—A vigorous hardy climbing plant with bright purple flowers, succeeded by brilliant scarlet berries, which ripen in early autumn and remain late on the vine. It will grow in any situation, either shade or sunlight, and in any soil; in fact, nature has given it all the essentials for wide popularity. 20c each; 3 for 50c.

ARISTOLOCHIA SIPHO (Dutchman's Pipe).—Large, showy, light green foliage; flowers long and pipe-shaped, hence the name. A very rapid-growing vine, and where a dense screen is desired nothing can be better. Price, 35c each; 3 for \$1.00.

Ampelopsis Veitchii.

Honeysuckle.

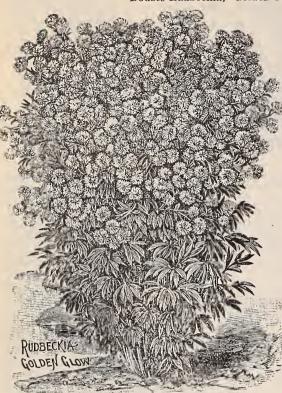

HARDY PERENNIAL PLANTS.

For Permanent Planting in Borders or Beds.

The demand for this valuable class of plants for the hardy border and flower garden increases every season. Perfectly hardy; they grow and bloom freely with ordinary care, and when once established increase in value and beauty every year.

GRAND NEW HARDY PERENNIAL.

Double Rudbeckia, "Golden Glow."

This is a superb new hardy perennial plant, growing 8 feet high, branching freely and bearing by the hundreds, on long graceful stems, exquisite double flowers of the brightest golden color and as large as Cactus Dahlias. The stailwart plants, laden with sheaves of goiden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance, is a sight not soon forgotten. As cut flowers the blooms last well. It is a strong grower, is perfectly hardy and blooms continuously throughout August and September. We regard it as one of the most effective decorative plants in cultivation. Strong plants, 20c each; 3 for 50c; 7 for \$1.00.

Dicentra Spectabilis (Bleeding Heart.)

Chrysanthemum Maximum.

A hardy perennial plant, forming a bush that is literally covered with large, pure white blooms. For garden or carries or garden or ceme-tery decoration it will be found very desirable. Each, 15c; \$1.50 per doz.

A rapid-growing variety with small white, sweet-scented flowers. Each, 25c.

Double Daisy

DOUBLE DAISY.

Plant in a cool, shady place, if possible. In severe winters they need a slight protection of straw or of leaves. Three varieties, double white, double red and Longfellow (see cut). Each 10c, 75c

Hardy Double Sunflower.

HARDY DOUBLE SUNFLOWER (Helianthus Multiflorus).—The piants are covered with bright golden yellow double flowers about the size of a Dahlia. The flowers are very desirable and showy for cutting, remaining bright and fresh for several days. A perfect gem (see cut). Each, 15c.

DECENTRA SPECTABILIS.

(Bleeding Heart.)

A hardy perennial plant, with rose-colored flowers in great abundance; one of the best border plants; perfectly hardy and easily cultivated; two feet high; flowers in April or May (see cut). Each, 25c.

Achillea, The Pearl.

ACHILLEA, "THE PEARL."
One of the very best white-flowered plants for the border. The flowers are borne in the greatest profusion the entire summer on strong, erect stems. Pure white in color, somewhat resembling pompon chrysanthemum. As a summer cut bloom it is a great acquisition (see cut). Each, 10c; \$1.00 per dozen.

Gaillardia, Gypsy Queen.

COREOPSIS LANCEOLATA.

This plant makes a dense tuft of glossy foliage, which is rich and bright until hard frosts, bearing blossoms of the most brilliant goldenyellow, as large as a silver dollar; entirely hardy and will grow in any soil (see cut). Each, 15c; two for 25c; per doz., \$1.50.

PHLOX SUBULATA.

WHITE .- A beautiful, pure white form of the common Moss Pink, with deep, shining green foliage. It flowers so freely as to completely hide the foliage.

ROSE COLORED. - The common Moss Pink. Very free flowering; pinkish purple with dark center.

Each, 10c; per dozen, \$1.00.

Coreopsis Lanceolata.

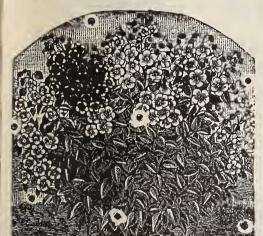

HARDY GAILLARDIA, GYPSY OUEEN.

This is an improvement over the older varieties. The coloring is something gorgeous. The center is dark reddish-brown, while the petals are orange, crimson and

red. It is perfectly hardy, increasing in size and beauty from year to year. Very free-flowering (see cut). Each, 20c; 3 for 50c; per doz., \$1.50; large clumps, 50c; 3

FUNKIA ALBA, DAY LILY.

The Funklas all make handsome, showy plants, and this is the best of the class. Beautiful, broad ovate leaves, with large, lily-like, pure white, fragrant flowers in large clusters. Each 20c; six for \$1.00.

The New Hybrid Hibiscus.

HYBRID HIBISCUS.

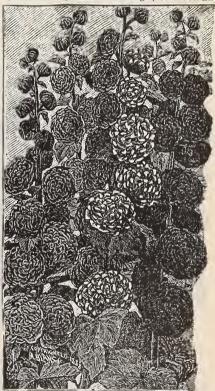

This hardy Hibiscus, which has become known as the Giant Flower, has been one of the novel attractions at our grounds this summer. They are perfectly hardy in any place, and each spring send up numerous branches, which grow 5 to 8 feet high. The flowers are about a foot across, being the shape of large saucers. The colors range from pure white shades of blush and pink to deep brilliant rose (see cut). Each, 20c; 3 for 50c.

Delphinum Formosum.

(Perennial Larkspur.)

One of the handsomest and most satisfactory of all the hardy herbaceous plants, and should be planted extensively, even in the smallest garden; its long spikes of bright blue flowers are produced continually from June until frost. Each 15c; two for 25c.

HOLLYHOCKS.

Double Hollyhocks.

Iris, Kempterii.

Our strain of Double Hollyhocks is truly grand. Flowers very large and perfectly double; colors very brilliant, embracing yellow, lemon, white, black, rose, pink, deep red, variegated, etc. They produce spikes of bloom 4 and 5 feet long, which are exceedingly show. Plants t at will bloom this season (see cut). Each, 20c; per doz., \$2.50.

IRIS.

FLORENTINA.—The flowers are large, measuring 5 to 7 inches in diameter, orchid-like form, color a clear silvery white, beautifully tinted with soft canary yellow. The plant is hardy, of a sturdy, upright growth. Each, 15c; large plants, 35c; extra large clumps, each, \$1.00.

KEMPFERII.—A fine, hardy border plant, bearing very large showy flowers from 4 to 6 inches in diameter. The colors are brillian nades of azure blue, royal purpleand violet, with occasional markings of yellow and white. The plants are entirely hardy (see cut). Each 20c

GERMANICA.—These early-blooming plants, with flowers exquisitely striped with dark violet, purple or bronzed lines upon a lighter ground. They are entirely hardy; need no protection in win ter. Each, 15c,

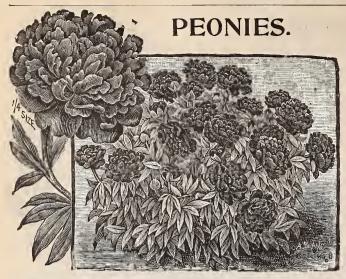

WHITE EVERLASTING SWEET PEA.

A hardy climber, producing pure white flowers the entire summer in great abundance; admirably suited for covering trellises, etc. (see cut). Each, 25c; five for \$1.00.

White Perennial Sweet Pea

well in any ordi-nary soil (see cut).

Magnificent hardy plants, thriving in almost any soil or situation.' make a magnificent display of flowers and foliage; very fragrant. In four distinct colors, white, blush, pink and dark red; strong roots (see cut). Each, 50c; \$70r\$1.25.

PLATYCODON GRANDIFLORUM.

A valuable perennial, forming a dense branching bush of upright habit, with neat foliage, and from middle of July until late September bearing a constant succession

Platycodon Grandiflorum.

Pinks, Hardy Garden.

NEW HARDY PHLOXES.

There is no class of hardy plants more desirable than the perennial Phlox. They will thrive in any position and can be used to advantage in the hardy border, in large groups on the lawn, or planted in front of belts of shrubbery, where they will be a mass of bloom the entire season. We ofter an excellent assortment, selected with great care from the best of European collections.

COLLECTION OF NEW FRENCH VARIETIES.

ALCESTE .- Lilac-white; large, violet center; fine, large flowers. EMANUEL HERE .- Rosy mauve; bright, crimson center. CAMERON.—Large, white flowers; rosy, crimson center (see cut). PANTHEON.-Rosy salmon; very large.

Each, 15c; the Set of 4 for 25c.

UNNAMED VARIETIES.

Fine assortment of colors. 10c each. \$1.00 per dozen.

GOLDEN DAY LILY.

A beautiful plant with handsome sword-shaped leaves and large, lily-like flowers produced with great freedom for a long season. Color bright orange yellow. Of easy culture and thrives well in a moist soil and in partial shade. Showy and effective in the border or shrubbery. Each, 10c; 3 for 25c; dozen, 75c.

YUCA FILAMENTOSA.

An evergreen. This plant is an object of beauty the year round, if only its leaves are seen; the flower stakks are four to five feet high, with 50 to 200 beilshaped, creamy-white blossoms langing from branching arms; hardy (see cut). Each, 25c; large plants, 50c.

Yucca Filamentosa

PINKS (Hardy Scotch).—These grow about 1 ft. in height, the colors being of various shades of maroon, carmine and rose, on white ground; flowers perfectly double, clove-scented; entirely hardy (see cut). Price, 10c each; \$1.00 per dozen.;

ALTHEA, OR ROSE OF SHARON.

These flowers are of large size, bell shaped, very double and full; borne in great profusion in August and September, when other flowers are scarce. The plant is of regular and compact growth, with deep, glossy green leaves. It thrives in all ordinary situations and is entirely hardy in the middle States. We offer four distinct varieties—single purple, single rose, double white, single white. Each, 25c.

ALTHEA (Variegated Leaves.—A very beautiful and distinct variety; regular and compact growth; haif of each leaf is deep green and haif pure white; double, bright plnk flowers; very desirable. Each, 36c.

ALMOND, DOUBLE PINK AND WHITE.

Beautiful shrub of dwarf habit, bearing abundantly in May, before the foliage appears, small double flowers, like miniature roses, set closely along the branches. Each, 50c.

BARBERRY, PURPLE-LEAVED.

Violet-colored foliage and fruit; very effective as hedge plants. Large size, about 24 to 30 inches high. Each, 35c; second size, 12 to 14 inches high, 25c.

CALYCANTHUS, FLORIDUS,

(Sweet-scented Shrub, or Carolina Allspice.)

Flowers of a chocolate-brown color, with a powerful aromatic and fragrant odor from May to August. The leaves and wood are also fragrant; 18 to 24 lnches. Each, 25c; 2 to 3 feet, 35c.

CORCHORUS JAPONICA.

• Double yellow flowers about an inch in dlameter along the branches in mldsummer. Each, 25c; per dozen, \$2.50; extra slze, 35c; per dozen, \$3.50.

DEUTZIA.

GRACILUS.—Flowers pure white, bell-shaped; very dwarf-growing; perfectly hardy. Valuable for cemetery planting. Two-year-old plants, 12 to 16 inches high, each, 25c.

each, 25c.

PRIDE OF ROCHESTER.—Flowers pure white, the back of petals only being slightly tinged with rose; it excels all other sorts in size of flowers. Large two-year-old plants, 36 to 40 inches high, each, 35c; second size, 20 to 30 inches high, 25c.

FORSYTHIA, OR GOLDEN BELL.

An old and valued shrub, growing 4 to 5 feet high, and in April or May, before its leaves appear, robing itself the length of its branches in pendulous bells of a bright yellow color. Strong plants, 24 to 36 inches, each, 35c; second size, 18 to 20 inches, 25c.

PURPLE FRINGE.

A beautiful, distinct, large shrub, much admired for its long, feathery flower stalks, which give the tree the appearance of being covered with a cloud of smoke. Each, 35c.

WHITE FRINGE.

A very showy shrub, with beautiful, large, glossy follage and delicate fringe-like white flowers. Each, 35c.

PRIVATE OVALIFOLIUM.

(California Privet.)

A vigorous, hardy variety of fine habit and follage, nearly evergreen. Makes a desirable ornamental shrub as well as hedge. Each, 20c; per dozen, \$2.00.4

SNOWBALL.

JAPAN (V. Plicatum).—A variety from North China; moderate grower; flowers pure white and more delicate than the old variety. Two-year-old plants, 24 to 30 inches high, first size, each, 75c; second size, 18 to 20 inches high, 50c. SNOWBALL (Viburnum Opulis Sterilis).—Very beautiful and popular; flowers snowywhite, borne in large bails in early summer (see cut). First size, 36 to 40 inches, each, \$1.00; second size, 24 to 30 inches high, 50c; third size, 18 to 20 inches high, 25c.

SYRINGA GRANDIFLORA.

(Mock Orange.)

One of the most desirable shrubs. Its pure white fragrant flowers make it a universal favorite; perfectly hardy, standing our severest winters without the slightest injury. First size, 36 to 40 inches high, each, 35e; second size, 25c.

GOLDEN-LEAVED ELDER.

(Sambucus Aurea.)

Foliage large and handsome, of the richest golden yellow, which it retains throught out the summer. First size, 30 to 36 inches high, each, 50c; 2d size, 18 to 24 inches, 35c.

Spirea Bumalda .- See next page.

Branch of Snowball.

TREE LILAC.-(Syringa Japonica.)

A species from Japan, differing from all other lilacs in that it makes quite a A species from Japan, differing from all other Illacs in that it makes quite a large tree, 20 to 30 feet high, instead of growing in bush form as all other Illacs do. The foliage is large, very dark green, glossy and leathery. Flowers white, n immense clusters, 18 to 20 inches long, that stand erect above the foliage on stout stems. Perfectly hardy everywhere. It flowers about a month later than the common sorts, and when crowned with its huge masses of bloom it is a striking and magnificent object, Each, 75c.

LILAC, PERSIAN (Purple,—Of more slender growth and finer foliage than the common illac. Flowers purple, in immense-sized spikes. Each, 35c.

LILAC, PERSIAN (White).—Slender growth, fine, beautiful, white flowers. Each, 35c.

Each, 35c.

(Prunus Pisardi.)

Foliage, fruit and shoots of bright purplish-red, retaining its color during the heat of summer. Entirely hardy. Four to five-foottrees. Each, 35c and 50c.

TAMARIX INDICA.

A tall-growing shrub, with beautiful lace-like light green foliage and pretty, light pink flowers. 1st size, 30 to 36 inches, each, 35c; 2d size, 18 to 24 in., each, 25c.

WEIGELIA.

VARIEGATED LEAVED.—Deep green leaves, with a broad margin of pure white around each; very striking and pretty; rose-colored flowers. 1st size, 24 to 36 inches high, each, 35c; 2d size, 16 to 20 inches

striking and pretty; rose-colored flowers. 1st size, 24 to 36 Inches high, each, 35c; 2d size, 16 to 20 inches high, each, 25c.

ROSEA.—Rose-colored flowers, which clothe every part of the plant. 1st size, 24 to 36 inches high, each, 35c; 2d size, 16 to 20 inches high, each, 25c.

LAVALLE.—New and fine; deep red flowers, entirely unlike other Welgelias; very distinct land beautiful. 1st size, 24 to 36 inches high, each 35c; 2d size, 16 to 20 inches high, each, 25c.

CANDIDA.—Pure white. This is the only white Welgelia that is of any value, all the other sorts being poor growers or bearing pink flowers, 1st size, 24 to 36 inches high, each, 35c; 2d size, 16 to 20 inches high, each, 25c.

HYDRANGEA GRANDIFLORA.

(Hardy Hydrangea.)

The Hydrangea Grandiflora is one of the best and most handsome hardyornamental shrubs ever grown. It blooms the first year and gets better and larger with age; it grows 3 to 4 feet high; is perfectly hardy; flowers pure white (see cut). Strong one-year-old plants, by mail or express, 35c; 2 for 50c; per doz., \$2.50. Strong two-year-old plants, cut back, ready for planting, by mail or express, 50c; 3 for \$1.25; per doz., \$5.00. Extra strong three-year-old plants, cut back, ready for planting, by express only, each, \$1.00.

Spirea, Van Houtte.

SPIREAS

Beautiful shrubs of the easiest culture; very desirable for shrubberies or the flower garden.

BUMALDA.—A very handsome Japanese species, of dwarf, compact habit, that is covered during midsummer anteautumn with a mass of lovely bright rose-colored flowers (see cut, page 86). Each, 35c.

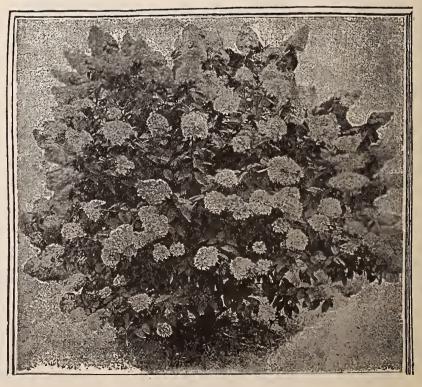

PRUNIFOLIA (Bridal Wreath).—Flowers pure white, borne in profusion entire length of branches, perfectly double, like little daises. 1st size, 24 to 30 inches, each, 35c; 2d size, 18 to 20 inches, each, 25c.

YAN HOUTTE.—A beautiful ornament for the level of

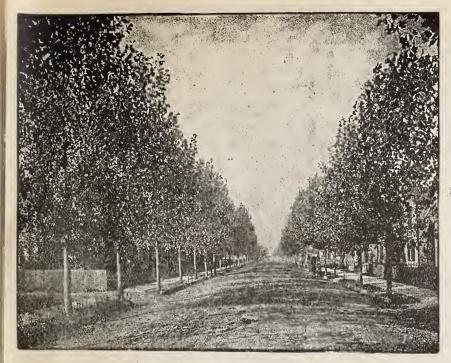

VAN HOUTTE.—A beautiful ornament for the lawn at any season. When In flower it is a complete fountain of white bloom, the foliage hardly showing. Perfectly hardy (see cut). 1st size. 24 to 30 inches high, each 35c; 2d size, 18 to 20 inches high, each, 25c.

REEVESII.—Rather dwarf growth, with long, slender branches, pretty little white flowers, produced in such profusion as to entirely cover the bush. 1st size, 20 to 24 inches high, each, 35c; 2d size, 12 to 18 inches high, each, 35c.

FORTUNII.—A very attractive variety, with large rose-colored flowers. 1st size, 20 to 24 inches high, each, 35c; 2d size, 12 to 18 inches high, each 25c.

Hardy Hydrangea, from Life.

Street Planted with Carolina Poplars.

SHADE AND ORNAMENTAL TREES.

FOR STREET AND LAWN.

MANY NEW AND RARE VARIETIES, NEVER BEFORE OFFERED.

Do not place your orders with irresponsible agents and peddlers, when you can buy better stock at lower prices from an old reliable house.

REES of all kinds, either for the street, lawn or yard, should be set very early in the spring. They are a paying investment, as they not only add to the comfort and beauty of a home, but increase the value of the property more than the same amount of money invested in any other way. We have an immense stock of fine trees, including every variety that can be grown in this climate, all large splendid specimens, free from blemish, with good heads that will be sure to grow if properly planted.

Notice the following list of varieties. If you intend to plant one tree or a hundred, let us know and we shall be pleased to quote you prices.

IMPERIAL CUT-LEAF ALDER .- Graceful tree, delicately cut leaves, hardy and vigorous, 75c to \$1.50 each.

EUROPEAN ALDER (Box Elder).-Of rapid growth, fine foliage; will thrive anywhere \$1 00 to \$1.50.

WHITE ASH.—Rapid grower, fine for street or lawn, \$1.00 to \$1.50.

MOUNTAIN ASH.—A fine, hardy tree, covered from July till winter with great clusters of bright red berries, 75c to \$1.50 each.

EUROPEAN BEECH .- A majestic tree, always symmetrical and handsome, \$1.50 to \$2.00 each.

PURPLE LEAF BEECH .- Purplish colored leaves, most ornamental and effec-

tive, \$1.50 to \$2.00 each.

EUROPEAN WHITE BIRCH.—Very hardy tree, with silvery bark and slender

branches, \$1.50 to \$2.50 each.

CATALPA BUNGEII.—Makes a great bunch of large, heart-shaped leaves;
Standards grafted 8 feet high, \$2.00 each. Dwarfs grafted 2 to 3 feet high,

\$1.00 to \$1.50 each.

DECIDUOUS CYPRESS.—A strong, handsome tree, with soft, feathery foliage,

\$1.00 to \$1.50 each. HORSE CHESTNUT.—Handsome shade tree, with profusion of dark greenfoliage, and in early summer bears masses of pure white flowers, \$1.00 to \$1.50 each.

PARAGON CHESTNUT.—Very beautiful hardy tree of rapid growth, \$1.25 each.

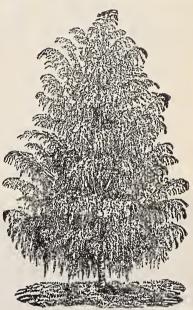

AMERICAN ELM.—A noble tree of large size, with wide spreading branches,

\$1.25 to \$2.00. EUONYMOUS (Strawberry Tree).—A very ornamental and showy small tree, bearing masses of brilliant red berries, which hang in clusters from the branches till mid-winter, 75c to \$1.00 each.

SWEET GUM.—A handsome, hardy, rapid-growing tree, valuable either for street or lawn, \$1.00 to \$1.50 each.

Silver Maple.

Cut-Leaved Weeping Birch.

Weeping Willow.

EUROPEAN LINDEN.-Large, symmetrical tree, fast grower and easy to transplant; a handsome shade tree for the street; \$1.00 to \$1.50 each.

SILVER LINDEN .- Leaves downy white on under surface, very beautiful; \$1.50 each.

EUROPEAN LARCH.—Spreading habit, pine-like foliage, tall and graceful; 75c to \$1.25 each.

LVER MAPLE.—Rapid growing tree, producing a quick shade; \$1.00 to \$1.50 each. (See cut). NORWAY MAPLE.-Hard wooded sort, very handsome and desirable; \$1.50 each.

WEIR'S CUT LEAF MAPLE. -A rapid grower, with delicately cut foliage; \$1.25 to \$1.50 each.

PURPLE LEAF MAPLE.—Very effective, ornamental tree, with purplish leaves; \$1.50 each.

RUSSIAN OLIVE .- Rare and beautiful ornamental tree; \$1.25 to \$1.50.

PAULOWNIA.-Leaves of immense sizes and spiendid tropical effect; rapid grower; 75c to \$1.25

CAROLINA POFLAR.—Grows very fast; good shade tree for street; \$1.00 to \$1.50 each. (See cut).

GOLDEN POPLAR.—New variety, with golden leaves; \$1.00 to \$1.50 each. LOMBARDY POPLAR.-Erect and tail, spire-like form; \$1.00 to \$1.50 each.

PURPLE LEAF PLUM .- Rich purple leaves; exceedingly ornamental; 50c to 75c each.

FERN-LEAVED SUMAC .- A beautiful, low-growing tree, with deeply cut, fern-like, graceful foliage; 75c to \$1.50 each.

SYCAMORE.—A favorite street tree that grows rapidly in any soil; has large leaves and makes a dense shade; \$1.00 to \$1.50 each.

JAPANESE WALNUT (New).-Hardy, vigorous tree; very handsome; \$1.50 each.

TULIP.-Large, stately tree; grows rapidly and bears a profusion of tulip-shaped yellow flowers: \$1,25 to \$1,50 each.

WEEPING TREES.

ROSE ACACIA (Flowering Locust).-Grafted 4 to 6 feet high; bears beautiful pink flowers in clusters; \$1.25 to \$2.00 each.

GOLD BARK WEEPING ASH.—Fast growing tree, with golden leaves and branches; \$1.50 to \$2.50 each.

WEEPING MOUNTAIN ASH .- Splendid ornamental tree, with drooping branches; \$1.50 to \$2.50 each.

CUT LEAF WEEPING BIRCH .- Graceful, drooping, lace-like foliage, white bark; \$1.50 to \$2.50 each. (See cut).

WEEPING DOGWOOD.-A beautiful, ornamental tree of graceful form; very hardy; \$1.00 to \$1.50 each.

CAMPERDOWN WEEPING ELM .- Beautiful specimen tree for the lawn; \$1.25 to \$2.00 each.

WEEPING MULBERRY.—Umbreila shaped head of siender branches drooping to the ground; glossy, dark green leaves. Perfect specimens; \$1.50 to \$2.50 each. (See cut).

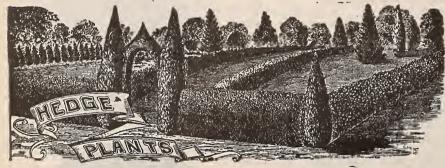

WISCONSIN WILLOW .- The well-known "Weeping Willow;" very easy to grow; \$1.00 to \$1.50 each.

GOLDEN BARK WILLOW .- Branches and stem are bright golden yellow; \$1.00 to \$1.50 each.

NEW AMERICAN WILLOW .- Grafted 6 feet high; magnificent specimen tree for the lawn; \$1.50 to \$2.50 each. (See cut).

LAUREL-LEAVED WILLOW.—Broad, glossy leaves; very ornamental; \$1.50 to \$2.50 each.

KILMARNOCK WEEPING WILLOW.—Branches droop gracefully from where grafted down to the ground; \$1.00 to \$1.50 each.

HEDGE PLANTS.

Weeping Mulberry,

The following varieties are the best for plant-

SPRUCE (Norway) .- Makes a very fine evergreen hedge. 50c each; \$5.00 per doz.; \$35.00 per 100.

PRIVET (California) .- The best shrub for making ornamental hedges. The foliage is dense and thick, and nearly evergreen. It may be pruned into any shade desired. Strong plants, 18 to 24 inches, 20c each; \$2.00 per doz.; \$12.00 per 100.

PYRUS JAPONICA, -- A small, compact shrub that bears bright scarlet flowers before the leaves appear in the spring. 25c each; \$2.50 per dez.; \$15.00 per 100.

OSAGE ORANGE (Mock Orange) .- A rapid-growing, thorny shrub which makes a very effective hedge. 18 to 24 inches high; \$2.00 per 100; \$15.00 per 1,000.

PERSIAN YELLOW ROSE.—The best variety of roses to plant for an ornamental hedge. It is a vigorous grower, perfectly hardy, and is covered in the springtime with bright yeilow flowers; plant 20 to 24 inches apart; 25c each; \$2.50 per doz.; \$15.00 per 100.

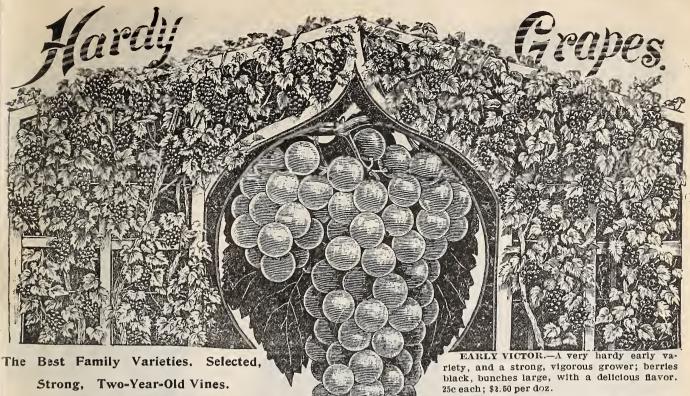

ENGLISH SWEET BRIER ROSE.—A valuable rose for an ornamental hedge on account of its fragrant foliage; flowers rosy pink; plant 20 to 24 Inches apart. 25c each; \$2.50 per doz.; \$18.00 per 100.

BARBERRY THUNBERGII.—A very pretty variety from Japan; of dwarf, graceful habit; foliage small, changing to beautiful bright red early in fail; very showy. 25c each; \$2.50 per doz.; \$18.00 per 100.

LANDSCAPE WORK.

We are often called upon to give advice as to the selection of proper trees and plants for the planting of grounds and for planting plans. We take great pleasure in giving the full benefit of our experience in the way of advice to all who desire it, without charge. If a definite working plan is desired we will send a thoroughly compelent landscape gardener to examine and make a planting plan, and estimate of quantites and cost of stock required, charging only for the actual expense incurred; we will also take charge of the planting of the same if desired. This is the cheapest way for any one having grounds to be ornamented. You not only get the full benefit of the practical knowledge of the nurseyman as to what to plant but in the artistic arrangement of the whole planting.

The variety of our stock enables us to choose the most desirable for a given place. Our long experience in supplying and planting also enables us to avoid errors in this work such as the use of plants not hardy in a given location. We invite correspondence. We can assure all who contemplate planting small or large grounds that the total cost of the sensible planting is far less than by the common way of buying their stock through agents. As we employ no agents, we make specially low prices to parties requiring our services.

NEW GRAPE. IRL R. HICKS.—Especially meritorious for extreme earliness, hardiness, productiveness and good quality. The vine is thrifty, a strong rapid grower, and an abundant bearer. The bunch is large, compact, shouldered and handsome; bears medlum, a trifle smaller than Concord, black with heavy bloom, firm in texture, and of a spicy, pleasant flavor. It ripens one week to ten days earlier

than Moore's Early, ten days to two weeks earlier than Worden, and three weeks earlier than Concord. It is the best very early black grape we know of. One year, each, 50c; 3 for \$1.25; doz., \$4.00.

MOORE'S DIAMOND.—Large, greenish white, juicy, little pulp and of good quality. Has succeeded well wherever grown; yields abundantly; fruit perfect and showy. Ripens very early, 20c each; \$2.00 per doz.

AGAWAN.—A fine, large, red grape; bunches of good size and form; quality excellent. 20c each; \$2.00 per doz.

CONCORD.—An old, popular variety, good grower; berries and bunches large, color black, with a rich bloom. 15c each; \$1.50 per doz.

DELAWARE.—An early red variety, with compact bunches and small berries; very sweet, and of the most excellent flavor. 25c each; \$2.50. per doz.

EMPIRE STATE.—This vine is a strong grower, free from mildew; bunches large, berries nearly round and are white, tinged with yellow. 25c each; \$2.50 per doz.

GOLDEN POCKLINGTON,—This variety is very hardy and productive; the bunches and berries are very large and showy; color a greenish-amber, turning to a golden-yellow when

ripe. 20c each; \$2.00 per doz.

HARTFORD PROLIFIC.—A popular early variety, very reliable as a cropper; bunches large and color of berries black, and round. 20c each; \$2.00 per doz.

MOORE'S EARLY.—Very early and hardy variety, resembling the Concord in style of growth, ripening two week earlier. 25c each; \$2.00 per doz.

MARTHA.—One of the best greenish-white grapes; a good grower and of easy culture. 20c each; \$2.00 per doz.

NIAGARA.—A grand white grape, enormously productive, very hardy and a good clean grower; bunches large, berries greenish-white, turning to a pale amber; flavor very sweet. 20c each; \$2.00 per doz.

SALEM.—A splendid coppery-red colored grape; berries very large, flavor good; one of the best. 25c each; \$2.50

WILDER.—The finest of all the black grapes; good grower; very productive, berries medium in size, bunches large. 20cea; \$2.00 pr dz.

WORDEN.—An improvement on the Concord, being larger in bunch and berry; color black; of excellent flavor. 25c each; \$2.50 per doz.

WYOMING RED.—A red grape, resembling the Delaware in color and flavor, but much larger; ripens about ten days earlier; very hardy and productive. 20c each; \$2.00 per doz.

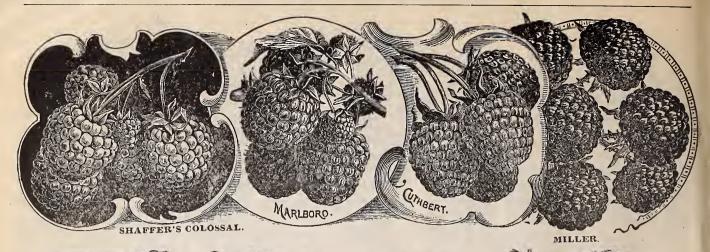

Gooseberry, Lancashire Lad.

GOOSEBERRIES.

INDUSTRY.—The best English variety, of a vigorous, upright growth and a great cropper. Berries, when fully ripe, are a dark-red color and very large, often measuring 1½ inches across. Each, 20c; per doz., \$2.00.

DOWNING.—A large, handsome, pale green variety; splendid for table use or cooking. A vigorous grower; one of the best for family use. Each, 15c; per doz., \$1.50.

LANCASHIRE LAD.—One of the largest of the English varieties; strong grower and very productive; color of fruit bright red and very smooth (see cut). Each, 20c; per doz., \$2.00.

(If ordered to be sent by mail, add 10c per dozen for postage.)

CUTHBERT.—The best red raspberry in cultivation; very hardy and a strong grower; berries large, of crimson color; medium late (see cut). Each, 10c; per doz., 75c; per 100, \$4.00.

MILLER.—A new variety, said to be a heavier cropper than the Cuthbert and a much stronger grower (see cut). Each, 15c; per doz., \$1.00; per 100, \$5.00.

SHAFFER'S COLOSSAL.—A hardy productive variety, with berries a light, purplish color; medium late. Each, 10c; per doz., 75c; per 100, \$4.00.

MARLBORO.—This variety bears the largest beying of the conty

MARLBORO.—This variety bears the largest berries of the early red raspberries; crimson and fine quality. Each, 10c; per doz., 75c; per 100, \$4.00.

LOUDON.—Another season's test confirms the opinion that Loudon has come to stay and is the best red mid-season berry. Its points of superiority are vigor of growth, large fruit, beautiful rich dark crimson color, good quality and marvelous productiveness and hardiness, enduring winters without protection and without injury to the very tips. It stands shipping the best of any variety, and will remain on bushes the longest without injury. Each, 15c; per doz.. \$1.25.

NORTH STAR.—Average growth of the North Star is 3 to 4 feet, frequently branched; the strongest and the most vigorous grower among the red varieties. Bunches averaging 4 inches in length are freely produced. Combines extreme hardiness with vigorous growth; good size, extra quality and great productiveness. Each, 20c; per doz., \$2.00.

CRANDALL TREE CURRANT.—A wonderful new Giant Currant, producing berries \(\frac{1}{2} \) to \(7\) inches in diameter; shiny bluish-black in color, and often mistaken at first sight for Concord grapes. It is marvelously productive, exceeding any other small fruit in yield; seeds few; cooking quality unsurpassed; bushes like common currants, but larger, 10 or 12 feet high. Good plants, each, 25c; 5 for \(\frac{5}{1}.00; 12 \) for \(\frac{2}{2}.00. \)

CURRANTS.

FAY'S PROLIFIC.—The leading red variety, and one that bears very early fruit; large, bright red and good flavor (see cut). Each, 15c; per doz., \$1.50.

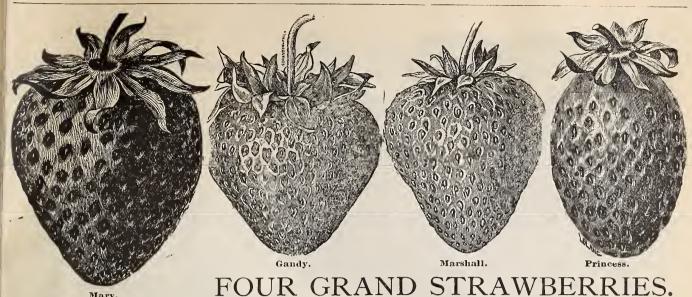

CHERRY.—A well-known red variety, large berries, sometimes one-half inch in diameter; a good grower and very productive. Each, 10c; per doz., \$1.00.

WHITE GRAPE.—The largest white currant, with a sweet, mild, acid flavor; excellent for table use (see cut). Each, 10c; per doz., \$1.00.

LEE'S PROLIFIC.—The best black currant; fruit large and of a superior flavor; a good grower and heavy bearer. Each, 15c; per doz., \$1.50.

White Grape Currant.

PRINCESS (new).—Hardy, vigorous and enormously productive. It roots deep and stands drouth well. The fruit is large, uniformly perfect in form; ripens all over at once, and holds up its size well to the end of the season (see cut). Per doz., 75c; per 100, \$4.50.

MARSHALL (new) -This new sort is especially valuable for its excellent quality and flavor, and therefore very desirable for table use. The plant is strong and luxuriant in growth, productive, and its tollage with stands hot suns well. The trult is uniformly large and of perfect form, dark crimson when fully ripe, but colors up all over before ripe, an advantage where shipment to market is concerned (see cut). Per doz., 75c; per 100, \$4.50.

-The berries are extra large in size and of a high, rich color. In season it is medium late; a very good variety for general use (see cut). Per doz.; 40c; per 100, \$3.00.

GANDY.—The best late variety. The berries are large and very firm; of a bright crimson color. A good variety for market or family use (see cut). Per doz., 40c; per 100, \$3.60.

SPECIAL OFFER.-We will send by mail, postpaid, 1 dozen each of these Four Grand Strawberries for \$1.00, or Fifty of each of

STRAWBERRIES.—General Collection.

If ordered to be sent by mail, add 10c per dozen for postage.

BEDERWOOD.—An early variety, very productive, medium size; cofor a bright crimson; fruit moderately firm. Per doz., 30c; per 100, \$2.00.

BUBACH'S No. 5.—This variety has many excellent qualities—fine flavor, large size, very productive and endures the heat perfectly. Per doz., 30c; per 100, \$2.00.

CRESCENT. - Medium size; color a light scarlet; very vigorous grower, producing a crop with the least cultivation. Per doz., 30c; per 100, \$2.00.

GREENVILLE.—The best variety for general use; medium size, very firm, and of an excellent quality. Per doz., 30c; per 100, \$2.00.

HAVERLAND. — Λ vigorous grower and stands the drought well; fruit long, cone-shaped, of a light scarlet color; very productive (see cut). Per doz., 30c; per 100, \$2.00.

MONMOUTH.—This is one of the earliest varieties and the best for general purposes. The berries are large, very uniform, and of a bright color (see cut). Per doz., 30c; per 100, \$2.00.

CUMBERLAND.—A favorite variety with very large fruit of perfect form and fine flavor. Per doz., 30c; per 100, \$2.00.

SPECIAL OFFER .- \$10.00 per 1,000 for an equal proportion of the 7 varieties.

If ordered to be sent by mail, add 10c per dozen for postage.

ERIE.—A popular standard variety; vigorous grower; fruit exceedingly large and of excellent quality (see cut) Each, 10c; per doz., 75c; per 100, \$5.00.

EARLY HARVEST.—A very early variety, medium size. The best for general use, as it is more productive than any other variety in extreme dry weathe Each, loc; per doz., 75c., per 100, \$5.00.

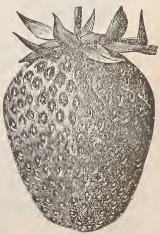

ANCIENT BRITON.—One of the best hardy varieties, and is superseding all others. Very vigorous and hardy, producing large fruit stems, loaded with good-sized berries of excellent quality (see cut).

Each, 10c; per doz., 75c; per 100, \$5.00.

SNYDER.—Valuable for the North by reason of its extreme hardiness. Wonderfully productive, and the berries are sweet and juicy, and when fully ripe without hard core standard early sort. Each, 10c; per doz., 75c.

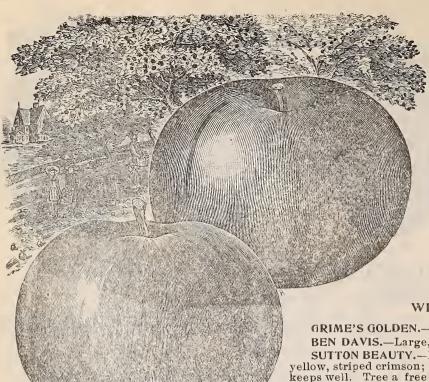

Monmouth.

Haverland.

Ancient Briton Blackberry.

SELECTED APPLES.

Standard, 5 to 7 feet, 25c each; \$2.50 per doz.

SUMMER VARIETIES.

EARLY HARVEST.—Medium, pale yellow; tender.

RED ASTRACHAN.—Large, beautiful deep crimson.

YELLOW TRANSPARENT.—The earliest; pale yellow when fully ripe (see cut).

AUTUMN VARIETIES.

RAMBO.—Medium, tender, juicy; mild flavor.

MAIDEN'S BLUSH.—Large, beautiful; blush cheek.

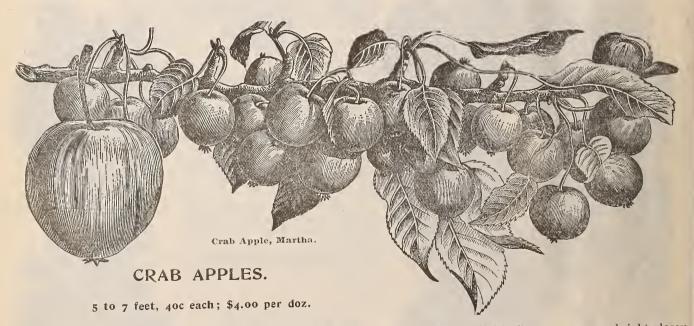

WINTER VARIETIES.

GRIME'S GOLDEN.—Good size, yellow, of highest quality. BEN DAVIS.—Large, handsome, striped; valuable late keeper.

SUTTON BEAUTY.—Medium to large, roundish, handsome, waxen yellow, striped crimson; flesh tender, juicy; sub-acid; good quality; keeps well. Tree a free grower and productive. Has given highest satisfaction wherever planted; is one of the most beautiful and valuable apples.

ROLFE.—Originated in Maine. Vigorous grower, annual bearer; handsome red on yellow ground; flesh yellowish, crisp, juicy, slightly

sub-acid. Splendid for cooking and good for eating.

MARTHA (New).—A rapid, stiff grower and a great bearer of the most beautiful fruit we ever grew; bright glossy yellow, shaded with bright red; a mild, clear tart, surpassing all other crabs known for all culinary purposes, and fair to eat from the hand; October, November (see cut).

WHITNEY.—One of the largest, glossy green, splashed carmine; firm, juicy, pleasant; great bearer; excellent for cider. August.

YELLOW SIBERIAN.—Large, beautiful golden-yellow. September and October.

APRICOT.

4 to 5 feet, 50c each; \$4.00 per doz.

ALEXANDER.—An immeuse bearer, fruit large, yellow with red. July.

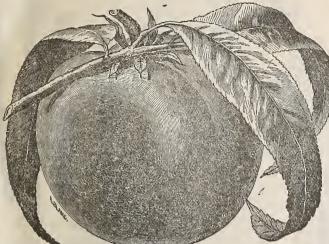

PLUMS.

5 to 7 feet, 35c each; \$4.00 per dozen.

ABUNDANCE.—Beautiful lemon-yellow ground, nearly overspread with bright cherry and with a heavy bloom; large to very large, oblong, tapering to the point like Wild Goose; flesh, orangeyellow, melting, rich and highly perfumed. Abundant and annual bearer. Tree a vigorous, upright grower. Has been thoroughly tested and is highly recommended. August. (See cut.)

BURBANK .- Very similar to Abundance, but of deeper color and ripening later in the season. The fruit is large, nearly globular, clear cherry-red with a thin lilac bloom; flesh a deep yellow, very sweet, with a peculiar and agreeable flavor. The tree is a vigorous grower, with large and broad leaves; usually begins to bear second year after transplanting. August.

OGON.-Large, nearly round, bright golden-yellow; tree vigorous and hardy. August.

Peach, trawford's Early.

5 to 6 feet, 25c each; \$2.50 per dozen.

CRAWFORD'S EARLY .-Very large, yellow with red theek, flesh yellow; excellent. Middle of August (see cut) .

CRAWFORD'S LATE .- Resembles Crawford's Early, but larger, and ripens from two to three weeks later; flesh yellow, juicy and rich.

HEATH CLING (Late Heath).

Abundance Plum. -Large white, with blush cheek; flesh white, fine quality; one of the

best of the clings; ripens late. STUMP THE WORLD .- Large white, with red cheek; flesh white, julcy, high quality; productive and profitable.

PROLIFIC .- A fine, large variety, ripening after Crawford; is taking a high position for both market and home use. Fruit large, attractive, firm; one of the best shippers; flesh yellow, fine flavor. Tree a very strong grower; hardy and productive. September.

MILLER'S CLING .- Vigorous, healthy, hardy and productive. Large goldenyellow, handsome appearance, good quality; remarkably long keeper for so fine a peach. September.

KALAMAZOO .- Large golden yellow, with crimson cheek; flesh thick, yellow, superb quality, smail pit. Strong grower, early bearer, hardy and productive. Between Early and Late Crawford.

PEARS.

5 to 7 feet, 40c each; \$4.00 per dozen.

KIEFFER'S HYBRID.—An early and very prolific bearer; showy and valuable table variety. October and November.

BARTLETT.-Large, juicy, high flavored; great bearer; very popular August and September (see cut).

SECKEL. - Small. yeliowish - brown, red cheek, juicy, melting. Sept. and Oct.

GARBER .- One of the Japan Hybrids; earlier and larger than Kieffer; hardy, productive, early bearer; excellent for canning. Sept. and Oct.

WILDER. - Smail to medium, bellshaped, yellow ground shaded carmine; flesh whitish. yellow, fine grained,

tender, sub acid. Vigorous grower, early and annual bearer, very productive, good quality. One of the best early varieties. Early August.

4 to 6 feet, 40c each; \$4.00 per dozen.

ENGLISH MORELLO.-Fair size, blackish-red, rich, acid juicy, good.

EARLY RICHMOND.—Medium, dark red, juicy, rich, acid. June (see cut). MONTMORENCY ORDINAIRE. Large, red, acid and exceedingly product-Last June.

MAY DUKE .- Large, red, juicy, rich. June.

Pear, Bartlett.

WINDSOR.—Fruit large, liver-coloied, distinct; flesh remarkably firm and of fine quality. Tree, hardy and prolific. A valuable late variety. July.
